LAICOMEIN B110

LAICOMEIN B110 Bluetooth 5.4 Transmitter Receiver User Manual

Model: B110

INTRODUCTION

The LAICOMEIN B110 is a state-of-the-art 2-in-1 Bluetooth 5.4 audio adapter designed to seamlessly integrate wireless audio into your daily life. It functions as both a Bluetooth transmitter (TX) and a Bluetooth receiver (RX), allowing you to connect a wide range of audio devices, from traditional wired systems to modern wireless headphones and speakers. With its advanced features, including dual pairing and low latency, the B110 provides a high-quality, stable, and convenient audio experience for home, travel, and on-the-go use.

OPERATING MODES

The LAICOMEIN B110 operates in two distinct modes: Transmitter (TX) and Receiver (RX).

1. Transmitter (TX) Mode

In TX mode, the B110 sends audio wirelessly from non-Bluetooth devices to Bluetooth headphones or speakers. This mode is ideal for:

- **TVs:** Watch TV with Bluetooth headphones without disturbing others.
- **Gaming Consoles:** Enjoy immersive gaming audio with wireless headphones.
- **Airplane Entertainment Systems:** Use your personal Bluetooth headphones on flights.
- **Gym Equipment:** Connect to gym machines for audio playback.

Seamlessly share audio in-flight, on iPads, gaming devices, TVs, and more

2. Receiver (RX) Mode

In RX mode, the B110 receives audio wirelessly from Bluetooth-enabled devices (like smartphones or tablets) and outputs it to non-Bluetooth audio systems. This mode is perfect for:

- **Home Stereo Systems:** Stream music from your phone to older stereos or wired speakers.
- **Car Audio Systems:** Add Bluetooth streaming capabilities to your car's AUX input.
- **Wired Headphones:** Convert wired headphones into Bluetooth-enabled ones.

SETUP AND PAIRING INSTRUCTIONS

Follow these steps to set up and pair your LAICOMEIN B110.

TX Mode: First Pairing

1. Slide the mode switch to **TX**.
2. Press and hold the Multifunction Button for 3 seconds to power on the device. The Status Indicator Light will flash blue and red, indicating pairing mode.
3. Put your Bluetooth headphones or speakers into pairing mode. For AirPods, open the lid and hold the reset button on the back for about 5 seconds.
4. The B110 will automatically connect to your device. Once connected, the Device 1 Status Light will turn solid green.
5. Plug the B110's 3.5mm audio jack into the audio output port of your non-Bluetooth source (e.g., TV, MP3 player, airplane seat).

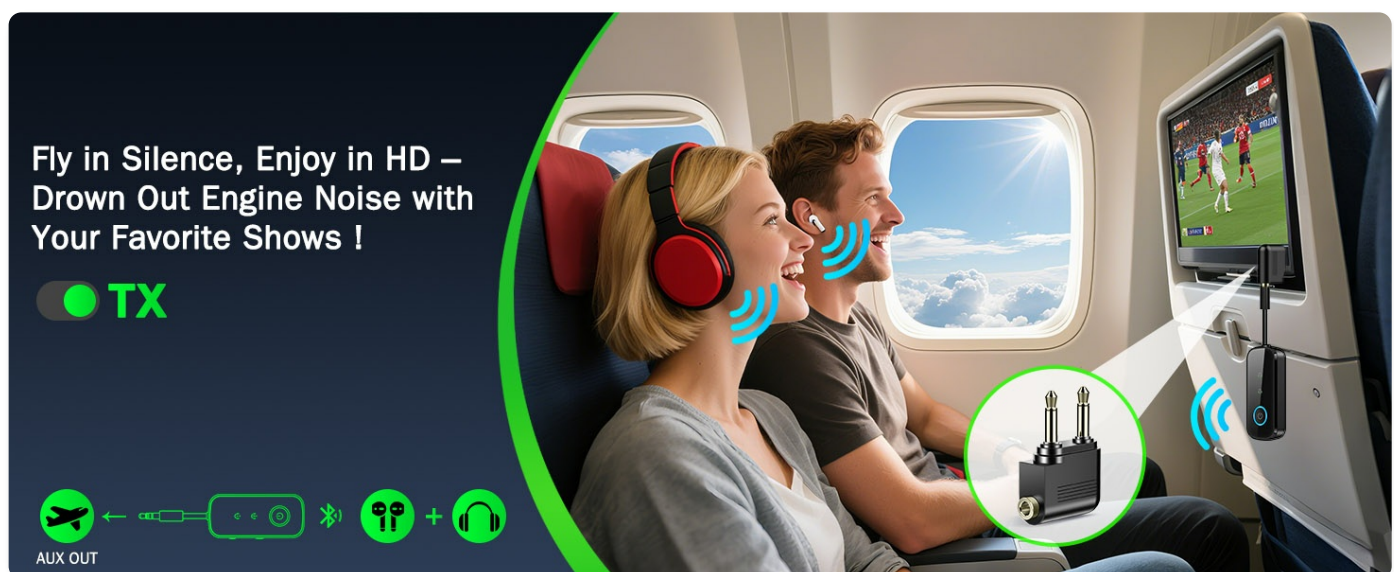

Image: A step-by-step visual guide for the first pairing in TX mode, showing how to power on, enter pairing mode, connect to AirPods, and plug into an audio source.

TX Mode: Dual Pairing

To connect a second pair of Bluetooth headphones/speakers in TX mode:

1. Ensure the first device is already connected.
2. Put the second Bluetooth headphones or speakers into pairing mode.
3. On the B110, press the **Pairing Button**. The Status Indicator Light will flash blue and red again.
4. The B110 will automatically connect to the second device. Once connected, both Device 1 and Device 2 Status Lights will be solid green.

Image: A step-by-step visual guide for dual pairing in TX mode, demonstrating how to connect a second pair of AirPods after the first is already paired.

RX Mode: First Pairing

1. Slide the mode switch to **RX**.
2. Press and hold the Multifunction Button for 3 seconds to power on the device. The Status Indicator Light will flash blue and red, indicating pairing mode.
3. On your smartphone or tablet, go to Bluetooth settings and select
