WHAT'S INSIDE THE BOX?

Pawfit Lite GPS tracker

Collar strap

Charging cable

Quick release cat collar

 Trustpilot  Rated Excellent

Image: The Pawfit Lite GPS tracker, a collar strap, a charging cable, and a quick release cat collar are included in the package. The tracker measures 41.5mm x 25mm with a depth of 13.8mm and weighs 17.6g.

SETUP GUIDE

- 1. Charge the Tracker:** Before first use, fully charge your Pawfit Lite tracker using the provided charging cable. Connect the cable to the tracker and a USB power source. The indicator light will show charging status.
- 2. Download the Pawfit App:** Download the official Pawfit app from your smartphone's app store (available on iOS and Android).
- 3. Create an Account:** Open the app and follow the on-screen instructions to create a new user account or log in if you already have one.
- 4. Add Your Tracker:** Within the app, select the option to add a new device and follow the pairing instructions. This typically involves scanning a QR code on the tracker or entering its ID.
- 5. Attach to Collar:** Securely attach the Pawfit Lite tracker to the provided safety collar or another suitable cat collar. Ensure it is snug but comfortable for your cat.
- 6. Activate Subscription:** A subscription is required for the tracker's full functionality. Your purchase includes a 30-day free subscription. Activate this or choose a plan within the app.

OPERATING INSTRUCTIONS

Real-Time GPS Tracking

The Pawfit Lite uses 4G multi-network technology to provide real-time location updates. Open the Pawfit app to view your cat's current location on a map. The tracker connects to multiple satellites for precise positioning, offering unlimited range within network coverage areas.

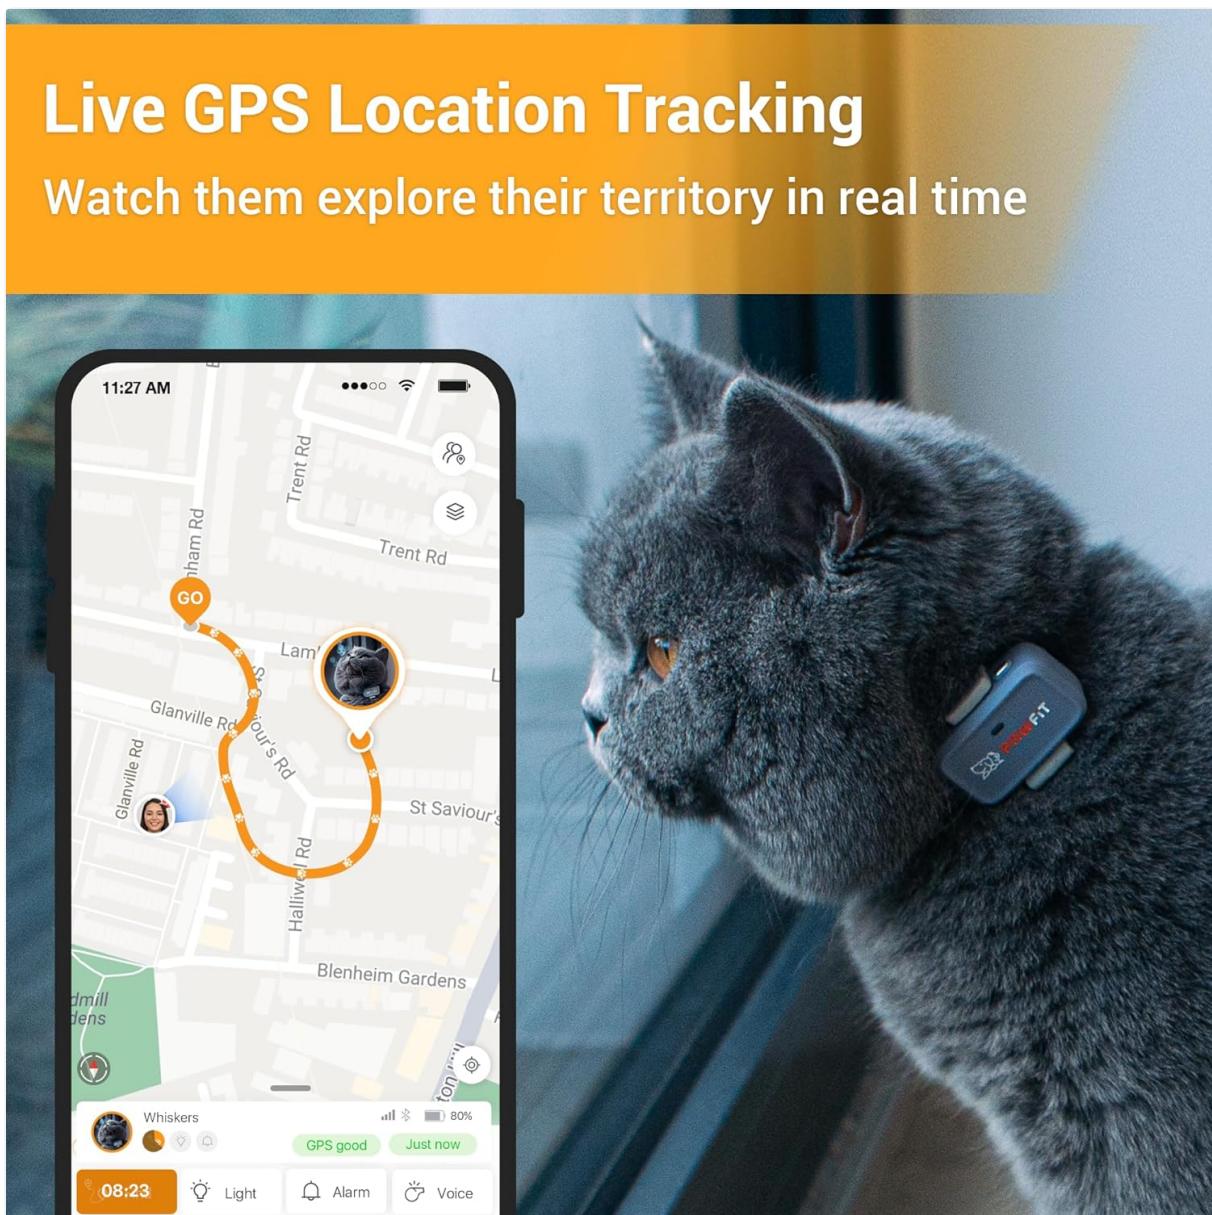

Image: A cat wearing the Pawfit Lite tracker is shown next to a smartphone displaying the Pawfit app, which illustrates live GPS location tracking on a map.

Activity Monitoring

Monitor your cat's daily activity levels directly from the Pawfit app. You can set personalized activity goals and track metrics such as steps taken, active hours, rest hours, calories burned, and distance traveled. This feature helps you understand your cat's behavior and ensure they are getting adequate exercise.

Easy Activity Monitoring

Set goals and track all their daily activity

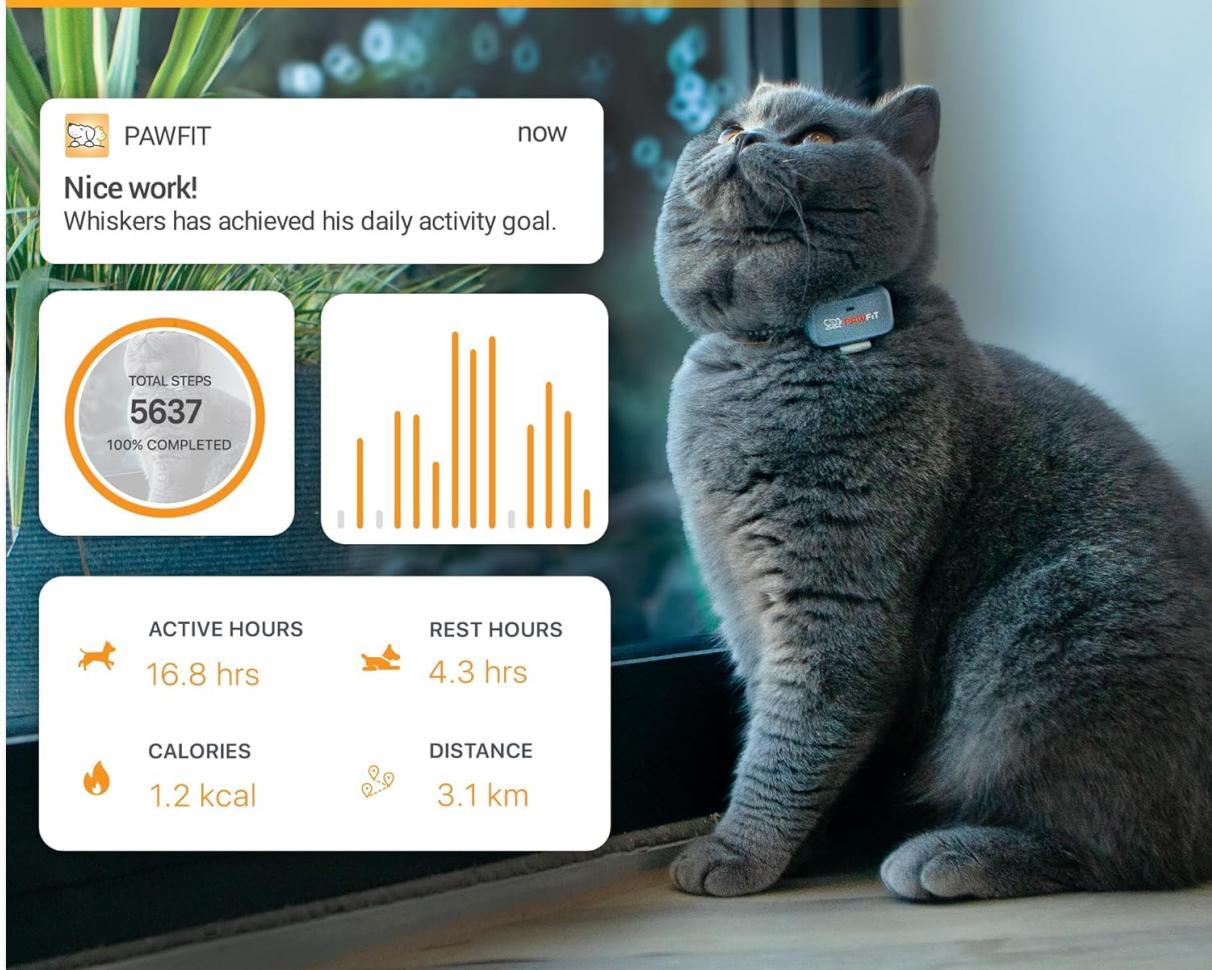

Image: The Pawfit app displays activity monitoring data, including total steps, active hours, rest hours, calories, and distance, providing insights into your cat's daily movements.

Safety Zones and Escape Alerts

Create virtual safe zones within the Pawfit app. If your cat leaves or enters a designated safe zone, you will receive an instant notification on your smartphone. This feature helps you quickly respond if your pet ventures beyond their usual boundaries.

Virtual Safety Zones & 24hr location history

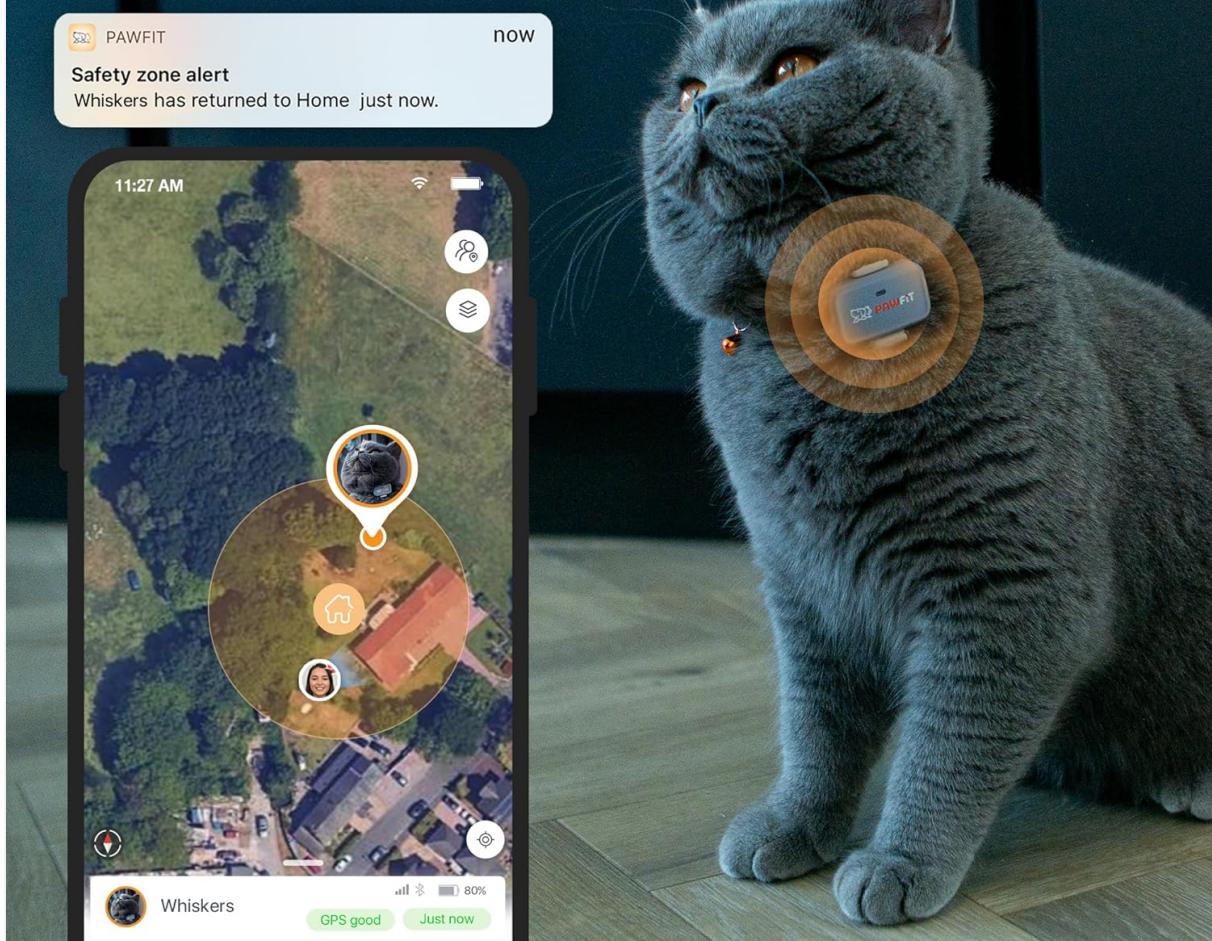

Image: The Pawfit app illustrates virtual safety zones on a map, showing a notification for a safety zone alert when the cat returns home.

Built-In LED Light

The Pawfit Lite tracker includes a bright LED light. This can be activated via the app to help you locate your cat in low-light conditions or at night, making them more visible.

MAINTENANCE

Charging

The Pawfit Lite tracker is powered by a 400 mAh Lithium Polymer battery. Battery life can last up to 3 days depending on usage and tracking frequency settings. Recharge the device using the provided USB cable when the battery level is low. A full charge typically takes a few hours.

Waterproofing

The Pawfit Lite tracker is 100% waterproof with an IP68 rating, suitable for both fresh and sea water. This ensures durability and functionality even if your cat encounters water during their adventures.

TROUBLESHOOTING

- **No Signal/Inaccurate Location:** Ensure the tracker is fully charged and within an area with 4G network coverage. GPS accuracy can be affected by dense foliage, tall buildings, or indoor environments.
- **Tracker Not Charging:** Verify that the charging cable is securely connected to both the tracker and the power source. Try a different USB port or adapter.
- **App Connectivity Issues:** Check your smartphone's internet connection. Ensure the Pawfit app is updated to the latest version. Restarting the app or your phone may resolve minor glitches.
- **Battery Draining Quickly:** Frequent real-time tracking updates and continuous use of features like the LED light can reduce battery life. Adjust settings in the app to optimize battery performance.

For further assistance, please refer to the support section within the Pawfit app or visit the official Pawfit website.

SPECIFICATIONS

Model	Pawfit Lite
Item Weight	5.3 ounces (package weight); Tracker: 17.6g
Tracker Dimensions	41.5 mm x 25 mm x 13.8 mm
