- **Storage:** Store the camera in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** Fully charge the battery before long periods of inactivity. Avoid completely draining the battery regularly.
- **Water Resistance:** This camera is not waterproof. Keep it away from water and high humidity environments.

7. Troubleshooting

- **Camera Not Turning On:** Ensure the battery is fully charged. If the issue persists, try resetting the camera by pressing the reset button (refer to the manual for exact location if available).
