ANJIELO SMART WiFi Video Intercom System Instruction Manual

Model: 60080T-A+60852T-M+60211-US

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your ANJIELO SMART WiFi Video Intercom System. This system includes a 7-inch touch screen monitor and a 2-wire visual doorbell, offering features such as night vision, remote door unlocking, snapshot capture, and dual-way intercom communication.

1. SETUP AND INSTALLATION

Proper installation is crucial for the optimal performance of your video intercom system. Please follow these steps carefully.

1.1 Wiring Diagram

The system utilizes a 2-wire connection between the outdoor doorbell and the indoor monitor. Ensure all connections are secure and follow the provided diagram for correct power and signal flow.

2-line video intercom

Video 1: Product Connection Method. This video demonstrates the step-by-step process for wiring and connecting all components of the ANJIELO SMART video intercom system.

2. OPERATING INSTRUCTIONS (INDOOR MONITOR)

The 7-inch touch screen monitor provides a clear interface for managing your intercom system. Below are key operational features.

2.1 Two-Way Intercom

Engage in real-time two-way communication with visitors at your door directly from the indoor monitor. This allows you to see, hear, and speak to them before granting access.

Figure 2: Two-Way Intercom in action. The image displays a user communicating with a visitor via the indoor monitor.

2.2 Monitor and Phone Ring Functionality

When a visitor rings the doorbell, both the indoor monitor and your smartphone app will alert you, enabling communication from either device.

Monitor and Phone will Ring

Allow mutual communication with visitors through indoor monitor or phone APP.

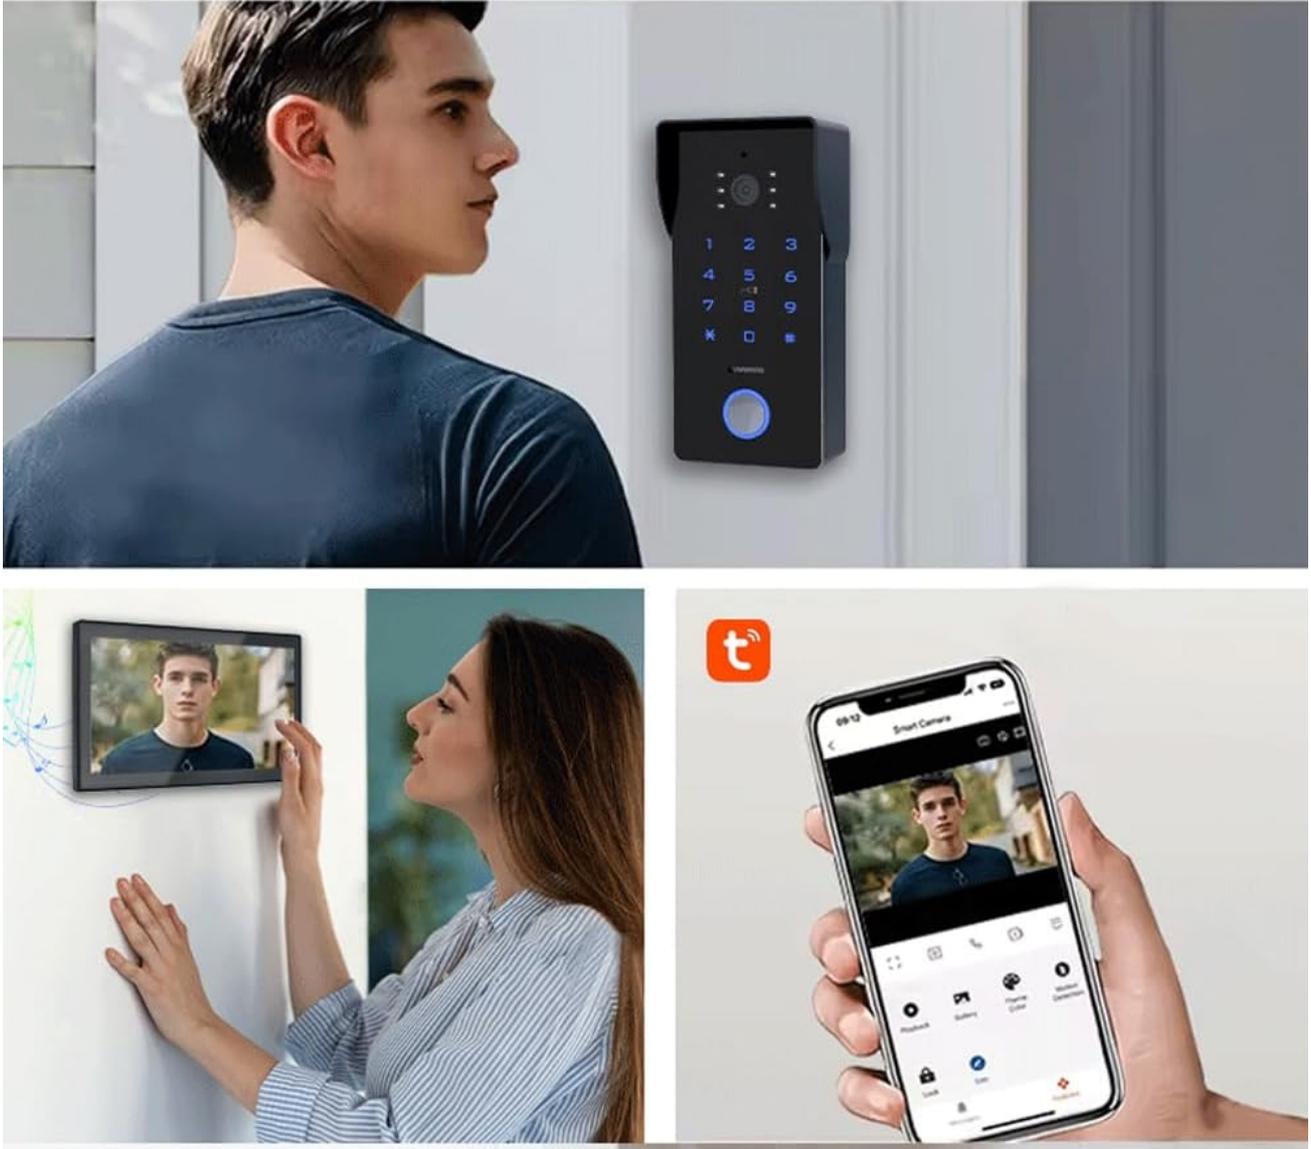

Figure 3: Monitor and Phone Ring. This image illustrates how both the indoor monitor and a smartphone receive alerts when the doorbell is pressed.

2.3 Touch Screen Interface

The 7-inch touch screen provides a responsive and intuitive interface for all system functions, ensuring ease of use.

Night Vision with IR cut

-110° wide angle

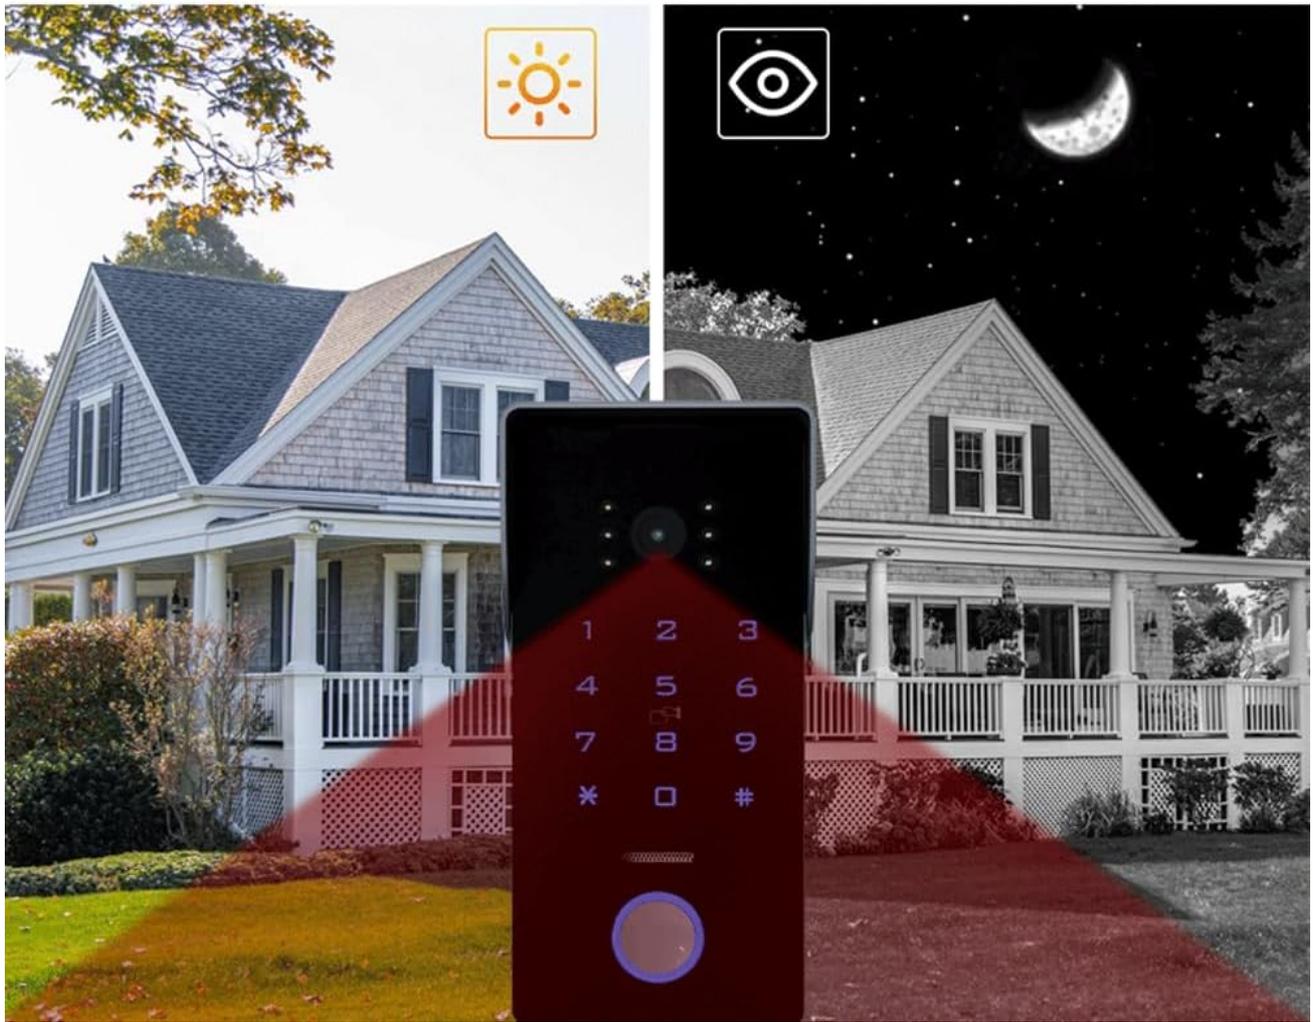

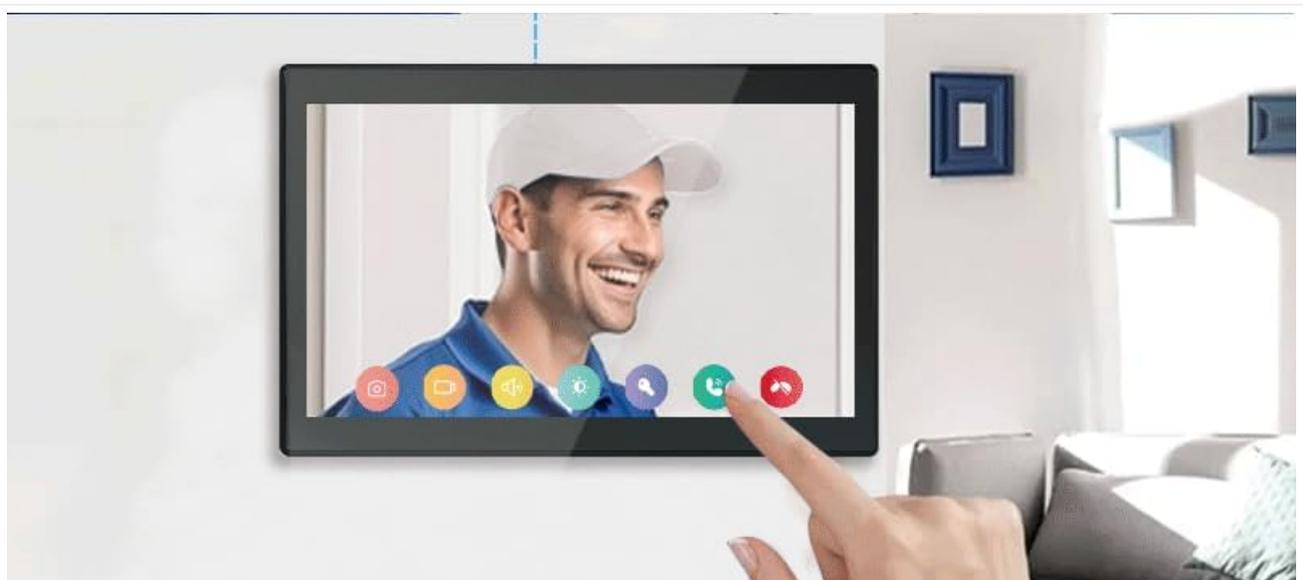

Figure 4: Touchable Screen. This image highlights the responsive touch screen interface of the indoor monitor.

2.4 Video Recording and Playback

The system supports automatic video recording and snapshot capture when motion is detected or a visitor calls. These records are saved to the monitor's Micro SD card (32GB card included) and can be reviewed at any time.

Touchable

Provides a highly accurate, responsive and seamless touch experience that is simple and precise

Video 2: Indoor Monitor Operation. This segment of the product video details how to navigate the indoor monitor's main interface, adjust device settings, and review records.

3. OPERATING INSTRUCTIONS (OUTDOOR STATION)

The outdoor doorbell station is designed for durability and security, featuring advanced detection and access control.

3.1 PIR Motion Detection

The outdoor station is equipped with PIR motion detection to alert you to activity outside your door, enhancing your home's security.

Figure 6: PIR Motion Detection. This image illustrates the motion detection feature of the outdoor station, alerting to activity at the door.

3.2 Night Vision and Weather Resistance

With infrared night vision and an IP65 waterproof rating, the outdoor doorbell ensures clear visibility and reliable operation in various weather conditions, day or night.

Video Record and Playback

Video 4: Tuya APP Remote Control. This video demonstrates the remote control capabilities of the system via the Tuya Smart or Smart Life mobile application.

5. SPECIFICATIONS

Feature	Detail
Indoor/Outdoor Usage	Outdoor
Compatible Devices	Smartphone
Power Source	Corded Electric
Connectivity Protocol	Wi-Fi
Controller Type	Tuya
Mounting Type	Wall Mount
Video Capture Resolution	1080p

Number of Items	2
Included Components	Monitor
Item dimensions L x W x H	7.5 x 5.2 x 0.7 inches
Batteries Required?	No
Video Capture Format	MJPEG
Unit Count	1.0 Count
Product Dimensions	7.5 x 5.2 x 0.7 inches
Item Weight	1 pounds
ASIN	B0F23MB82S
Item model number	60080T-A+60852T-M+60211-US
Date First Available	March 21, 2025
Manufacturer	ANJIELO SMART
Recommended Uses For Product	Outdoor Security
Brand	ANJIELO SMART
Model Name	60080T-A+60852T-M+60211-US
Connectivity Technology	Wired
Special Feature	2-Way Audio, Motion Sensor, Night Vision

6. TROUBLESHOOTING

If you encounter any issues with your ANJIELO SMART WiFi Video Intercom System, please refer to the following common troubleshooting steps:

- **No Power:** Ensure all power adapters are securely connected and receiving power from the outlet. Check the wiring connections as per the setup instructions.
- **No Video/Audio:** Verify the 2-wire connection between the outdoor station and indoor monitor. Ensure the monitor is powered on and not in sleep mode. Check app settings for audio/video permissions.
- **Poor Wi-Fi Connection:** Ensure the indoor monitor is within range of your Wi-Fi router. Restart your router and the indoor monitor. Check Wi-Fi settings on the monitor.
- **Door Unlock Not Working:** Verify the wiring to the electric lock. Check the unlock delay time setting on the indoor monitor. Ensure the correct password or IC card is being used.
- **Motion Detection Issues:** Adjust the motion detection sensitivity settings on the indoor monitor. Ensure the outdoor station's camera lens is clean and unobstructed.

For further assistance, please contact ANJIELO SMART customer support.

7. MAINTENANCE

To ensure the longevity and optimal performance of your video intercom system, regular maintenance is recommended:

- **Cleaning:** Gently wipe the indoor monitor screen and outdoor station camera lens with a soft, dry cloth. Avoid abrasive cleaners or solvents.
- **Software Updates:** Periodically check for firmware updates for the indoor monitor and outdoor station to ensure you have the latest features and security enhancements.
- **Wiring Inspection:** Annually inspect all wiring connections for any signs of wear, corrosion, or damage.
- **SD Card Management:** Regularly back up important recordings from the Micro SD card and format it periodically to maintain performance.

8. WARRANTY AND SUPPORT

Your ANJIELO SMART WiFi Video Intercom System comes with a manufacturer's warranty. Please refer to the product packaging or the official ANJIELO SMART website for specific warranty terms and conditions.

For technical support, troubleshooting assistance, or warranty claims, please contact ANJIELO SMART customer service through their official channels.
