Operating Instructions

Your SunnyFurn patio furniture set is designed for comfortable outdoor lounging and entertaining. Its modular nature allows for various arrangements to suit your space and needs.

- **Arrangement:** The individual pieces can be rearranged to form different seating configurations, such as an L-shape sectional, separate chairs, or a long sofa with individual seating.
- **Stability:** Utilize the adjustable foot pads on each unit to level the furniture on uneven surfaces, ensuring maximum stability and comfort.
- **Cushion Use:** The cushions are designed for outdoor use. While waterproof, it is recommended to store them indoors during heavy rain or prolonged periods of non-use to extend their lifespan.
- **Coffee Table:** Use the tempered glass top coffee table for beverages, snacks, or decorative items. Avoid placing excessively hot items directly on the glass without protection.

Maintenance and Care

Proper care will ensure the longevity and appearance of your SunnyFurn patio furniture set.

- **Cushion Cleaning:** The cushion covers are machine washable. Remove covers and wash them in cold water with a mild detergent. Air dry only; do not tumble dry.
- **Rattan Wicker Cleaning:** Wipe the PE rattan wicker with a damp cloth and mild soap. Rinse thoroughly and allow to air dry. Avoid harsh chemicals or abrasive cleaners.
- **Glass Top Cleaning:** Clean the tempered glass top with a standard glass cleaner and a soft cloth.
- **Frame Care:** The powder-coated metal frame is rust-resistant. If scratches occur, touch up with appropriate outdoor paint to prevent rust.
- **Weather Protection:** Although designed for outdoor use, covering the furniture during extreme weather conditions (heavy rain, snow, strong sun) or storing cushions indoors when not in use will significantly extend its life.

Troubleshooting

If you encounter any issues with your furniture set, please refer to the following common solutions:

Problem	Possible Cause	Solution
Furniture is wobbly or uneven.	Uneven ground or loose connections.	Adjust the leveling feet on the bottom of each unit. Ensure all assembly bolts are securely tightened.
Cushions appear flattened or deformed.	Prolonged compression or heavy use.	The high-resilience sponge is designed to rebound. Fluff cushions regularly. If stored, ensure they are not compressed for long periods.

Problem	Possible Cause	Solution
Rattan appears dull or dirty.	Accumulation of dirt, dust, or environmental residue.	Clean with a damp cloth and mild soap, then rinse and air dry. Regular cleaning prevents buildup.
