4. Setup

4.1. Charging the Device

Connect the provided Type-C cable to the recorder's Type-C port and the other end to a USB power adapter or computer. A full charge takes approximately 1.5 hours, providing about 35-40 hours of continuous recording time.

4.2. Attaching the Lanyard

Thread the included lanyard through the designated lanyard hole on the device. This allows for convenient carrying and helps prevent loss.

5. Operating Instructions

5.1. Recording Audio

To begin recording, simply slide the ON/OFF switch to the **ON** position. The indicator light will confirm recording has started. To stop recording and save the file, slide the switch to the **OFF** position. Files are automatically named with the date and time of recording.

5.2. Voice Activated Recording (VOR)

The device supports Voice Activated Recording, which saves memory and time by intelligently skipping silent periods. When enabled, the recorder will only record when sound is detected and pause when silence occurs. The sensitivity of VOR can be adjusted from 1 to 7 (0 disables VOR). Refer to the user manual for detailed instructions on adjusting this setting.

5.3. Playing Back Recordings

To listen to recordings directly from the device, connect the included earbuds via the control keypad to the Type-C port. Upon connection, the device will automatically enter playback mode, starting with the most recent recording. Use the control keypad to adjust volume, skip forward, or skip backward through your recordings.

5.4. Transferring Files to a Computer

Connect the recorder to your computer using either the USB-A or USB-C cable. The device will appear as a removable drive. Navigate to the "RECORD" folder to access your recorded files. You can copy, move, or delete files as needed. The device supports direct connection to Android phones, Windows, and macOS for file transfer (Note: OTG connection with iPhone is not supported).

5.5. Using as an MP3 Player

The recorder can also function as an MP3 player. Transfer MP3 audio files from your computer to the "RECORD" folder on the device. You can then play these files using the earbuds and control keypad.

6. Maintenance

- Keep the device clean and dry. Avoid exposure to extreme temperatures or humidity.

- Do not format the recorder directly on your computer, as this may corrupt the device's internal system.
- To clear memory, delete individual recording files via your computer.
- Ensure the control keypad is not lost, as it is essential for direct playback via earbuds.

7. Troubleshooting

- **Device not turning on:** Ensure the battery is charged. Connect to a power source and allow it to charge for at least 15 minutes before attempting to power on.
- **No recording:** Check that the ON/OFF switch is fully in the ON position. Ensure there is sufficient memory space.
- **No sound during playback:** Verify that the earbuds and control keypad are securely connected to the Type-C port. Check the volume level on the control keypad.
- **Files not appearing on computer:** Ensure the USB cable is properly connected. Try a different USB port or cable.
- **General issues:** If you encounter any persistent issues, please contact the Vormooi support team for assistance.
