Blue Wave NB19929

Marbella 24-ft Round Above Ground Swimming Pool

USER MANUAL

Blue Wave

Image: The complete Blue Wave Marbella pool set, including the pool structure, sand filter system, ladder, and maintenance kit.

1. PRODUCT OVERVIEW

The Blue Wave Marbella 24-ft Round Above Ground Pool is a comprehensive solution for backyard recreation.

This pool is engineered for durability and ease of use, providing a spacious and enjoyable swimming experience.

Key Features:

- Complete Pool Set:** Includes steel wall pool, skimmer, sand filter, A-frame ladder, overlap liner, and maintenance kit.
- Durable Construction:** Features hot-dip galvanized steel walls with zinc-aluminum coating, 6-inch steel top rails, and resin top caps for enhanced longevity.
- Efficient Filtration:** Equipped with a Sandman sand filter system and a 1-HP dual-speed pump, capable of circulating 3,720 gallons per hour.
- Safe Access:** A-frame ladder with flip-up steps and a two-piece barrier ensures secure entry and exit.
- Large Capacity:** Designed to hold approximately 12,600 gallons of water, offering ample space for activities.

2. COMPONENTS INCLUDED

Your Blue Wave Marbella pool package includes the following essential components:

- Steel Wall Pool Structure
- Overlap Liner
- Sandman Sand Filter Pump (1-HP dual-speed)
- Wide-Mouth Skimmer
- A-Frame Ladder with Flip-Up Steps
- Maintenance Kit (Nylon Wall Brush, Vinyl Liner Vacuum Head, Leaf Skimmer, 3-Piece 12-Ft Pole, Thermometer, 25-Ft Vacuum Hose)

3. SETUP & INSTALLATION

Proper site preparation and assembly are crucial for the longevity and safe operation of your pool. Follow these guidelines carefully.

3.1 Site Preparation

- Select a level, firm area free from sharp objects, roots, or overhead obstructions.
- Ensure the ground is compacted and perfectly level to prevent structural stress on the pool.
- Clear the area of any debris and consider laying a sand base or ground cloth for added protection.

3.2 Pool Assembly

- Unpack all components and verify against the parts list.
- Assemble the bottom track system on the prepared site, ensuring it forms a perfect circle.
- Carefully unroll and install the steel wall into the bottom track, securing the ends as per instructions.
- Install the pool liner, ensuring it is centered and smooth before filling with water.
- Attach the uprights, top rails, and resin top caps around the perimeter of the pool.
- Connect the skimmer and return fittings to the designated openings in the pool wall.

Hot-Dip Galvanized Steel with Zinc-Aluminum Coating

4. OPERATING INSTRUCTIONS

4.1 Sand Filter System Operation

The Sandman sand filter system is designed to keep your pool water clean and clear. Refer to the separate Sandman filter manual for detailed instructions on initial setup, backwashing, rinsing, and filtering.

- Ensure the filter is filled with the correct amount of filter sand (approximately 110 lbs).
- Connect the pump to a GFCI-protected outlet.
- Operate the pump daily for several hours to ensure adequate water circulation and filtration. The 1.0-HP dual-speed pump provides a circulation rate of 3,720 gallons per hour.
- Regularly check the pressure gauge on the filter; an elevated reading indicates the need for backwashing.

Sandman™ Sand Filter System

16,000-Gal Turnover Rate

Keeps water circulating for a cleaner pool

1.5" Diameter Pipe Fitting

Engineered for easy & secure connections

1.0-HP Dual Speed Pump

Circulation rate of 3,720 gal. per hour

110-Lbs Sand Capacity

Effectively traps dirt and debris

Image: The Sandman Sand Filter System, illustrating its key specifications and features for efficient pool water maintenance.

4.2 Ladder Usage

The A-frame ladder provides safe access to and from the pool. It is constructed from durable resin and supports up to 250 lbs.

- Always ensure the ladder is securely placed on a stable surface before use.
- Utilize the lockable flip-up steps to prevent unauthorized access, especially by children, when the pool is not in use.
- The two-piece barrier enhances safety by limiting access under the ladder.

Safety Meets Comfort

Durable Resin Materials

Built-in platform for safe entry and exit

Two Piece Barrier
Provides added safety, especially for children

Lockable Flip-Up Steps
Blocks access when not in use

5. MAINTENANCE

Regular maintenance is essential to keep your pool clean, safe, and in optimal condition.

5.1 Routine Cleaning

- Use the included leaf skimmer to remove debris from the water surface daily.
- Utilize the vinyl liner vacuum head and 25-ft vacuum hose with the filter pump to clean the pool floor as needed.
- Brush the pool walls with the nylon wall brush to prevent algae buildup.

5.2 Water Chemistry

- Regularly test your pool water using a test kit to monitor pH, chlorine, alkalinity, and calcium hardness levels.

- Adjust chemical levels as necessary to maintain balanced water chemistry, which is crucial for swimmer comfort and equipment longevity.
- Use the included thermometer to monitor water temperature.

5.3 Maintenance Kit

The included Economy Maintenance Kit provides the basic tools for pool upkeep.

Image: The Economy Maintenance Kit, showing all included tools for routine pool care.

6. TROUBLESHOOTING

This section addresses common issues you might encounter with your pool and provides general solutions.

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Cloudy Water	Insufficient filtration, chemical imbalance, high bather load.	Run filter longer, backwash filter, test and adjust water chemistry, shock treat pool.
Pump Not Operating	No power, clogged impeller, air lock.	Check power connection/GFCI, clear debris from impeller, prime pump.
Water Level Dropping	Evaporation, leak in liner or fittings.	Normal evaporation occurs; check for visible leaks around fittings or liner.
Ladder Instability	Improper setup, uneven ground.	Ensure ladder is on a firm, level surface and all connections are secure.

7. SPECIFICATIONS

Attribute	Detail
Brand	Blue Wave
Model Number	NB19929
Shape	Round
