## Miracase iPhone 16E

# Miracase iPhone 16E Magnetic Full-Body Case Instruction Manual

Model: iPhone 16E

Brand: Miracase

## INTRODUCTION

---

Thank you for choosing the Miracase Magnetic Full-Body Case for your iPhone 16E. This case is designed to provide comprehensive 360° protection, featuring a built-in 9H glass screen protector and MagSafe compatibility. It is engineered to safeguard your device from scratches, cracks, and impacts, ensuring your iPhone 16E remains in pristine condition.

## SETUP: CASE INSTALLATION

Follow these steps to properly install your Miracase Full-Body Case:

- 1. Separate the Case:** The case consists of two parts: a front cover with a built-in screen protector and a back cover. Gently separate the two pieces, usually by prying open from a corner or the bottom edge.
- 2. Clean Your iPhone:** Ensure your iPhone 16E is clean and free of dust, smudges, or fingerprints. This is crucial for a bubble-free installation of the screen protector.
- 3. Install Front Cover:** Place your iPhone 16E into the front cover, ensuring it aligns perfectly with the built-in screen protector. The built-in 9H glass screen protector is designed for sensitive touch without bubbles.
- 4. Install Back Cover:** Align the back cover with the front cover and your iPhone. Press firmly around the edges until the two parts snap together securely. Start from the bottom and work your way up.
- 5. Verify Installation:** Check all edges and corners to ensure the case is fully sealed and your iPhone is completely enclosed.

## Case Removal:

To remove the case, press the bottom cover from the bottom to separate the two pieces. This allows for easy removal without damaging your device or the case.

## OPERATING FEATURES

### Built-in 9H Glass Screen Protector:

The integrated 9H tempered glass screen protector offers superior protection against scratches and cracks. It ensures sensitive touch response and a clear display without any gaps or lifting.

### Crystal Clear Design:

The diamond-hard clear back showcases the original color of your iPhone 16E, maintaining its aesthetic appeal and remaining clear over time.

### MAINTENANCE

To keep your Miracase case in optimal condition:

- **Cleaning:** Wipe the case regularly with a soft, damp cloth to remove dust and smudges. Avoid harsh chemicals or abrasive materials that could scratch the surface.

- **Avoid Extreme Conditions:** Do not expose the case to extreme temperatures or direct sunlight for prolonged periods, as this may affect its material integrity and color.
- **Inspect Regularly:** Periodically check the case for any signs of wear or damage. If the screen protector is cracked or the case is severely damaged, consider replacing it to ensure continued protection for your iPhone.

## TROUBLESHOOTING

---

### Particles under the Screen Protector:

If you notice dust or particles under the built-in screen protector after installation, it is likely due to incomplete cleaning of the phone screen before installation. Carefully remove the case, clean both your iPhone screen and the inside of the screen protector thoroughly with a microfiber cloth, and then re-install the case following the setup instructions.

### Screen Protector Shattered After Drop:

While the case provides military-grade drop protection, the built-in glass screen protector is designed to absorb impact to protect your phone's actual screen. If the screen protector shatters after a hard drop, it has performed its function. In such cases, the case should be replaced to ensure continued optimal protection for your device.
