2.1. Included Components

- 1 x chillgo Portable Waist Clip Fan
- 1 x USB Charging Cable (USB-A to USB-C)
- 1 x User Manual
- 1 x Neck Tie/Belt Attachment

3. SETUP

3.1. Initial Charging

Before first use, fully charge the fan. Connect the provided USB charging cable to the fan's USB-C

input port and a compatible USB power source (e.g., wall adapter, computer USB port). The LED display will indicate charging progress.

3.2. Attaching the Belt/Neck Tie

The fan can be worn using its integrated clip or with the included belt/neck tie. To use the belt/neck tie, thread it through the designated loops on the fan. Ensure the fan is securely attached to prevent accidental drops during use.

4. OPERATING INSTRUCTIONS

4.1. Power On/Off

To turn the fan **ON**, long press the power button (located in the center of the control panel) for approximately 3 seconds. To turn the fan **OFF**, long press the power button again for 3 seconds.

4.2. Adjusting Fan Speed

The fan features 10 adjustable speed levels. Short press the 'Up' (*arrow up icon*) or 'Down' (*arrow down icon*) buttons to cycle through the speed levels. The current speed level will be displayed on the LED screen.

4.3. Checking Battery Level

The LED display on the fan will show the remaining battery percentage when the fan is in operation or during charging.

4.4. Using as a Power Bank

The fan is equipped with a USB-A output port (labeled 'OUT 5V-2A'). You can use this port to charge other small electronic devices, such as smartphones, making it a convenient power bank on the go.

5. MAINTENANCE AND CARE

- **Cleaning:** Ensure the fan is turned off and unplugged before cleaning. Use a soft, dry cloth to wipe the exterior. The air intake mesh can be gently cleaned to remove dust buildup.
- **Storage:** Store the fan in a cool, dry place away from direct sunlight and extreme temperatures when not in use for extended periods.
- **Protection:** The fan features a durable silicone casing which provides shock protection. While robust, avoid dropping the device from significant heights.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Fan does not turn on	Low battery; Incorrect power button press	Charge the fan fully; Long press the power button for 3 seconds
Weak airflow	Low speed setting; Blocked air intake/outlet	Increase speed level; Clear any obstructions from air intake/outlet
Charging issue	Faulty cable/adapter; Loose connection	Try a different USB cable/adapter; Ensure cable is securely connected
