DAODEFUL M8R-FLH

DAODEFUL M8R-FLH Replacement Filter User Manual

For Xiaomi Mi Air Purifier Models: 3C, 3H, 3, 2C, 2H, 2S, Pro

INTRODUCTION

The DAODEFUL M8R-FLH Replacement Filter is designed to maintain the air purification performance of your compatible Xiaomi Mi Air Purifier. This filter features a 3-stage filtration system, including a pre-filter, a True HEPA layer, and an activated carbon layer, to effectively capture various airborne particles and odors. This manual provides essential information for installation, operation, maintenance, and troubleshooting to ensure optimal performance and air quality.

SETUP AND INSTALLATION

The M8R-FLH filter is designed for tool-free installation. Follow these general steps to replace your air purifier filter:

1. **Power Off:** Ensure your Xiaomi Mi Air Purifier is turned off and unplugged from the power outlet before beginning the replacement process.
2. **Access Filter Compartment:** Refer to your air purifier's specific user manual for instructions on how to open the filter compartment. This typically involves removing the back or bottom panel.
3. **Remove Old Filter:** Carefully remove the used filter from the compartment. Dispose of the old filter according to local regulations.
4. **Insert New Filter:** Unpack the new DAODEFUL M8R-FLH filter. Insert it into the filter compartment, ensuring it is seated correctly and securely. The filter is designed to fit in one orientation.
5. **Close Compartment:** Close the filter compartment door or panel until it clicks into place.
6. **Power On:** Plug in and power on your air purifier. Reset the filter life indicator on your air purifier as per its instructions.

OPERATING PRINCIPLES (3-STAGE FILTRATION)

The DAODEFUL M8R-FLH filter utilizes a comprehensive 3-stage filtration system to purify the air:

- **Pre-filter:** This initial layer captures larger particles such as dust, hair, and pet dander, extending the life of the subsequent filters.

- **True HEPA Filter:** The high-efficiency particulate air (HEPA) layer is designed to capture microscopic particles, including pollen, mold spores, and fine dust, down to 0.3 microns with high efficiency.
- **Activated Carbon Filter:** This layer is composed of granular activated carbon, which effectively absorbs various odors, volatile organic compounds (VOCs), smoke, and cooking smells, providing fresher air.

3 Stage Filtration System

Make your MI 3C series
air purifier work more efficiently

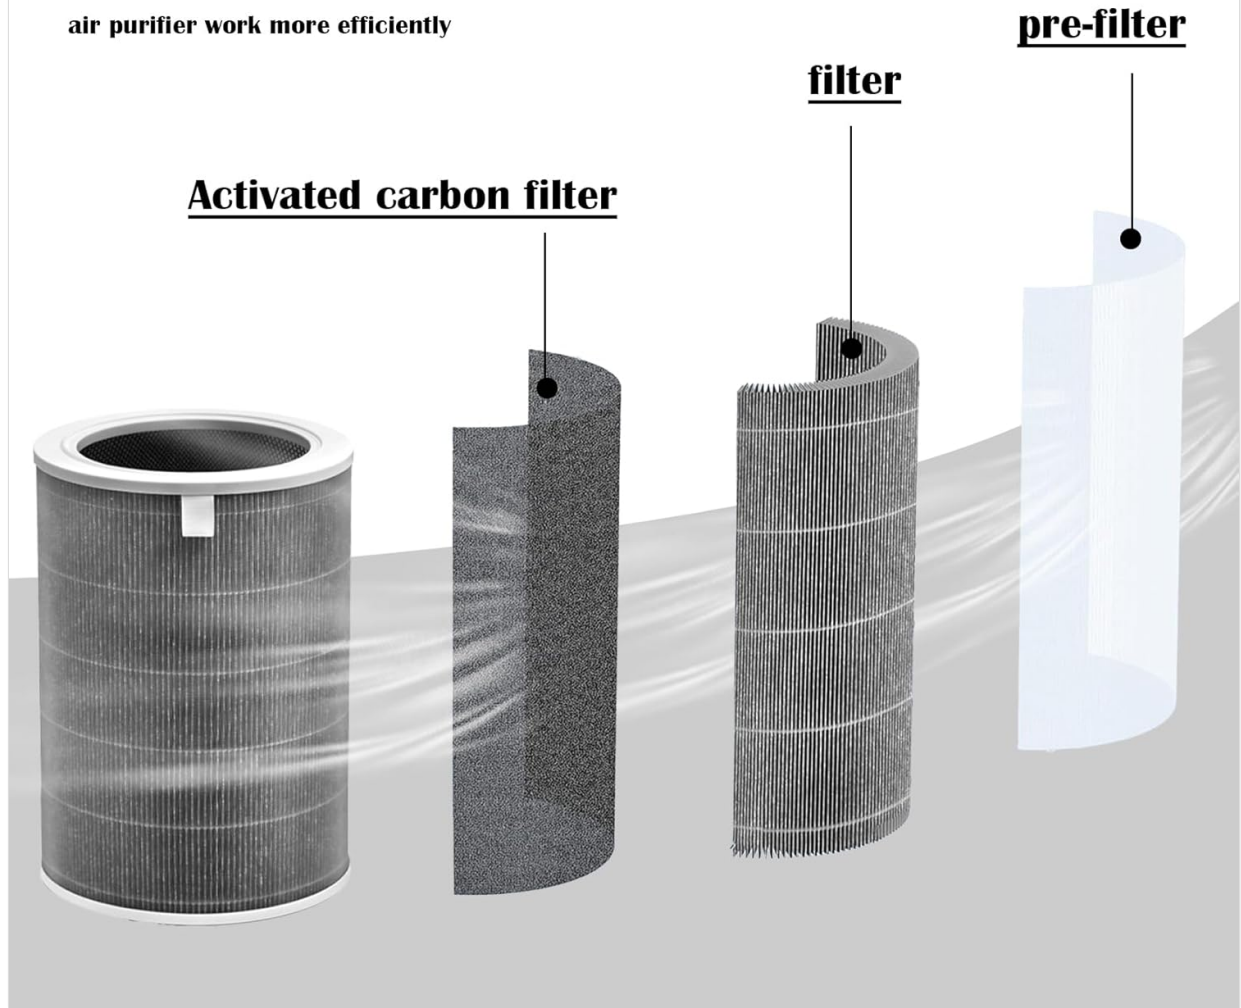

Image: A detailed breakdown of the filter's three layers: pre-filter, main filter, and activated carbon filter.

ACTIVATED CARBON FILTER

**absorbs cooking smells,
smoke, and pet odors.**

Image: Focus on the activated carbon component, illustrating its function in odor absorption.

MAINTENANCE

Regular filter replacement is crucial for maintaining the efficiency and effectiveness of your air purifier. The DAODEFUL M8R-FLH filter is designed for a lifespan of approximately **6 to 8 months** under normal operating conditions. This duration may vary based on air quality, usage frequency, and environmental factors. It is recommended to replace the filter when your air purifier indicates a filter change is needed, or if you notice a decrease in air purification performance or increased noise from the unit.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Filter does not fit correctly	Incorrect model compatibility.	Verify your air purifier model against the compatible models listed in this manual. Ensure the filter is inserted in the correct orientation.
Reduced airflow or purification efficiency	Clogged or expired filter.	Check the filter life indicator on your air purifier. Replace the filter if it has reached its recommended lifespan or appears heavily soiled.
Unusual odors persist	Activated carbon layer saturation.	Replace the filter. The activated carbon layer has a finite capacity for odor absorption.

SPECIFICATIONS

Feature	Detail
Model Number	M8R-FLH
Brand	DAODEFUL
Filtration Type	3-Stage (Pre-filter, True HEPA, Activated Carbon)
Compatible Devices	Xiaomi Mi Air Purifier 3C, 3H, 3, 2C, 2H, 2S, Pro
Material Type	Pre-filter, filter, activated carbon filter
Product Dimensions	7.7 x 11.4 x 7.7 inches (19.56 cm x 28.96 cm x 19.56 cm)
Item Weight	4.13 pounds (1.87 kg)
Color	Black
Number of Items	2 (per pack)

WARRANTY INFORMATION

Specific warranty details for the DAODEFUL M8R-FLH Replacement Filter are not provided in this manual. For information regarding product warranty, please refer to the product packaging or contact DAODEFUL customer support directly.
