AEDNX A0810

AEDNX Building Blocks G18 Model A0810 Instruction Manual

Model: A0810 | Brand: AEDNX

Introduction

This manual provides detailed instructions for the assembly, operation, and maintenance of your AEDNX Building Blocks G18 Model A0810. Please read this manual thoroughly before beginning assembly to ensure correct usage and to maximize your enjoyment of the product.

Safety Information

The building blocks are made from eco-friendly ABS plastic, which is non-toxic and odorless. While designed for safety, please observe the following guidelines:

- Recommended for ages 6-18 years. Adult supervision is advised for younger users.
- Contains small parts. Keep away from children under 3 years old to prevent choking hazards.
- Do not aim the shootable mechanism at eyes or face. Use only the provided projectiles.

Package Contents

Verify that all components are present before starting assembly:

- 336 Building Block Pieces
- Projectiles (e.g., 3 golden rods)
- Instruction Manual (this document)

Assembly Instructions

Follow the step-by-step diagrams provided in the physical instruction booklet included with your set. The following images illustrate key features and assembly concepts.

Overall Product View

This image displays the fully assembled AEDNX G18 building block model, emphasizing its realistic design and the total number of pieces.

Component Overview

This image highlights key components of the assembled G18 model, including the muzzle, quasi-heart (slide), trigger, and grip.

Size Reference

This image shows the assembled G18 model being held, providing a visual reference for its approximate 9-inch length.

Operating Instructions

The AEDNX G18 model features a shootable mechanism for interactive play.

Loading and Firing Mechanism

This image illustrates the steps for operating the model: 1. Insert a projectile into the front loading port. 2. Pull the trigger to fire. 3. The mechanism supports one projectile per shot. 4. Ensure the magazine is correctly installed.

- **Loading Projectiles:** Insert one of the provided golden rod projectiles into the front loading port of the model. Ensure it is seated correctly.
- **Firing Mechanism:** Once a projectile is loaded, pull the trigger to activate the firing mechanism and launch the projectile.
- **Magazine Installation:** If your model includes a detachable magazine, ensure it is securely installed by sliding it into the designated slot until it clicks into place.

Maintenance

- Clean the blocks with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- Store the assembled model or unbuilt blocks in a cool, dry place away from direct sunlight to prevent material degradation.
- Regularly check for any loose or damaged parts. Replace if necessary.

Troubleshooting

Projectile Not Firing

- Ensure the projectile is fully inserted into the loading port.
- Check if the trigger mechanism is obstructed.
- Verify that all assembly steps related to the firing mechanism were followed correctly.

Loose Connections

- Re-examine the assembly steps for the specific section that is loose.
- Press blocks firmly together to ensure a secure fit.

Specifications

Feature	Detail
