## VECELO T2-KHD-T38-GLD-H

# VECELO Twin Size Metal Platform Bed Frame Instruction Manual

Model: T2-KHD-T38-GLD-H

## 1. INTRODUCTION

Thank you for choosing the VECELO Twin Size Metal Platform Bed Frame. This manual provides essential information for the safe assembly, proper use, and maintenance of your new bed frame. Please read these instructions carefully before beginning assembly and retain them for future reference.

## 2. SAFETY INFORMATION

To ensure safe use of this product, please adhere to the following guidelines:

- **Weight Limit:** Do not exceed the maximum weight limit of **450 pounds** for the Twin size bed frame. Exceeding this limit may cause structural failure and injury.
- **Assembly:** Always follow the assembly instructions carefully. Ensure all parts and screws are firmly attached before use. Improper assembly can lead to instability.
- **Sharp Edges:** Be cautious of sharp edges on metal components during assembly and handling.
- **Children:** Keep small parts and packaging materials away from children during assembly to prevent choking hazards.
- **Placement:** Place the bed frame on a level, stable surface.
- **Maintenance:** Regularly inspect the bed frame for loose screws or damaged parts. Tighten or replace as necessary.

## 3. PACKAGE CONTENTS

Verify that all components listed below are present before beginning assembly. If any parts are missing or damaged, please contact customer service.

- 1 x Bed Frame (all metal components)
- 1 x Instruction Manual
- 1 x Assembly Kit (includes necessary hardware and tools)

## 4. ASSEMBLY INSTRUCTIONS

Assembly typically takes approximately 30 minutes. It is recommended to assemble the bed frame with two people.

- 1. Prepare the Area:** Clear a spacious area for assembly. Lay out all parts and hardware on a soft, clean surface to prevent scratches.
- 2. Identify Components:** Refer to the parts list in the included instruction manual to identify each component.
- 3. Assemble Headboard and Footboard:** Attach the headboard and footboard sections according to the specific diagrams in your included manual, using the provided bolts and tools. Do not fully tighten bolts until all sections are connected.
- 4. Connect Side Rails:** Attach the side rails to the headboard and footboard. Ensure the connections are secure.
- 5. Install Support Slats:** Place the metal slats onto the designated supports on the side rails. Ensure they are evenly spaced and securely fastened. The upgraded transverse non-slip groove design helps prevent displacement.
- 6. Install Support Legs:** Attach any central or additional support legs as indicated in the manual.
- 7. Final Tightening:** Once all components are in place and aligned, fully tighten all bolts and screws using the provided tools. Do not overtighten.
- 8. Final Check:** Ensure the bed frame is stable and all connections are secure before placing a mattress on it.

## 5. USAGE AND OPERATION

This VECELO bed frame is designed for use with a Twin size mattress. No box spring is needed due to the sturdy metal slat support system.

- **Mattress Placement:** Carefully place your Twin size mattress directly onto the metal slats.
- **Weight Capacity:** The bed frame supports a maximum weight of 450 lbs. Distribute weight evenly across the surface.
- **Under-Bed Storage:** The frame provides 12.6 inches of clearance underneath, offering ample space for storage boxes or other items to keep your room organized.
- **Noise Reduction:** The upgraded transverse non-slip groove design and secure connections are engineered to minimize noise and squeaking.

## 6. CARE AND MAINTENANCE

Proper care will extend the life and appearance of your bed frame.

- **Cleaning:** Wipe the metal surfaces with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, which can damage the powder-coated finish.

- **Inspection:** Periodically check all bolts and screws to ensure they remain tight. Retighten as needed to maintain stability and prevent noise.
- **Moving the Frame:** When moving the bed frame, lift it rather than dragging it to prevent damage to the frame or your flooring.

## 7. TROUBLESHOOTING

If you encounter any issues with your VECELO bed frame, refer to the following common solutions:

Problem	Possible Cause	Solution
Squeaking or Noise	Loose bolts or connections.	Inspect all bolts and screws. Tighten any that are loose. Ensure slats are properly seated.
Bed frame feels unstable	Incomplete or incorrect assembly; loose connections.	Review assembly instructions to ensure all steps were followed correctly. Tighten all bolts. Ensure the frame is on a level surface.
Screw hole too small or misaligned	Manufacturing variation.	If a screw cannot be inserted, ensure it is the correct screw for that hole. If the issue persists and affects stability, contact customer service for assistance or replacement parts.
Mattress slides on frame	Lack of friction between mattress and slats.	Ensure the mattress is correctly centered. Consider using a non-slip mattress pad between the mattress and slats if sliding persists.

If you experience a problem not listed here, or if the suggested solutions do not resolve the issue, please contact VECELO customer service.

## 8. PRODUCT SPECIFICATIONS

Feature	Specification
Model Number	T2-KHD-T38-GLD-H
Size	Twin
Product Dimensions (L x W x H)	77.7" x 39.4" x 39.8"
Material	Metal
Color	Gold
Finish Type	Powder Coated
Maximum Load Capacity	450 lbs
Under-Bed Clearance	12.6 Inches
Assembly Required	Yes
Box Spring Needed	No
Item Weight	28.7 pounds

Feature	Specification
UPC	840408981507
