Philips Norelco Shaver i9000 Prestige Ultra Instruction Manual

Model: XP9403/88
Brand: Philips Norelco

INTRODUCTION

The Philips Norelco Shaver i9000 Prestige Ultra is engineered for an exceptionally close and comfortable shave. Featuring SenseIQ Pro Technology, this shaver intelligently senses, adapts, and customizes to your skin, delivering a shave as close as -0.08mm below skin level. Its Triple Lift & Cut System and 360° Precision Flexing Heads ensure efficient hair removal even in hard-to-reach areas, while the Hydro SkinGlide Coating provides ultimate skin comfort. The shaver also offers 5 Custom Shave Modes for a personalized experience.

number one
electric
shaving
brand¹

Experience day-long closeness and ultimate skin comfort with the Philips Norelco Shaver i9000 Prestige Ultra.

SETUP

Unboxing and Initial Charge

Upon unboxing your Philips Norelco Shaver i9000 Prestige Ultra, you will find the shaver unit, a travel case, a 5+1 precision beard styler, a nose trimmer, a quick clean pod, a charging stand, and a USB-A charging cable. Please note that a wall power adapter is not included and must be supplied separately.

What's in the box

✕  Power adaptor **not** included

All components included in the Philips Norelco Shaver i9000 Prestige Ultra package.

Charging the Shaver

To charge your shaver, connect the provided USB-A charging cable to the charging stand, and then plug the USB-A end into a compatible wall adapter (not included). Place the shaver onto the charging stand. The light ring around the base of the charging stand will illuminate to indicate charging status. A full charge takes approximately 1 hour, providing extended use. For a quick shave, a 5-minute charge provides sufficient power for one full shave.

OPERATING INSTRUCTIONS

Powering On/Off and Display Features

Press the power button located on the front of the shaver to turn it on or off. The shaver features a vibrant color display that shows important information such as battery percentage, active shaving mode, and light guidance indicators. You can navigate through various settings and information screens using the control buttons below the display.

Ultimate skin comfort Powered by AI SenseIQ Pro

5 shaving
modes

motion guidance

Hydro SkinGlide
coating

The shaver's display provides real-time feedback on battery life and active settings.

Shaving Modes and Guidance

The SenseIQ Pro technology powers 5 Custom Shave Modes, allowing you to tailor your shaving experience. The shaver also provides Light Guidance, which assists you in applying optimal pressure and motion for an effective and comfortable shave. The 360° Precision Flexing Heads adapt to the contours of your face, ensuring efficient hair capture in every pass,

even on 1-day, 3-day, or 7-day beards.

Efficient in every
pass on **1, 3 and
7-day beard**

NanoTech Dual
Precision Blades cut
hairs in any direction

Achieve efficient shaving results on various beard lengths with NanoTech Dual Precision Blades.

Travel Lock

To prevent accidental activation during travel, the shaver is equipped with a travel lock feature. To activate the travel lock, press and hold the oval button below the display for a few seconds until the lock icon appears. To deactivate, press and hold the same button again until the lock icon disappears and the shaver unlocks.

MAINTENANCE

Cleaning the Shaver

Regular cleaning is essential for maintaining optimal performance and hygiene. The shaver is compatible with the Quick Clean Pod for thorough cleaning. To clean manually, detach the shaving head by pulling it straight off the shaver body. The trimmer head and nose trimmer attachments can be similarly attached and detached by aligning them with the shaver's internal mechanism and pushing them straight on or pulling them straight off. Avoid twisting when attaching or detaching heads to prevent damage.

Root-level close
yet incredibly gentle

Triple Action
Lift&Cut Shaving
System

The Triple Action Lift & Cut shaving heads are designed for easy removal and cleaning.

TROUBLESHOOTING

If you encounter any issues with your Philips Norelco Shaver i9000 Prestige Ultra, please consider the following common solutions:

- **Shaver not turning on:** Ensure the shaver is fully charged. Check if the travel lock is activated and deactivate it if necessary.
- **Poor shaving performance:** Ensure the shaving heads are clean and free of debris. Replace shaving heads if they are worn out (typically every 12 months). Ensure you are using the correct shaving mode for your beard type.
- **Charging issues:** Verify that the charging cable is securely connected to both the shaver/charging stand and the power adapter. Ensure the power adapter is plugged into a working electrical outlet.

For more detailed troubleshooting or persistent issues, refer to the Philips GroomTribe app or contact Philips Norelco customer support.
