## PRODUCT OVERVIEW

### Key Features

- Brightness:** Delivers up to 2,000 lumens for high-performance lighting.
- Long Lasting:** Equipped with a 5000mAh rechargeable ZX955 battery, providing extended operation up to 150 hours in MoonGlow mode.
- 5 Light Modes:** Features Turbo, High, Medium, Low, and MoonGlow modes for adaptable lighting.
- TWIST FOCUS:** Allows seamless transitions between PURE BEAM Flood beams and long-distance BULLS-EYE Spot beams.
- Rechargeable:** USB-C rechargeable with a charge-level indicator for convenience.

- **Durable Construction:** Aluminum body with IP54-rated water and dust resistance.
- **2-Position Pocket Clip:** Provides versatile carrying options.

### **Included Components**

The COAST PX200R package includes the following items:

- COAST PX200R Flashlight
- USB-C to USB-C Charging Cable
- ZX955 Rechargeable Battery

# INCLUDED

PX200R FLASHLIGHT

USB-C TO USB-C CHARGING CABLE

ZX955 RECHARGEABLE BATTERY

Image: The PX200R flashlight, USB-C charging cable, and ZX955 rechargeable battery, as supplied in the product package.

## SETUP

### Battery Installation

1. Unscrew the tail cap of the flashlight by turning it counter-clockwise.
2. Insert the ZX955 rechargeable battery with the positive (+) end facing towards the flashlight head.
3. Screw the tail cap back on clockwise until secure.

### Charging the Battery

The PX200R features a built-in USB-C charging port. To charge the flashlight:

1. Locate the USB-C port cover on the flashlight body and open it.
2. Connect the provided USB-C cable to the flashlight's port and to a compatible USB power source (e.g., wall adapter, computer, power bank).
3. The charge indicator light will illuminate to show charging status.
4. Once fully charged, disconnect the cable and securely close the USB-C port cover to maintain water

and dust resistance.

# RECHARGEABLE

## RECHARGEABLE

**ZX955**  
**RECHARGEABLE**  
Included

-  Built-in USB-C port
-  Charge indicator
-  Protection circuits

Image: The PX200R flashlight being charged via its USB-C port, indicating its rechargeable capability.

### Battery Level Indicator

The flashlight is equipped with a battery level indicator to show the current charge status:

- **Green Light:** Battery is charged.
- **Red Light:** Battery is low and requires charging.

# BATTERY LIFE INDICATOR

Image: The battery life indicator on the PX200R, displaying green for a charged battery and red for a low battery.

## OPERATING INSTRUCTIONS

---

### Power On/Off and Light Modes

The PX200R features a single power button for controlling power and cycling through light modes:

1. **To Power On:** Press the power button once. The flashlight will typically turn on in the last used mode (or a default mode).
2. **To Cycle Modes:** While the flashlight is on, press the power button repeatedly to cycle through the available modes: Turbo, High, Medium, Low, MoonGlow.
3. **To Power Off:** Press and hold the power button for approximately 1 second, or if the flashlight has been on in a single mode for a few seconds, a single press will turn it off without cycling through other modes.

# 5 LIGHT MODES

- 1  High
- 2  Medium
- 3  Low
- 4  Moon glow
- 5  TURBO

Image: The PX200R flashlight illuminating a dark environment, illustrating the different light modes available.

## TWIST FOCUS System

The TWIST FOCUS system allows for quick adjustments between a broad flood beam and a concentrated spot beam:

- **PURE BEAM Flood:** Twist the flashlight head counter-clockwise to expand the beam for a wide, even circle of light, ideal for illuminating large areas.
- **BULLS-EYE Spot:** Twist the flashlight head clockwise to narrow the beam into a focused spot, providing a long-distance beam with a bright center and a soft halo.

# FOCUSING BEAM SYSTEM

Image: A visual representation of the PX200R's TWIST FOCUS technology, demonstrating the shift from a wide flood beam to a focused spot beam.

## Using the 2-Position Pocket Clip

The integrated 2-position pocket clip offers flexibility for carrying or hands-free use:

- Attach the flashlight to a pocket, belt, or backpack strap for secure transport.
- Clip the flashlight to the brim of a hat for hands-free illumination, effectively converting it into a headlamp.

# 2-POSITION CLIP

Image: A user demonstrating the 2-position clip by attaching the PX200R flashlight to a hat for hands-free operation.

## MAINTENANCE

### Cleaning

- Wipe the flashlight body with a soft, damp cloth to remove dirt and debris.
- Ensure the lens is clean for optimal light output. Use a lens cleaning cloth if necessary.
- Do not use abrasive cleaners or solvents, as these may damage the finish or internal components.

### Storage

- Store the flashlight in a cool, dry place away from direct sunlight and extreme temperatures.
- For long-term storage, it is recommended to charge the battery to approximately 50% and recharge it every 3-6 months to maintain battery health.
- Ensure the USB-C port cover is securely closed to prevent dust and moisture ingress.

## TROUBLESHOOTING

- **Flashlight not turning on:** Ensure the battery is correctly inserted and fully charged. Check for any loose connections.

- **Flashlight not charging:** Verify the USB-C cable is properly connected to both the flashlight and the power source. Try a different USB-C cable or power adapter. Ensure the charging port is clean and free of debris.
- **Dim light output:** The battery may be low; recharge the flashlight. Ensure the lens is clean.
- **Beam not focusing correctly:** Ensure the TWIST FOCUS head is clean and free of obstructions.

## SPECIFICATIONS

---

The following specifications are certified to the ANSI FL1 Standard:

Feature	Specification
Manufacturer	Coast
Model Number	PX200R
Item Weight	9.9 ounces
Product Dimensions	5.71 x 1.2 x 1.2 inches
Material	Aluminum
Power Source	Battery Powered
Type of Bulb	LED
Special Features	Rechargeable
Battery Cell Type	Lithium Ion
Water & Dust Resistance	IP54 Rated
