SETUP

Your Montague Lane bag comes ready for use. Follow these steps for initial setup:

1. **Unpacking:** Carefully remove the bag from its packaging. Inspect for any shipping damage.
2. **Strap Attachment (Optional):** If you wish to use the bag as a crossbody or shoulder bag, locate the detachable webbing strap. Attach the metal clasps on each end of the strap to the D-rings located on the sides of the bag, near the top handles. Ensure both clasps are securely fastened.
3. **Strap Adjustment:** Adjust the length of the webbing strap using the slider buckle to achieve your desired carrying length. The strap has a maximum drop of 23 inches (58 cm).
4. **Initial Inspection:** Open and close all zippers to ensure smooth operation. Familiarize yourself with the interior and exterior pocket configurations.

OPERATING INSTRUCTIONS

This section provides guidance on how to effectively use your Montague Lane bag.

Carrying Options:

- **Satchel Carry:** Use the two sturdy PU top handles for hand or arm carry.
- **Crossbody/Shoulder Carry:** Attach the adjustable webbing strap for comfortable crossbody or shoulder wear. Adjust the strap length to suit your preference.

Storage and Organization:

- **Main Compartment:** The main compartment is secured with a zip fastening. This area is suitable for larger items such as a tablet, notebook, or water bottle.
- **Interior Pockets:** Inside the main compartment, you will find a zip pocket for securing valuables like keys or a wallet, and slip pockets for easy access to smaller items like a phone or lip balm.
- **Exterior Front Pockets:** The bag features two front pockets, one with a zip closure and one slip pocket, ideal for items you need to access quickly, such as travel cards or tissues.

MAINTENANCE AND CARE

Proper care will extend the life and maintain the appearance of your Radley London Montague Lane bag.

- **Cleaning:** For general cleaning, wipe the nylon and PU trim surfaces with a soft, damp cloth. For stubborn marks, a mild soap solution can be used, but always test on an inconspicuous area first. Avoid harsh chemicals or abrasive cleaners.

- Drying:** Allow the bag to air dry completely after cleaning. Do not use direct heat sources like hair dryers or radiators, as this can damage the material.
- Storage:** When not in use, store your bag in a cool, dry place away from direct sunlight. To help maintain its shape, you can lightly stuff it with tissue paper.
- Avoid Overloading:** While durable, avoid consistently overloading the bag, as this can strain seams and zippers.
- Protect from Sharp Objects:** Be mindful of sharp objects inside or outside the bag that could puncture or tear the fabric.

TROUBLESHOOTING

This section addresses common issues you might encounter with your bag.

Problem	Possible Cause	Solution
Zipper sticking or difficult to move.	Dirt or debris in the zipper teeth; zipper misaligned.	Clean the zipper teeth with a small brush or damp cloth. Apply a small amount of zipper lubricant (e.g., wax, silicone spray) to the teeth. Gently work the zipper back and forth.
Strap feels uncomfortable or too long/short.	Strap not adjusted correctly.	Use the slider buckle on the webbing strap to adjust its length until it feels comfortable for your preferred carrying style (shoulder or crossbody).
Bag losing its shape when empty.	Natural characteristic of soft-sided bags; improper storage.	Lightly stuff the bag with tissue paper or soft material when not in use to help maintain its structure. Store upright.
