# XYEIUGO Gobricks 3065 1x2 Brick Without Bottom Tube Instruction Manual

Model: 3065 GDS-1545

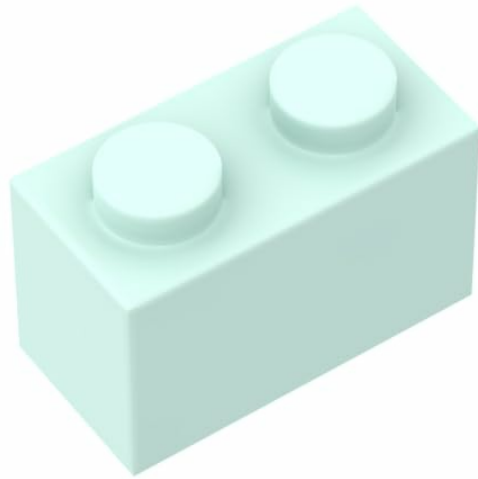

## 1. PRODUCT OVERVIEW

---

The XYEIUGO Gobricks 3065 1x2 Brick Without Bottom Tube (GDS-1545) is a small building block designed for creative construction. These bricks are compatible with standard building block systems, offering versatility for various projects. This product is specifically designed for collectors and is recommended for ages 16 and up, or adult use, due to small parts.

### Key Features:

- Consistent color performance across different parts.
- Durable, eco-friendly materials supporting creative reuse.
- Each pack contains 50 pieces to expand building possibilities.
- Meets strict safety standards.
- Seamless compatibility with other major building block brands.

## 2. SETUP AND PREPARATION

---

Before beginning your construction project, follow these steps:

1. Carefully unpack the 50 Gobricks 3065 1x2 bricks from their packaging.
2. Inspect all pieces for any manufacturing defects or damage. If any issues are found, refer to the Troubleshooting section.
3. Ensure a clean, flat, and stable surface is available for building to prevent the loss of small parts and to facilitate stable construction.

## 3. OPERATING INSTRUCTIONS

---

These Gobricks 3065 1x2 bricks are designed for interlocking construction. Follow these general guidelines for use:

- **Connecting Bricks:** Align the studs on top of one brick with the open space on the bottom of another brick. Due to the 'without bottom tube' design, these bricks offer unique connection possibilities. Press

firmly to secure the connection.

- **Building Techniques:** Experiment with different orientations and combinations to achieve desired structures. The design without a bottom tube allows for specific building techniques where a standard 1x2 brick might not fit or is not desired, such as creating thinner walls or specific structural elements.
- **Compatibility:** These bricks are compatible with other major building block brands, allowing for seamless integration into existing collections and expanding creative potential.

## 4. MAINTENANCE AND STORAGE

---

Proper care and storage will ensure the longevity of your Gobricks:

- **Cleaning:** To clean the bricks, use a soft cloth dampened with mild soap and water. Gently wipe each brick. Avoid harsh chemicals, abrasive cleaners, or extremely hot water, as these can damage the plastic or cause discoloration.
- **Rinsing:** Rinse the bricks thoroughly with clean water to remove any soap residue.
- **Drying:** Allow the bricks to air dry completely before storage. Ensure no moisture remains to prevent potential damage or mold growth.
- **Storage:** Store bricks in a clean, dry container away from direct sunlight and extreme temperatures. Prolonged exposure to sunlight can cause discoloration, and extreme temperatures can lead to warping or brittleness.

## 5. TROUBLESHOOTING

---

If you encounter any issues with your Gobricks, refer to the following common solutions:

- **Bricks not connecting securely:** Ensure both bricks are clean and free of any dust or debris that might obstruct the connection. Apply firm, even pressure when joining them. If issues persist, visually inspect the studs and the receiving areas for any deformities or manufacturing imperfections.
- **Color mismatch:** While Gobricks are manufactured for consistent color, slight variations can occasionally occur between different production batches or appear under varying lighting conditions. If a significant and unexpected color difference is observed within a single pack, please contact customer support.
- **Missing pieces:** Upon receiving your product, count the pieces to confirm the quantity. If any pieces are missing from the 50-piece pack, please contact the seller for assistance.
