3. OPERATING INSTRUCTIONS

3.1. Button Functions

The EWEADN G5 mouse features 9 programmable buttons for versatile control:

- **Left Button:** Standard left-click function.
- **Right Button:** Standard right-click function.
- **Scroll Wheel:** Scroll up/down, and clickable for middle-click.
- **DPI Button:** Adjusts DPI sensitivity (6 levels).
- **Boss Button:** Programmable macro button.
- **Double Click Button:** Programmable macro button.
- **Firepower Button:** Triggers 3 left-clicks with a single press (default).
- **Forward Button:** Navigates forward in web browsers or applications.
- **Backward Button:** Navigates backward in web browsers or applications.

3.5. Ergonomic Design and Adjustable Tail Wing

The mouse is designed with an ergonomic shape to fit various hand sizes, reducing fatigue during extended use. It features a metallic-textured surface and non-slip grips for improved control. An innovative adjustable tail wing allows for 5mm hand size adjustment, shortening to the left or lengthening to the right for a perfect fit.

4. MAINTENANCE

To ensure the longevity and optimal performance of your EWEADN G5 gaming mouse, follow these maintenance

guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the mouse surface. For hard-to-reach areas, a cotton swab lightly dampened with isopropyl alcohol can be used. Avoid excessive moisture.
- **Cable Care:** Avoid sharp bends or kinks in the USB cable to prevent internal damage. Store the cable neatly when not in use.
- **Sensor Maintenance:** Keep the optical sensor on the underside of the mouse clean and free from dust or debris for accurate tracking.

5. TROUBLESHOOTING

If you encounter issues with your EWEADN G5 gaming mouse, refer to the following common troubleshooting steps:

- **Mouse Not Responding:**
 - Ensure the USB cable is securely connected to your computer.
 - Try connecting the mouse to a different USB port.
 - Test the mouse on another computer to determine if the issue is with the mouse or the computer.
- **DPI/Sensitivity Issues:**
 - Press the DPI button to cycle through different sensitivity levels.
 - If using custom settings, ensure the software is installed and configured correctly.
- **RGB Lighting Not Working/Incorrect:**
 - Check the software settings for RGB customization.
 - Ensure the mouse is properly connected and receiving power.
- **Programmable Buttons Not Functioning:**
 - Verify that the customization software is correctly installed and the buttons are mapped as desired.
 - Some users have reported issues with the macro software; ensure you have the latest version and try reconfiguring.
