PEUGEOT Line Duo Rechargeable Electric Pepper and Salt Mills User Manual

Model: 2/4314800_Web

Introduction

Thank you for choosing the PEUGEOT Line Duo Rechargeable Electric Pepper and Salt Mills. This manual provides essential information for the safe and efficient use, maintenance, and troubleshooting of your new electric mills. Please read these instructions carefully before first use and retain them for future reference.

Important Safety Instructions

- Read all instructions before using the appliance.
- Keep the appliance away from water and other liquids. Do not immerse the mills in water.
- Do not operate the appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- Use only the charging cable provided or a compatible USB-C cable for charging.
- Do not attempt to repair or disassemble the mills yourself. Contact customer support for assistance.

Package Contents

Your PEUGEOT Line Duo set includes:

- 1 x PEUGEOT Line Electric Pepper Mill
- 1 x PEUGEOT Line Electric Salt Mill with Zirlion mechanism
- 1 x Charging Tray
- 1 x USB-C Charging Cable
- Pre-filled rock salt crystals (for salt mill)
- Pre-filled peppercorns (for pepper mill)

Product Overview

The PEUGEOT Line Duo Electric Mills combine contemporary design with advanced technology for an enhanced seasoning experience. These compact mills feature a ribbed body for a secure grip and are designed for one-handed operation.

Key Features:

- **One-Handed Operation:** Ergonomically designed for ease of use.
- **u'Select Grind Adjustment:** Patented 6-position adjustment technology at the base for precise grind settings from fine to coarse.
- **Zirlion Salt Mechanism:** Made from exceptionally hard zirconia, designed for grinding dry and hard salt crystals with superior efficiency and durability.
- **Steel Pepper Mechanism:** Features a double row of helical teeth that precisely cut peppercorns for optimal flavor release.
- **Rechargeable Battery:** Equipped with a long-lasting lithium-ion battery and fast USB-C charging.
- **Easy Refilling:** Funnel-shaped reservoir for optimized and mess-free refilling.

Setup

1. Charging the Mills

1. Place both electric mills onto the charging tray.
2. Connect the USB-C charging cable to the charging tray and plug the other end into a compatible USB power adapter (not included) or a USB port.
3. The indicator light on the mills will illuminate during charging and turn off or change color when fully charged (refer to specific mill indicator behavior if detailed in product).
4. A full charge provides long-lasting autonomy.

2. Filling the Mills

The mills come pre-filled, but you will need to refill them eventually.

For the Pepper Mill:

- Remove the top part of the mill to access the reservoir.
- Fill the reservoir with dry peppercorns. Recommended types include: Black Pepper, White Pepper, Red Pepper, Coriander Seeds, and Pink Peppercorns (maximum 15% in a blend).
- Ensure grains are smaller than 6mm.
- Do not use wet or oily spices.
- Replace the top part securely.

For the Salt Mill:

- Remove the top part of the mill to access the reservoir.
- Fill the reservoir with dry salt crystals (rock salt).
- Ensure crystals are smaller than 6mm.
- **Do not use wet salt** such as Guérande salt, or any other damp or clumping salts, as this can damage the Zirlion mechanism.
- Replace the top part securely.

Operating Instructions

1. Grinding

To operate the mill, simply press and hold the button located on the top of the mill. The mill will automatically grind and dispense the contents. Release the button to stop grinding.

2. Adjusting Grind Settings (u'Select)

The PEUGEOT u'Select system allows you to precisely adjust the coarseness of your grind. This patented technology is located at the base of each mill.

1. Turn the ring at the base of the mill.
2. There are 6 predefined settings, from very fine (setting 1) to very coarse (setting 6).
3. Select the desired grind setting by rotating the ring until it clicks into place.
4. **Fine Grind (Power):** Ideal for delicate dishes where even distribution is key.
5. **Medium Grind (Balance):** Versatile for everyday cooking.
6. **Coarse Grind (Flavor):** Best for finishing dishes or when a strong burst of flavor is desired.

Maintenance

Cleaning

- **Exterior:** Wipe the exterior of the mills with a soft, dry or slightly damp cloth. Do not use abrasive cleaners or immerse the mills in water.
- **Grinding Mechanism:** For optimal performance, occasionally clean the grinding mechanism. You can use a small brush (like a pastry brush) to remove any residual spice particles. Do not wash the mechanism with water.
- Ensure the mills are completely dry before refilling or storing.

Storage

Store the mills in a dry place at room temperature. Avoid extreme temperatures and high humidity.

Troubleshooting

Problem	Possible Cause	Solution
Mill does not operate.	Battery is depleted.	Charge the mill using the provided USB-C cable and charging tray.
	Mill is not properly assembled.	Ensure the top part of the mill is securely attached.
Mill grinds slowly or inconsistently.	Low battery.	Charge the mill.
	Grinding mechanism is clogged.	Clean the grinding mechanism with a small brush. Ensure correct type of spice/salt is used.

Problem	Possible Cause	Solution
	Incorrect type of salt/pepper used.	For salt, use only dry rock salt (crystals < 6mm). For pepper, use dry peppercorns (grains < 6mm). Avoid wet or oily spices.
Grind setting does not change.	Ring at the base is stuck or not fully rotated.	Ensure the ring is clean and rotate it firmly until it clicks into the desired position.

Specifications

- **Model:** PEUGEOT Line Duo Electric Mills
- **Model Number:** 2/4314800_Web
- **Material:** Aluminum
- **Operation Mode:** Automatic
- **Power Source:** Rechargeable Lithium-ion Battery (USB-C charging)
- **Item Weight (Set):** Approximately 0.97 kg
- **Dimensions:** 15 cm height (each mill)
- **Grind Settings:** u'Select 6 predefined settings
