4. PRODUCT OVERVIEW

The KEMEI KM-8534 set features a powerful motor and durable stainless steel blades designed for efficient and comfortable grooming.

4.1. Powerful Motor and Performance

The main hair clipper is equipped with a powerful motor, offering up to 6000 RPM and 2-speed control for various hair types. It is designed for low noise operation and to prevent hair pulling.

Image 4.1: Illustration of the powerful motor and its features.

4.2. Double Floating Blades Shaver

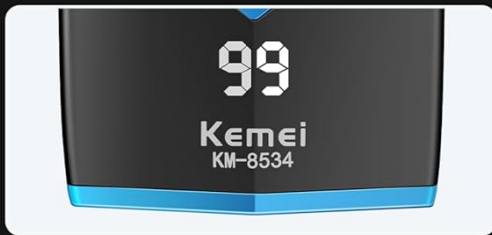

The rotary shaver features double floating blades that adapt to facial contours for a close shave. It includes a real-time LED battery indicator and a low-power alert function.

6. OPERATING INSTRUCTIONS

6.1. Hair Clipper

The hair clipper features 5 precision adjustment settings (0.1/0.2/0.3/0.4/0.5 mm) on the blade lever and 2-speed modes. Press the power button to turn on/off and cycle through speed settings. Use with guide combs for desired hair length.

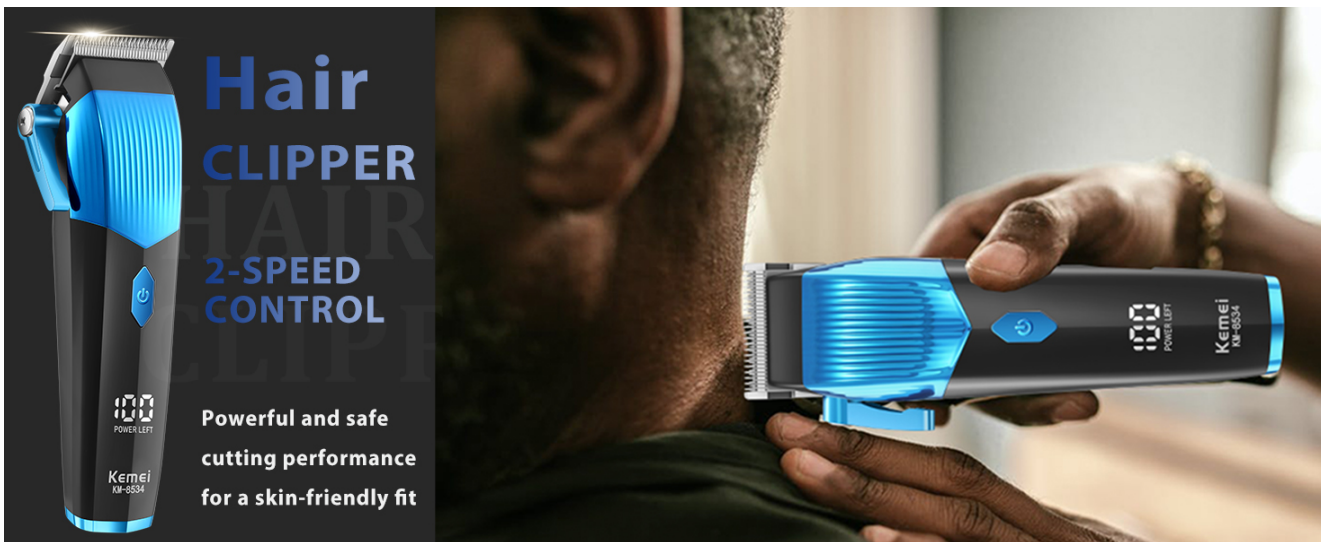

Image 6.1: Hair clipper demonstrating its use and features.

6.2. Hair Trimmer (T-Liner)

The T-shaped contour trimmer provides 0mm accuracy for fades and sharp edges. It is ideal for detailing, outlining, and creating precise lines. Use without a guide comb for closest trim or with the smaller guide combs for short beard styles.

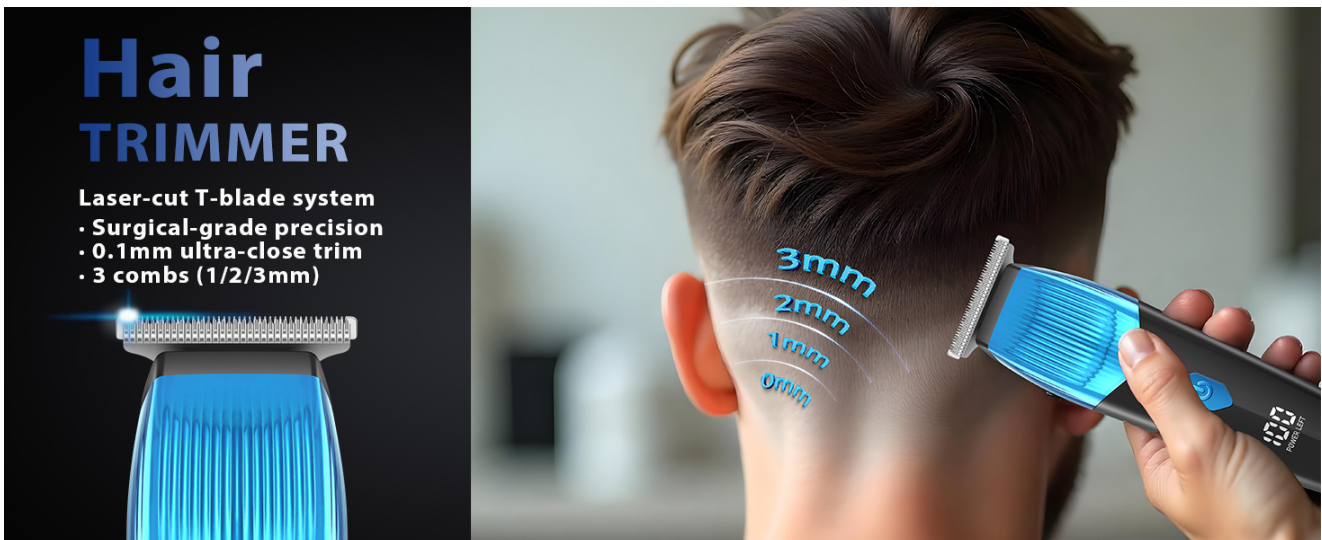

Image 6.2: Hair trimmer in action for creating sharp lines.

6.3. Foil Shaver

For a smooth, close shave, use the foil shaver on clean, dry skin. Move the shaver in short, circular motions against the direction of hair growth. The dual-action shaving system handles all stubble lengths.

Image 6.3: Details of the foil shaver's features, including Type-C charging.

6.4. Nose and Ear Trimmer

Gently insert the trimmer tip into your nostril or ear canal. Move it slowly to trim unwanted hair. The three-dimensional arch-shaped head ensures comfortable and effective trimming without pulling.

7. MAINTENANCE

7.1. Cleaning

After each use, turn off the device and detach any guide combs. Use the provided cleaning brush to remove loose hairs from the blades. The blades are waterproof and support full rinsing under tap water. Ensure the device is completely dry before storage or next use.

7.2. Oiling Blades

Regularly apply a few drops of the included lubricating oil to the blades of the hair clipper and trimmer. This helps maintain blade sharpness and ensures smooth operation. Apply oil after cleaning and before storage.

7.3. Storage

Store the grooming set in a cool, dry place, away from direct sunlight and moisture. Use the protective caps for the blades when not in use to prevent damage.

8. TROUBLESHOOTING

If you encounter issues with your KEMEI KM-8534 set, refer to the following common solutions:

Problem	Possible Cause	Solution
Device not turning on	Low battery; Device not charged	Charge the device fully using the provided USB cable.
Poor cutting performance / Hair pulling	Blades are dull or dirty; Insufficient lubrication; Hair buildup	Clean blades thoroughly with the brush. Apply lubricating oil. Ensure blades are not damaged.
Excessive noise or vibration	Blades not properly aligned; Lack of lubrication	Check blade alignment. Apply lubricating oil to the blades.
Charging indicator not working	Faulty cable or adapter; Device not connected properly	Ensure the USB cable is securely connected. Try a different compatible USB adapter.
