

WAYXIN KT-1

WAYXIN KT1 Bluetooth Motorcycle Headset

User Manual
Model: KT-1

1. INTRODUCTION

Thank you for choosing the WAYXIN KT1 Bluetooth Motorcycle Headset. This device is designed to provide clear communication, high-fidelity audio, and convenient hands-free operation while riding. Featuring advanced DSP & CVC dual noise cancellation and IP67 waterproof rating, the KT1 ensures a superior audio experience in various conditions. Please read this manual carefully before use to ensure proper installation and operation.

2. SAFETY INFORMATION

Always prioritize safety while riding. Do not operate the device in a way that distracts you from the road. Ensure the headset is securely installed and does not obstruct your vision or helmet functionality. Keep the device away from extreme temperatures and direct sunlight. Do not attempt to disassemble or modify the device, as this will void the warranty and may cause damage.

3. PACKAGE CONTENTS

The WAYXIN KT1 package includes:

- WAYXIN KT1 Bluetooth Headset Unit
- Headset Speakers with integrated cable
- Boom Microphone
- Soft Microphone
- USB Type-C Charging Cable
- Helmet Mounting Clip
- Adhesive Mount Pad
- User Manual

4. PRODUCT OVERVIEW

Familiarize yourself with the components of your WAYXIN KT1 headset:

Image: The main KT1 headset unit, showing the control buttons, speaker connections, and both boom and soft microphones.

The KT1 features a robust design with intuitive controls for easy access even with gloves. It includes two microphone options to suit different helmet types and user preferences.

5. SETUP AND INSTALLATION

5.1 Charging the Device

Before first use, fully charge the KT1 headset. Connect the provided USB Type-C cable to the charging port on the headset and to a USB power source (e.g., computer, wall adapter). The charging indicator light will show the charging status. A full charge takes approximately 2.5 hours.

Schnellere, stärkere, nahtlose Verbindungen

Image: Visual representation of the KT1's IP67 waterproof capability and battery performance, highlighting 2.5 hours for fast charging, 36 hours of music playback, and 270 hours of standby time.

5.2 Helmet Installation

The KT1 offers two installation methods: clip mount and adhesive mount. Choose the method best suited for your helmet type and preference.

1. **Speaker Placement:** Open the helmet's inner lining. Place the speakers inside the helmet's ear pockets, ensuring they are centered over your ears for optimal sound. Route the speaker wires neatly under the lining.
2. **Microphone Attachment:** Choose either the boom microphone (for open-face or modular helmets) or the soft microphone (for full-face helmets). Connect the chosen microphone to the headset unit. Position the microphone close to your mouth for clear voice pickup. The angle can be freely adjusted.
3. **Headset Unit Mounting:**
 - **Clip Mount:** Slide the mounting clip between the helmet shell and the inner padding on the left side of the helmet. Secure the KT1 unit onto the clip.
 - **Adhesive Mount:** Clean the surface on the left side of your helmet where you intend to mount the unit. Peel

off the protective film from the adhesive mount pad and firmly press it onto the helmet. Attach the KT1 unit to the adhesive mount.

4. **Cable Management:** Ensure all cables are tucked away and do not interfere with helmet operation or rider comfort.

6. OPERATING INSTRUCTIONS

6.1 Power On/Off

- **Power On:** Press and hold the Power button for approximately 3 seconds until you hear a voice prompt.
- **Power Off:** Press and hold the Power button for approximately 3 seconds until you hear a voice prompt.

6.2 Bluetooth Pairing

To pair the KT1 with your mobile phone:

1. Ensure the KT1 is powered off.
2. Press and hold the Power button for approximately 5-7 seconds until the indicator light flashes red and blue alternately, indicating pairing mode.
3. On your mobile phone, enable Bluetooth and search for new devices.
4. Select "WAYXIN KT1" from the list of available devices.
5. Once paired, the indicator light will turn solid blue, and you will hear a confirmation voice prompt.

6.3 Music Playback

The KT1 delivers high-fidelity audio with its 40mm drivers for an immersive music experience.

The image emphasizes the 40mm large driver unit for HiFi sound quality.

- **Play/Pause:** Press the Multi-function button once.
- **Next Track:** Press the Volume Up button.
- **Previous Track:** Press the Volume Down button.
- **Volume Adjustment:** Press and hold the Volume Up or Volume Down button.

6.4 Call Management

- **Answer Call:** Press the Multi-function button once.
- **End Call:** Press the Multi-function button once during a call.
- **Reject Call:** Press and hold the Multi-function button for 2 seconds when a call comes in.
- **Redial Last Number:** Double-press the Multi-function button.

6.5 Voice Assistant Activation

Activate your smartphone's voice assistant (Siri, Google Assistant, Bixby) with a single button press.

- **Activate Voice Assistant:** Press the Voice Control button once.

6.6 Noise Cancellation

The KT1 features DSP & CVC dual noise cancellation technology to effectively reduce environmental noise, ensuring clear conversations even at high speeds.

Kristallklar bei 120 km/h!

Image: A visual representation of the KT1's noise cancellation effectiveness, showing a significant reduction in noise (98%) before and after activation, with a motorcycle rider as the subject.

- **Activate/Deactivate Noise Cancellation:** Press the Noise Cancellation button once.

7. MAINTENANCE

- **Cleaning:** Use a soft, damp cloth to clean the headset unit. Do not use harsh chemicals or abrasive cleaners.
- **Water Resistance:** The KT1 is IP67 waterproof, meaning it is protected against dust and can withstand immersion in water up to 1 meter for 30 minutes. However, avoid prolonged exposure to water and ensure the charging port cover is securely closed.
- **Storage:** When not in use for extended periods, store the headset in a cool, dry place. Charge the device at least once every three months to maintain battery health.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not power on.	Low battery.	Charge the device for at least 30 minutes.
Cannot pair with phone.	Device not in pairing mode; Bluetooth off on phone.	Ensure device is in pairing mode (flashing red/blue). Turn on phone's Bluetooth and search again.
No sound from speakers.	Speakers not connected; volume too low.	Check speaker connection to the unit. Increase volume.
Poor microphone quality.	Microphone not positioned correctly; wrong microphone type for helmet.	Adjust microphone closer to mouth. Ensure correct microphone (boom/soft) is used for your helmet type.
