## 1. PRODUCT OVERVIEW

The Haier 11 kg Washer Dryer (Model EFLD110-DM14IEICBKU1) is a fully automatic front-load appliance designed for efficient washing and drying. It features an 11 kg wash capacity and a 7 kg dry capacity, making it suitable for large families. This appliance integrates advanced technologies such as AI-DBT, Direct Drive motor, Wi-Fi connectivity, Puristeam, and i-Refresh for superior fabric care.

Figure 1: Front view of the Haier 11 kg Washer Dryer.

## Key Features:

- **Fully-automatic Front Load:** Offers best wash quality with combined washer and dryer functionality.
- **11 kg Wash / 7 kg Dry Capacity:** Ideal for large families, handling significant laundry loads.
- **525 mm Super Drum:** Provides deep and hygienic cleaning, fights bacteria, and minimizes creases.
- **AI-DBT (Artificial Intelligence Direct-drive Beltless Technology):** Ensures silent, stable, and intelligent operation.
- **Direct Motion Motor:** Delivers powerful, stable, and quiet washing performance with reduced vibrations.
- **Wi-Fi Connectivity:** Allows remote control and monitoring via a smart device.
- **Puristeam:** Utilizes steam for 99.9% bacteria removal, ensuring hygienic clothes.
- **i-Refresh:** A gentle mode using micro-vapor and air to deodorize clothes, remove allergens, and reduce wrinkles without water or detergent.
- **1400 Spin RPM:** Higher spin speeds contribute to faster drying times.
- **In-built Heater:** For effective hot water washes.

## 2. SETUP AND INSTALLATION

---

### 2.1 Unpacking

Carefully unpack the washer dryer and ensure all components are present. The package includes:

- Drain Hose
- Fill Hose
- Power Cord

### 2.2 Placement

Place the appliance on a firm, level surface. Ensure there is adequate space around the machine for ventilation and maintenance. Avoid direct sunlight or extreme temperatures. The appliance dimensions are 62D x 60W x 85H Centimeters.

# TRUST AND ASSURANCE

For Complete Peace Of Mind

Figure 2: Appliance dimensions and energy efficiency guide.

## 2.3 Connections

Connect the fill hose to a cold water supply and the drain hose to a suitable drain. Plug the power cord into a grounded 220 Volt, 16 Amp electrical outlet. Ensure all connections are secure to prevent leaks or electrical hazards.

## 3. OPERATING YOUR WASHER DRYER

### 3.1 Control Panel

The intuitive control panel allows you to select wash programs, adjust settings, and start/pause cycles. Refer to the display for cycle time and status.

**FOR A CLEAN,  
Germ-Free Wash**

**PuriSteam** for  
99.9% bacteria removal

**I-Refresh** deodorizes  
clothes in a snap

Combat Germs  
with **Anti-Bacterial Tech**

### 3.2 Washing Cycles

This washer dryer offers 16 washing cycles tailored for different fabric types and cleaning needs. Turn the program selector knob to choose your desired cycle.

- **Common Cycles:** Cotton, Synthetics, Mix, Allergen, Baby Care, Daily, Delicate, Wool, Shirt, Saree, Bedding.
- **Specialized Cycles:** Refresh, Quick 15', Sportswear, Jeans, Duvet, Self Clean.
- **Drying Options:** Dry Only, Wash and Dry.

# INTELLIGENT REFRESH

## A Natural Refresher

Returning the premium materials to their original look

## A Natural Softener

Returning the fiber to its original shape and shine

Figure 4: Display of available wash programs on the control panel.

### 3.3 Puristeam and i-Refresh Modes

The Puristeam function uses steam to remove up to 99.9% of bacteria, providing a highly hygienic wash. The i-Refresh mode is designed for lightly worn clothes or delicate garments that need deodorizing and wrinkle reduction without a full wash. It uses micro-vapor and air to refresh fabrics, restoring their original look and feel.

### 3.4 AI Drying System

The AI Drying System utilizes a condenser drying method, gently drying clothes with air and heat without requiring external vents or additional water. Built-in humidity sensors continuously monitor the moisture level in the load, stopping automatically when clothes are perfectly dry to prevent over-drying. Dual Cyclone Technology ensures efficient lint removal, keeping your clothes fresh and the drying cycle efficient.

### 3.5 Direct Motion Motor

The Direct Motion Motor is engineered for silent, stable, and powerful washing. Its advanced design minimizes vibrations and noise, allowing you to run the machine at any time without disturbance. This motor also contributes to long-lasting efficiency and consistent wash results.

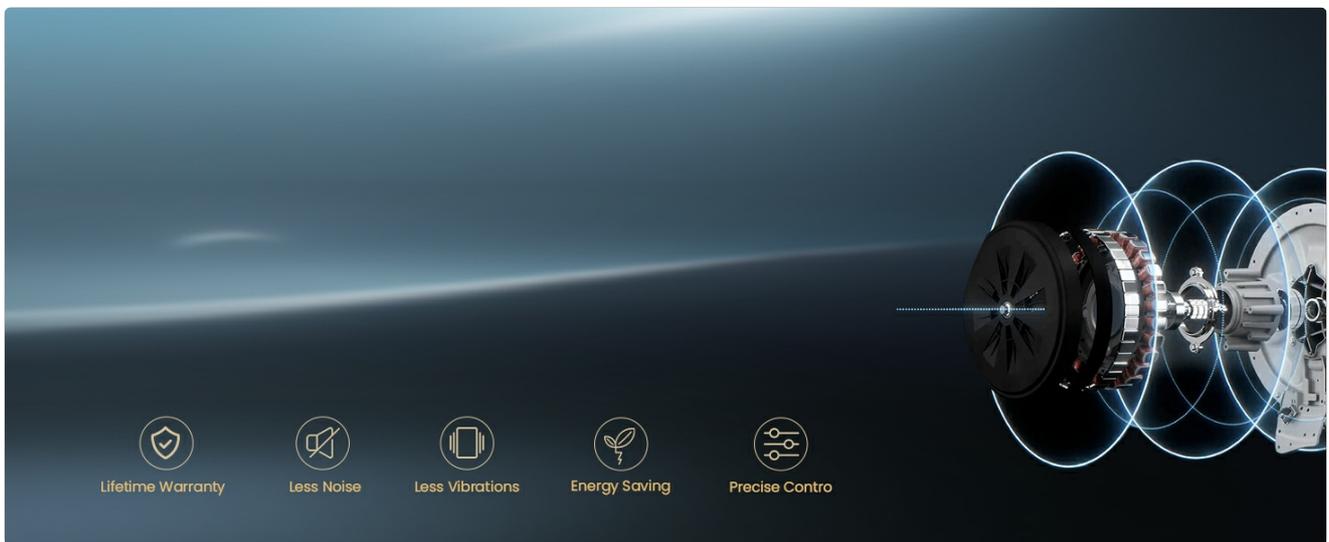

Figure 6: Diagram illustrating the Direct Motion Motor technology.

## 4. MAINTENANCE AND CARE

### 4.1 Drum Cleaning

Regularly use the 'Self Clean' cycle to maintain the hygiene of the drum and prevent odor buildup. Follow the instructions in the control panel section for activating this cycle.

### 4.2 Lint Filter Cleaning

For optimal drying performance and to prevent lint accumulation, clean the lint filter after every drying cycle. The lint filter is typically located near the door opening or at the bottom front of the appliance. Refer to the detailed user manual for specific instructions on accessing and cleaning the lint filter.

### 4.3 Exterior Cleaning

Wipe the exterior of the washer dryer with a soft, damp cloth. Avoid using abrasive cleaners or solvents that could damage the glossy finish.

## 5. TROUBLESHOOTING

If you encounter any issues with your Haier Washer Dryer, refer to the common troubleshooting tips below. For more complex problems, contact customer support.

### 5.1 Appliance Not Starting

- Ensure the power cord is securely plugged into a live electrical outlet.
- Check if the door is properly closed and latched.
- Verify that the water supply is turned on.
- Confirm that a wash program has been selected and the 'Start/Pause' button has been pressed.

### 5.2 Excessive Noise or Vibration

- Ensure the appliance is level. Adjust the leveling feet if necessary.
- Check for any foreign objects in the drum or pump filter.
- Make sure the transit bolts (if applicable) have been removed during installation.

### 5.3 Poor Drying Performance

- Clean the lint filter thoroughly.
- Ensure the load size is appropriate for the drying capacity (max 7 kg). Overloading can hinder drying.
- Select the correct drying program for the fabric type.

## 6. TECHNICAL SPECIFICATIONS

Feature	Specification
Brand	Haier
Model	EFLD110-DM14IEICBKU1
Part Number	8903124019632
Wash Capacity	11 Kilograms
Dry Capacity	7 Kilograms
Product Dimensions (LxWxH)	62D x 60W x 85H Centimeters
Item Weight	75 Kilograms
Colour	Black
Operation Mode	Automatic
Access Location	Front Load
Drum Material	Stainless Steel
Number of Washing Cycles	16
Voltage	220 Volts
Amperage	16 Amps
Special Features	525 Super Drum, AI-DBT, Washer & Dryer, Wi-Fi
Included Components	Drain Hose, Fill Hose, Power Cord

## 7. WARRANTY AND SUPPORT

### 7.1 Warranty Information

The Haier 11 kg Washer Dryer comes with a manufacturer's warranty of **2 years on the product** and **12 years on the motor**. Please retain your purchase receipt for warranty claims.

### 7.2 Customer Support

For any assistance, service requests, or inquiries, please contact Haier Appliances India Pvt Ltd. You can find their contact details on the official Haier India website or refer to the documentation provided with your appliance. The manufacturer's email ID is [info@haierindia.com](mailto:info@haierindia.com).
