Dexnor A2449/A2450/A3118/A3203

Dexnor Case for Apple Magic Keyboard with Touch ID/Lock Key (2021/2024)

Models: A2449, A2450, A3118, A3203

1. PRODUCT OVERVIEW

The Dexnor protective case is designed for the Apple Magic Keyboard with Touch ID/Lock Key (2021/2024 models A2449, A2450, A3118, A3203). This case provides comprehensive protection against dust, spills, and scuffs, enhancing the durability and portability of your keyboard. It features a magnetic closure, adjustable typing angles, and a phone holder function.

2. COMPATIBILITY

This case is specifically designed for the Apple Magic Keyboard with Touch ID/Lock Key (2021/2024 models: A2449, A2450, A3118, A3203). It is important to verify your keyboard model to ensure proper fit.

Figure 2: Compatible Apple Magic Keyboard models.

Important: This case is **NOT** compatible with the Magic Keyboard with Numeric Keypad or the Apple Magic Keyboard 2. The case is designed only for the specified models without a numeric keypad.

3. SETUP AND INSTALLATION

To install your Apple Magic Keyboard into the Dexnor case:

1. Ensure your keyboard is clean and free of debris.
2. Align the keyboard with the designated slot in the hard PC back cover of the case.
3. Gently press the keyboard into place until it is securely seated within the case. The precise fit ensures stability and protection.
4. Close the front PU flap over the keyboard. The built-in magnets will secure the flap.

4. OPERATING INSTRUCTIONS AND FEATURES

4.1 Adjustable Typing Angles

The foldable front PU flap allows you to position your Magic Keyboard at three different ergonomic angles. This feature helps reduce wrist strain and provides a comfortable typing experience. Simply fold the front flap into the desired triangular stand configuration.

Figure 5: Keyboard positioned at an adjustable typing angle.

4.2 Secure Magnetic Closure

The case features built-in strong magnets that keep the front flap and back cover securely closed. This prevents the flap from opening unintentionally and ensures the keyboard remains protected during transport or when not in use.

4.3 Phone Holder Function

A dedicated gap in the front of the keyboard cover allows you to place your phone horizontally (landscape mode) for easy access to calls and notifications while typing. This feature is active when the keyboard is laid flat.

Figure 7: Using the integrated phone holder.

4.4 All-around Protection

The case is constructed with an impact-resistant PC back and a premium PU leather front flap, providing full-body protection against dust, spills, and scuffs. Four anti-slip silicone pads on the bottom ensure the keyboard remains stable during use.

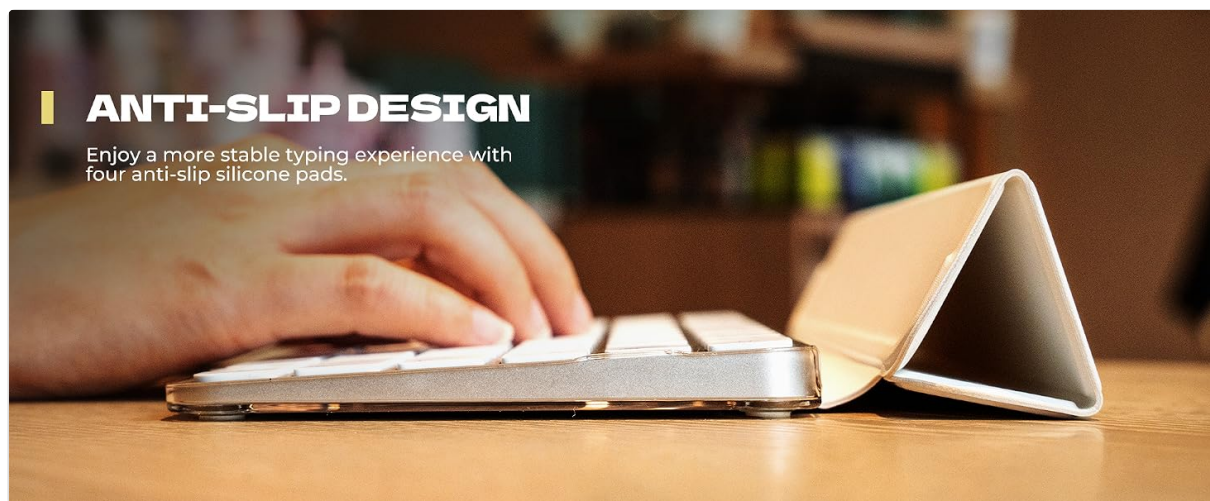

Figure 8: Full-body protection provided by the case.

5. MAINTENANCE

To maintain the appearance and functionality of your Dexnor case:

- Wipe the exterior with a soft, damp cloth to remove dust and light smudges.
- Avoid using harsh chemicals or abrasive cleaners, as these can damage the PU leather and PC materials.
- For spills, gently blot the liquid immediately with a clean, dry cloth.
- Store the case in a cool, dry place away from direct sunlight and extreme temperatures when not in use.

6. TROUBLESHOOTING

6.1 Keyboard Does Not Fit

Ensure your Apple Magic Keyboard is one of the compatible models (A2449, A2450, A3118, A3203). This case is not designed for Magic Keyboards with Numeric Keypads or the older Magic Keyboard 2. Refer to the compatibility section (Section 2) for details.

6.2 Magnetic Closure Not Secure

Check that the keyboard is fully seated within the hard PC back cover. Any misalignment can prevent the magnets in the front flap from engaging properly. Ensure no foreign objects are obstructing the closure.
