Philips Norelco X9001/91

Philips Norelco Shaver i9000 Instruction Manual

Model: X9001/91

Brand: Philips Norelco

Introduction

The Philips Norelco Shaver i9000 is designed to provide a perfect close shave and skin comfort. Featuring advanced SenseIQ Technology, Triple Action Lift & Cut System, and 360 Rotating Dual SteelPrecision Blades, this shaver adapts to your beard density and facial contours for an effortless and gentle shave. This manual will guide you through the proper use and care of your new shaver.

Product Overview

Your Philips Norelco Shaver i9000 package includes the following components:

- 1x Shaver i9000
- 1x 5+1 precision beard styler
- 1x travel case
- 1x Quick Clean Pod
- 1x cleaning cartridge
- 1x cleaning brush
- 1x USB-A cable (power adapter not included)

Key Features

The Shaver i9000 incorporates several advanced technologies for superior performance:

SenseIQ Technology

Powered by AI, SenseIQ technology delivers intelligent skin comfort personalized to you. It reads hair density 500 times per second and adapts cutting power for an effortless and gentle shave, even on a dense beard. The Hydro SkinGlideCoating delivers 50% smoother gliding on the skin for less friction and maximum comfort.

Triple Action Lift & Cut System

This system cuts hair up to 0.00mm at skin level for long-lasting closeness, even in hardest-to-shave areas like the neck and under the nose. The new flexible compact heads adapt to every curve of your face and provide constant skin contact for 20% more precise shave.

Dual SteelPrecision Blades

Designed to cut hair in any direction, these 360 rotating blades deliver 7 million motions per minute, ensuring an efficient shave on a 1, 3, or 7-day beard.

Precision Flexing Heads

The shaver features 360-degree precision flexing heads that dynamically adapt to every curve of your face, providing 20% more precision even in hard-to-shave areas.

Setup

Before first use, fully charge your Philips Norelco Shaver i9000. Connect the provided USB-A cable to the shaver and a compatible USB-A power adapter (not included). A full charge takes approximately 1 hour. For a quick shave, a 5-minute charge provides enough power for one full shave.

Operating Instructions

The Philips Norelco Shaver i9000 can be used for both wet and dry shaving, even in the shower. For optimal results, follow the light guidance provided by the shaver's SenseIQ technology, which indicates the correct pressure for shaving.

Shaving

Gently move the shaver in circular motions over your skin. The flexible heads will adapt to your facial contours. The SenseIQ technology will provide real-time feedback on pressure, guiding you to apply the right amount for an efficient and comfortable shave.

Using the Beard Styler

Attach the 5+1 precision beard styler to the shaver head. Use it to trim and style your beard, sideburns, or mustache. The styler offers various length settings for versatile grooming.

Maintenance

Regular cleaning and maintenance will ensure the longevity and performance of your shaver.

Quick Clean Pod

The Quick Clean Pod provides deep cleaning in just 1 minute, offering active lubrication and a fresh fragrance for a clean-feeling shave. It uses a completely alcohol-free formula and is 10x more effective than cleaning with water only.

Blade Care

The Dual SteelPrecision Blades are self-sharpening and designed to last up to 2 years. For optimal hygiene and performance, clean the shaver after each use. You can rinse the shaver heads under running water or use the Quick Clean Pod.

Troubleshooting

If you encounter issues with your shaver, refer to the following common solutions:

- **Difficulty shaving under the nose:** Some users may find it challenging to shave effectively under the nose. Try adjusting the angle of the shaver or using the precision beard styler for hard-to-reach areas.
- **Inconsistent On/Off button behavior:** If the power button is unresponsive or inconsistent, ensure the shaver is fully charged. If the issue persists, contact Philips Norelco customer support.
- **Shaver feels awkward or too large:** The shaver's design prioritizes performance and comfort. If the size feels awkward, practice different gripping techniques to find what is most comfortable for you.
- **SenseIQ feature not working:** Ensure the shaver's firmware is up to date. Connect the shaver to the Philips GroomTribe app (if applicable) to check for updates and customize settings, which may resolve performance issues.
- **Power Adapter:** The package includes a USB-A cable, but the power adapter is not included. Ensure you use a compatible USB-A power adapter for charging.

Safety Information

WARNING:

- Do not use the power adapter near water.
- Keep the shaver away from heat sources to prevent burns.
- Always use the cleaning pod to clean the shaver after each use to prevent bacterial growth.
