GLOBE Electric 65000134 1-Light Wall Sconce Instruction Manual

Model: 65000134 | Brand: GLOBE Electric

1. INTRODUCTION

Thank you for purchasing the GLOBE Electric 65000134 1-Light Plug-in or Hardwire Wall Sconce. This versatile lighting fixture features a minimalist design with an oval backplate and a matte white finish, suitable for various interior decors. It offers flexible installation options, allowing it to be used as a plug-in unit for easy placement or hardwired for a clean, cordless appearance. This manual provides essential information for safe installation, operation, and maintenance of your new wall sconce.

Figure 1: GLOBE Electric 1-Light Wall Sconce (Matte White, Linus model).

2. SETUP AND INSTALLATION

Before beginning installation, ensure the power is turned off at the circuit breaker. All necessary mounting hardware is included for quick and easy setup.

2.1 Bulb Requirements

This sconce requires **1x E26/Medium Base 60W Bulb** (sold separately). It is compatible with both LED and Incandescent bulbs. Choose a bulb wattage that suits your desired brightness.

2.2 Installation Options

The wall sconce offers two installation methods: plug-in or hardwire.

2.2.1 Plug-in Installation

1. Identify a suitable wall location near an electrical outlet.
2. Secure the mounting plate to the wall using the provided hardware. Ensure it is level and firmly attached.
3. Attach the sconce fixture to the mounting plate.

4. Insert the E26/Medium Base bulb into the socket.
5. Plug the 6ft white fabric covered cord into a standard electrical outlet.

Figure 2: Example of plug-in installation in a bedroom setting.

2.2.2 Hardwire Installation

For a sleek, cordless look, the sconce can be hardwired. This option requires the removal of the plug-in cord.

1. **Turn off power at the circuit breaker before starting.**
2. Carefully remove the plug-in cord from the sconce fixture.
3. Connect the sconce's wiring to your home's electrical wiring according to local electrical codes. If you are unsure, consult a qualified electrician.
4. Secure the mounting plate to the wall over the junction box.
5. Attach the sconce fixture to the mounting plate.
6. Insert the E26/Medium Base bulb into the socket.
7. Restore power at the circuit breaker.

HARDWIRED OPTION
with removable cord

3. OPERATING INSTRUCTIONS

The GLOBE Electric 65000134 Wall Sconce is designed for simple operation.

3.1 Turning On/Off

Locate the inline on/off rocker switch on the cord (for plug-in models) or the integrated switch on the fixture (for hardwired models, if applicable). Press the switch to turn the light on or off.

3.2 Adjusting Brightness (Dimmable)

If you have installed a dimmable bulb and your hardwired setup includes a compatible dimmer switch, you can adjust the light intensity. For plug-in models, the inline rocker switch typically provides on/off functionality only. To achieve dimming with a plug-in setup, you would need to use a smart bulb with app control or a compatible plug-in

dimmer (sold separately).

4. MAINTENANCE

Regular maintenance will help preserve the appearance and functionality of your wall sconce.

- **Cleaning:** Disconnect power before cleaning. Wipe the fixture with a soft, dry cloth. Do not use abrasive cleaners, solvents, or polishes as they may damage the finish.
- **Bulb Replacement:** Ensure the fixture is cool and power is off before replacing the bulb. Unscrew the old bulb and screw in a new E26/Medium Base 60W (max) bulb.
- **Inspection:** Periodically check all connections and mounting hardware to ensure they remain secure.

5. TROUBLESHOOTING

If you encounter issues with your wall sconce, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Light does not turn on.	No power to the fixture; loose bulb; faulty bulb; switch off.	Check circuit breaker. Ensure cord is fully plugged in (if plug-in). Tighten bulb. Replace bulb. Ensure switch is in 'on' position.
Light flickers.	Loose bulb; incompatible dimmer (if applicable); unstable power supply.	Tighten bulb. Ensure dimmer is compatible with bulb type. Consult an electrician if power supply is suspected.
Fixture is loose on the wall.	Mounting hardware not secure.	Tighten mounting screws. Ensure proper anchors were used during installation.

6. SPECIFICATIONS

Feature	Detail
Brand	GLOBE
Model Name	Linus
Part Number	65000134
Color	Matte White
Material	Metal
Style	Minimalist
Product Dimensions	4.21"L x 4.72"W x 7.87"H
