Important Safety Information

To ensure safe installation and use, adhere to the following guidelines:

- Ensure proper installation and assembly following the provided instructions.
- Avoid exceeding the weight capacity of 200 pounds.
- Be cautious of pinch points around the soft-closing doors and drawers during operation.
- Use appropriate safety gear, such as gloves and eye protection, during installation.
- Keep small parts away from children during assembly to prevent choking hazards.

Package Contents

Verify that all components are present before beginning assembly:

- Bathroom vanity with sink
- All necessary hardware for assembly
- Installation manual (this document)

Note: Faucet, mirror, and drain are not included.

Setup and Assembly

The T4TREAM bathroom vanity is designed for straightforward assembly. Each panel is clearly numbered to facilitate the process. Follow these steps for a hassle-free setup:

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a clean, soft surface to prevent scratches. Verify all parts against the included hardware list.
2. **Assemble Frame:** Follow the numbered instructions in the assembly manual to connect the main frame components. Ensure all connections are secure.
3. **Install Drawers:** Assemble the drawer boxes and install the smooth sliding rails. Insert the drawers into their designated slots.
4. **Attach Doors:** Mount the soft-closing hinges to the cabinet doors and then attach the doors to the vanity

frame. Adjust hinges as needed for proper alignment.

5. **Place Sink:** Carefully position the ceramic sink onto the vanity top. Ensure it is properly aligned and secured according to the instructions.
6. **Connect Plumbing:** Once the vanity is in its final position, connect the water supply lines and drain according to local plumbing codes. (Faucet and drain not included).

Assembly typically requires two adults and can be completed efficiently by following the step-by-step instructions. An Allen key is included; a screwdriver may also be required.

Operating Instructions

Your T4TREAM vanity is designed for practical and organized bathroom storage.

Drawers

The three drawers are equipped with smooth sliding rails for easy access. They are ideal for organizing smaller items such as cosmetics, skincare products, toothbrushes, and toothpaste. The dimensions of the drawers are approximately 9.8 inches deep, 11.8 inches wide, and 3.9 inches high.

Cabinet with Adjustable Shelf

The two-door cabinet provides ample space for larger items. It features an adjustable shelf, allowing you to customize the storage height to accommodate items like shampoo bottles, towels, or cleaning supplies. The soft-closing hinge mechanism ensures quiet and smooth closure of the doors.

Soft-Closing Mechanism

Both the doors and drawers are equipped with soft-closing mechanisms. This feature prevents slamming, reduces noise, and extends the lifespan of the vanity components. To operate, simply push the door or drawer gently, and it will close slowly and silently.

Care and Maintenance

Proper care will ensure the longevity and appearance of your T4TREAM vanity.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners, harsh chemicals, or solvents, as these can damage the finish.
- **Spills:** Promptly wipe up any spills, especially water, to prevent moisture damage to the wood and ceramic surfaces.
- **Humidity:** Maintain a consistent humidity level in your bathroom to prevent wood warping or cracking.
- **Inspection:** Periodically check all hardware and connections to ensure they remain tight and secure. Tighten as necessary.
- **Ceramic Sink:** Clean the ceramic sink with non-abrasive bathroom cleaners. Rinse thoroughly after cleaning.

Troubleshooting

Refer to the following common issues and solutions:

Problem	Possible Cause	Solution
Drawers or doors do not close smoothly.	Misaligned hinges/rails, obstruction.	Check for obstructions. Adjust hinge screws for doors or re-align drawer rails.
Vanity appears unstable.	Uneven floor, loose leg connections.	Ensure the vanity is on a level surface. Tighten all leg connections. The vanity has adjustable feet for minor floor elevation differences.
Water leakage from sink area.	Improper plumbing connection, sealant issue.	Verify all plumbing connections are tight. Ensure proper sealant was applied around the sink and drain. Consult a professional plumber if necessary.
Scratches or minor damage to wood finish.	Accidental impact, abrasive cleaning.	For minor scratches, use a wood repair kit or furniture marker matching the natural oak finish. Avoid abrasive materials for cleaning.

Product Specifications
