2. PRODUCT FEATURES

The TRAUSI TG08 Smartwatch comes equipped with a range of features to support your health and connectivity needs:

- **1.83" Ultra HD Display:** A large, clear screen for easy viewing of information.
- **Comprehensive Health Monitoring:** Includes 24-hour heart rate monitoring, SpO2 (blood oxygen) tracking, and sleep analysis.
- **Extensive Sports Modes:** Supports over 120 diverse sports tracking modes with precision performance metrics.
- **Smart Notifications:** Receive calls, messages, and app alerts directly on your wrist.
- **Long-lasting Battery:** Up to 5-7 days of active use and 30 days standby time on a single charge.
- **Water Resistance:** Designed to withstand splashes, but not suitable for swimming or submersion.
- **Music Control:** Manage your music playback directly from the watch.
- **Weather Forecast:** Get real-time weather updates.

3. SETUP GUIDE

3.1 Charging the Smartwatch

Before first use, fully charge your smartwatch. Connect the magnetic charging cable to the charging points on the back of the watch and plug the USB end into a power adapter (5V/1A recommended) or a computer USB port. A full charge takes approximately 1.5 hours.

3.2 App Download and Pairing

1. **Download the App:** Scan the QR code in the watch's initial setup screen or search for the companion app (usually named 'FitCloudPro' or similar, check packaging for exact name) in your smartphone's app store (App Store for iOS, Google Play Store for Android).
2. **Install and Open:** Install the app and open it on your smartphone.
3. **Enable Bluetooth:** Ensure Bluetooth is enabled on your smartphone.
4. **Pair the Device:** In the app, navigate to 'Device' or 'Add Device' and select your TRAUSI TG08 Smartwatch from the list of available devices. Follow the on-screen prompts to complete the pairing process.
5. **Grant Permissions:** Allow necessary permissions (e.g., notifications, location, contacts) for the app to function correctly.

The smartwatch is compatible with iPhone (iOS 9.0 and above) and Android (5.0 and above) smartphones.

4. OPERATING INSTRUCTIONS

4.1 Basic Navigation

- **Touchscreen:** Tap to select, swipe left/right/up/down to navigate through menus and screens.
- **Side Button:** Typically used to wake the screen, return to the home screen, or access the main menu.

4.2 Health Monitoring

- **Heart Rate:** Swipe to the heart rate interface or select it from the menu. Ensure the watch is snug on your wrist for accurate readings.
- **SpO2:** Access the blood oxygen measurement function from the menu. Remain still during measurement.
- **Sleep Tracking:** Wear the watch to bed. It will automatically track your sleep patterns and provide data in the app.

4.3 Sports Modes

Select 'Workout' or 'Sports' from the main menu. Choose from over 120 available sports modes. Tap to start a workout. The watch will track duration, calories burned, heart rate, and other relevant metrics. End the workout by tapping the screen and selecting 'End'.

4.4 Smart Notifications

Once paired with your smartphone and app permissions are granted, your smartwatch will display incoming calls, messages, and notifications from selected apps. You can manage which app notifications appear on your watch through the companion app settings.

5. MAINTENANCE AND CARE

- **Cleaning:** Regularly clean the watch and band with a soft, dry cloth. If necessary, use a slightly damp cloth and dry thoroughly. Avoid harsh chemicals or abrasive materials.
- **Water Resistance:** The watch is designed for splashes and light rain (IP67 rating). Do not submerge the watch in water, wear it while swimming, or expose it to hot water or steam. Damage due to water submersion is not covered under warranty.
- **Storage:** Store the watch in a cool, dry place when not in use. Avoid extreme temperatures.
- **Charging:** Use only the provided charging cable. Ensure the charging contacts are clean and dry before charging.

6. TROUBLESHOOTING

Issue	Possible Solution
Watch not turning on	Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
Cannot pair with smartphone	Ensure Bluetooth is on. Restart both the watch and phone. Make sure the app has necessary permissions. Forget the device in phone's Bluetooth settings and try pairing again.
Inaccurate step count/heart rate	Ensure the watch is worn snugly on your wrist, about one finger's width above the wrist bone. Calibrate steps in the app if available.
No notifications received	Check app notification settings and phone's system notification settings. Ensure the app is running in the background.

Issue	Possible Solution
Screen issues (lines, unresponsive)	Restart the watch. If the issue persists, contact customer support. Avoid exposing the watch to excessive moisture or impact.
Battery drains quickly	Reduce screen brightness, turn off unnecessary features (e.g., continuous heart rate monitoring if not needed), and ensure the app is not constantly syncing in the background.

If you encounter issues not listed here or if solutions do not resolve the problem, please refer to the Warranty and Support section for assistance.

7. SPECIFICATIONS

Feature	Detail
Model Number	TG08
Screen Size	1.83 Inches
Resolution	240 x 284
Wireless Communication	Bluetooth
Compatible Devices	Smartphone (iPhone iOS 9.0+, Android 5.0+)
