# WoldoClean Garbage Disposal Cleaner Tablets - Instruction Manual

Model: B0F1Z1VSGG

## PRODUCT OVERVIEW

---

WoldoClean Garbage Disposal Cleaner Tablets are designed to clean, deodorize, and protect your kitchen disposal unit. These tablets feature a powerful foaming action and a fresh citrus scent to break down grease, food residue, and organic buildup, eliminating odors at their source.

## SETUP AND USAGE

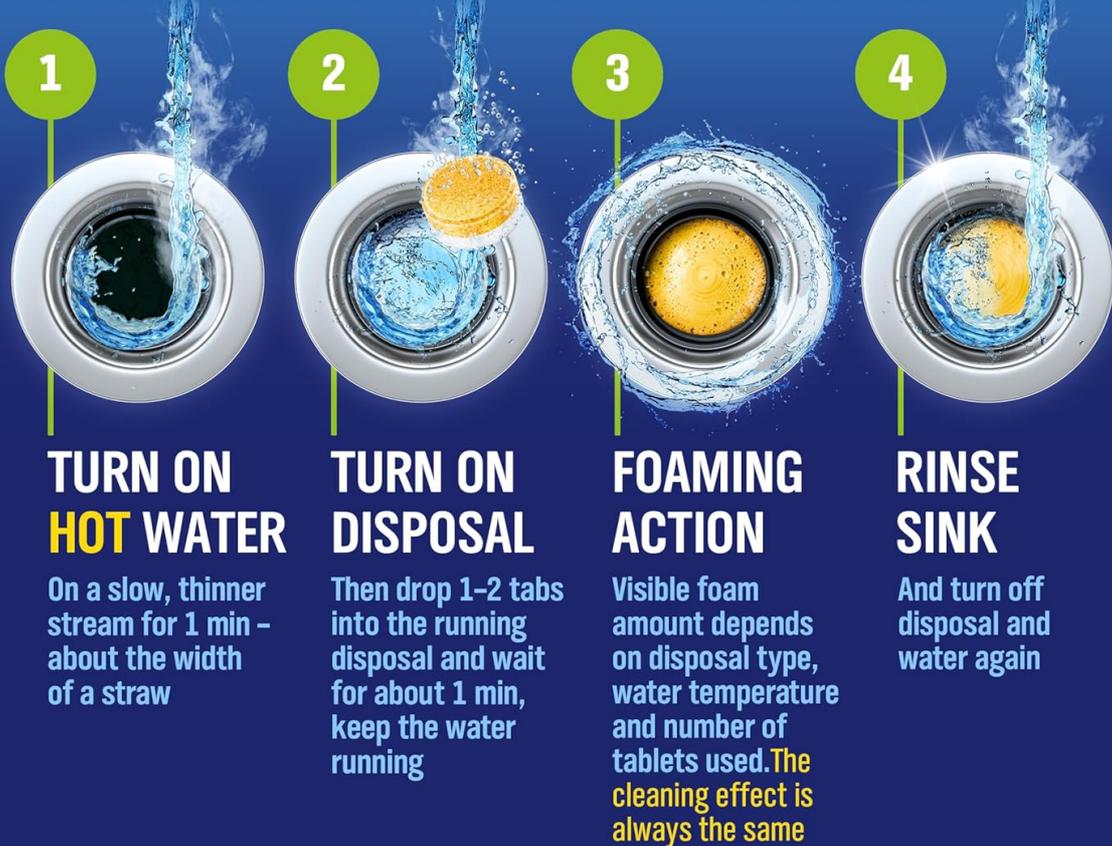

Follow these steps for effective cleaning and deodorizing of your garbage disposal:

1. **Prepare the Sink:** Ensure your sink and disposal unit are completely empty and turned off.
2. **Run Hot Water:** Turn on the hot water faucet and let it run into the drain at full speed for approximately one minute to heat the pipes.
3. **Adjust Water Flow:** Reduce the hot water flow to a slow, thin stream, about the width of a straw.
4. **Insert Tablet:** Carefully drop 1 or 2 WoldoClean tablets directly into the disposal unit. Avoid touching the tablet directly. Use a utensil if necessary to push it down.
5. **Allow Reaction Time:** Let the tablet react with the water for about one minute. The powerful foaming action will begin to expand throughout the disposal unit.
6. **Activate Disposal:** Turn on the garbage disposal unit and let it run for about one minute while the slow stream of hot water continues. The foaming action will clean the internal components.
7. **Rinse:** Turn off the disposal unit and the water. Rinse away any remaining foam from the sink with water.

# HOW IT WORKS

According to the device instructions

**MAKE SURE SINK & DISPOSAL ARE EMPTY AND OFF**

## MAINTENANCE

For optimal results and to maintain a fresh, clean, and efficiently working disposal, it is recommended to use 1-2 tablets per month. The frequency depends on how often the disposal is used and the level of buildup.

## TROUBLESHOOTING

---

### Light Foam Production:

If the visible foam appears light, rest assured that the active cleaning agents are still working effectively beneath the surface to perform their deep-cleaning task. The cleaning effect remains consistent regardless of foam visibility.

# FOAMING ACTION WORKS EVEN WHEN FOAM IS LIGHT

**POWERFUL**

with active  
cleaning agents
