3. SETUP AND ASSEMBLY

The VOCIC AX15 features an upgraded one-piece construction for simplified setup. The unit arrives largely pre-assembled. Follow these steps for final assembly:

- 1. Unpack the Unit:** Carefully remove all components from the packaging.
- 2. Unfold the Chair:** Flip the seat up and rotate the backrest into place until it locks securely.
- 3. Attach Base Rails:** Attach and lock the base rails underneath the main unit. Ensure they are securely fastened.
- 4. Connect Hand Controller:** Connect the hand controller to the designated port on the chair.
- 5. Charge Battery:** Connect the charger to the hand controller and a power outlet. Ensure the battery is fully charged before first use.

4. OPERATING INSTRUCTIONS

The VOCIC AX15 is designed for effortless operation using the hand controller. It allows for smooth and controlled lifting and lowering.

- 1. Positioning:** Position the chair near the individual requiring assistance. The optimized wheel design allows for easier movement across various surfaces.
- 2. Assisted Transfer to Seat:** Gently assist the individual to slide onto the seat of the lift chair while it is in its lowest position.
- 3. Secure with Seatbelt:** Fasten the safety belt around the individual's waist to ensure secure transfers.
- 4. Raise the Chair:** Use the hand controller to slowly raise the seat to the desired height. The ergonomic armrests provide additional support during the lift.
- 5. Lower the Chair:** To lower, use the hand controller to gently descend the seat.

The chair's movement is slow and steady, providing a sense of security and reducing the risk of sudden movements.

5. SAFETY GUIDELINES

- Always ensure the base feet are fully extended and locked before use to maintain stability.
- Use the safety belt for all transfers to prevent falls or sliding.
- Ensure the individual's feet are flat on the floor or supported during transfers.
- Do not exceed the maximum weight recommendation of 440 pounds.
- Operate the chair on a level, stable surface.
- Keep the hand controller dry and away from water.
- Regularly check all connections and moving parts for wear or damage.

Upgraded Stabilized Base

Image: The AX15 features an upgraded T-stabilized carbon steel base, designed for enhanced stability and reduced risk of tipping compared to less stable structures.

6. MAINTENANCE

- Cleaning:** Wipe down the chair's surfaces with a damp cloth and mild detergent. Avoid abrasive cleaners.
- Battery Care:** Recharge the battery regularly, even if the chair is not in frequent use, to prolong battery life.
- Inspection:** Periodically inspect all bolts, connections, and moving parts for tightness and proper function.
- Storage:** When not in use, fold the chair for compact storage in a dry, safe place.

7. TROUBLESHOOTING

- Chair Not Responding:** Check if the hand controller is securely connected and if the battery is charged.
- Unstable Movement:** Ensure all base feet are fully extended and locked. Verify the chair is on a flat, stable surface.
- Unusual Noises:** Discontinue use immediately and contact customer support.
