Enga 2-4FDHDYP-3259

Enga Dual Shower Head System with Body Jets

Model: 2-4FDHDYP-3259 | Brand: Enga

1. INTRODUCTION

This instruction manual provides detailed guidance for the installation, operation, and maintenance of your Enga Dual Shower Head System with Body Jets. Please read this manual thoroughly before installation and use to ensure proper function and longevity of the product. Retain this manual for future reference.

2. PRODUCT COMPONENTS

The Enga Dual Shower Head System includes the following components:

- 12-inch Wall Mounted Rain Shower Head
- 6-inch Wall Mounted Rain Shower Head
- 4 Body Jets
- Handheld Shower with Holder
- 4-Function Shower Valve and Trim Kit
- 59-inch Shower Hose

For a visual overview of the product and its components, please refer to the unboxing video below.

Video 2.1: Unboxing the Enga Shower System, showcasing all included parts and accessories.

3. INSTALLATION AND SETUP

Installation of this shower system requires plumbing knowledge. It is recommended to consult a qualified professional for installation to ensure compliance with local plumbing codes and proper functionality. The system utilizes US standard NPT 1/2" connections for compatibility.

3.1 Key Installation Considerations

- Ensure adequate water pressure for optimal performance of all shower functions.
- The rough-in valve is designed for easy installation within the wall.
- Position body jets at desired heights and angles for personalized massage.

4-Way Water Diverter

4. OPERATING INSTRUCTIONS

Your Enga Dual Shower Head System offers multiple functions for a customized showering experience. The system controller allows you to switch between the 12-inch rain shower head, 6-inch rain shower head, handheld spray, or body jets using the integrated knob.

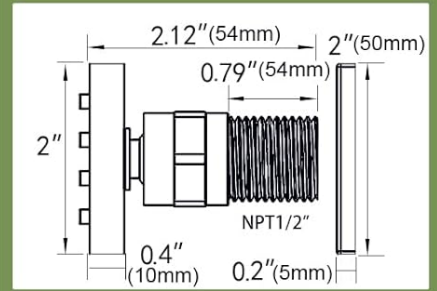

4.1 Function Selection

- **12-inch Rain Shower Head:** Provides a broad, gentle rainfall experience. Features air injection technology for water conservation and easy-clean nozzles.
- **6-inch Rain Shower Head:** Offers a focused rainfall spray, also with air injection technology.
- **Handheld Spray:** Ideal for targeted rinsing and cleaning. Features high-pressure output and self-cleaning nozzles.
- **Body Jets:** Four high-pressure, angle-adjustable spray jets provide a hydro-massage to relieve muscle tension.

5. MAINTENANCE

Regular cleaning and maintenance will ensure the optimal performance and appearance of your shower system.

5.1 Cleaning Instructions

- Use a soft cloth and mild soap or a non-abrasive cleaner specifically designed for chrome or stainless steel finishes.
- Avoid abrasive cleaners, scouring pads, or harsh chemicals, as these can damage the finish.
- For shower heads and body jets with silicone nozzles, gently rub the nozzles with your finger to dislodge any mineral buildup.

Figure 5.1: Illustration of the easy-clean silicone nozzles on the shower head, which can be cleaned by a simple finger touch.

6. TROUBLESHOOTING

If you encounter issues with your shower system, consider the following common troubleshooting steps:

- **Low Water Pressure:** Check if the main water supply valve is fully open. Ensure no blockages in the shower heads or hose. Clean nozzles as described in the maintenance section.
- **Leaking:** Verify all connections are tight. Inspect O-rings and gaskets for wear or damage.
- **Diverter Malfunction:** Ensure the diverter knob is fully engaged in the desired position. If issues persist, the internal cartridge may require inspection by a professional.

For further assistance, please contact customer support.

7. SPECIFICATIONS

Feature	Detail
Brand	Enga
Model Number	2-4FDHDYP-3259
Color	Chrome
Material	Brass, Stainless Steel
Item Weight	16 Pounds
Product Dimensions	20 x 14 x 6 inches
Shower Head Sizes	12-inch, 6-inch
Number of Body Jets	4
