Reebok Tencel Eucalyptus

Reebok King Size Tencel Eucalyptus Sheet Set Instruction Manual

PRODUCT OVERVIEW

The Reebok King Size Sheet Set, crafted from a blend of 60% TENCEL™ Lyocell and 40% Rayon from Eucalyptus, is designed to provide a soft, cooling, and breathable sleep experience. This 4-piece set includes one flat sheet, one deep pocket fitted sheet, and two pillowcases, ideal for hot sleepers and those seeking enhanced comfort.

Key features include RBK CHILL technology for temperature regulation, superior moisture-wicking properties, and a naturally soft, hypoallergenic fabric that resists pilling and wrinkles. The material is also eco-friendly, derived from sustainable eucalyptus pulp.

SETUP INSTRUCTIONS

Before First Use

It is recommended to wash your new sheet set before its first use. This helps to remove any manufacturing residues, soften the fabric, and ensure optimal fit and comfort. Please refer to the 'Care and Washing Instructions' section for detailed guidance.

Fitting the Sheets

- Fitted Sheet:** Locate the elasticized corners of the fitted sheet. The Reebok Tencel Eucalyptus fitted sheet features extra deep pockets (up to 17 inches) to accommodate various mattress depths. Start by securing one corner of the sheet over the corresponding corner of your mattress, then stretch it over the opposite corner. Repeat for the remaining two corners, ensuring a snug fit around the mattress.
- Flat Sheet:** Place the flat sheet over the fitted sheet, aligning the top edge with the head of your bed. Allow an even overhang on the sides and foot of the bed. You may tuck the sides and foot under the mattress for a neat appearance, or leave them untucked for a more relaxed feel.
- Pillowcases:** Insert your pillows into the pillowcases, ensuring they are fully covered and smoothed out.

CARE AND WASHING INSTRUCTIONS

Proper care will help maintain the softness, cooling properties, and longevity of your Reebok Tencel Eucalyptus Sheet Set.

- **Machine Wash Cold:** Wash separately on a gentle cycle with like colors. Cold water helps preserve the fabric's integrity and color.
- **Mild Detergent:** Use a mild, liquid detergent. Avoid detergents with harsh chemicals, optical brighteners, or bleach, as these can damage the delicate fibers.
- **Do Not Bleach:** Bleach can weaken the Tencel and rayon fibers, leading to damage and reduced lifespan.
- **Tumble Dry Low:** Tumble dry on a low heat setting. High heat can cause shrinkage and damage the fibers.
- **Remove Promptly:** Remove sheets from the dryer immediately after the cycle finishes to minimize wrinkling.
- **Low Iron (Optional):** If desired, iron on a low heat setting.
- **Avoid Fabric Softeners:** Fabric softeners can build up on the fibers, reducing their natural breathability and moisture-wicking capabilities.

MAINTENANCE AND LONGEVITY

To ensure your Reebok Tencel Eucalyptus Sheet Set remains in excellent condition and provides lasting comfort, follow these maintenance tips:

- **Regular Washing:** Wash your sheets regularly according to the care instructions to keep them fresh and clean.
- **Rotate Sets:** If you own multiple sheet sets, rotating them can help distribute wear evenly and extend the life of each set.
- **Proper Storage:** Store clean, dry sheets in a cool, dry place away from direct sunlight. Breathable storage bags are ideal to prevent moisture buildup.
- **Address Stains Promptly:** Treat any stains as soon as possible using a gentle stain remover suitable for delicate fabrics, following the product's instructions.
- **Avoid Sharp Objects:** Keep sharp objects away from the sheets to prevent snags or tears.

TROUBLESHOOTING

Common Concerns and Solutions

- **Wrinkling:** Tencel and rayon fibers are known for their softness but can be prone to wrinkling, especially if left in the dryer. To minimize wrinkles, remove the sheets immediately after the drying cycle and fold them smoothly. A low-heat iron can be used if necessary.
- **Perceived Lack of Cooling:** While designed for cooling, the effectiveness can be influenced by external factors. Ensure your mattress and mattress protector are also breathable. Proper room ventilation can also enhance the cooling sensation.
- **Pilling:** Although the sheets are designed to be pill-resistant, pilling can occasionally occur due to excessive friction or improper washing. Ensure you are washing on a gentle cycle and avoiding harsh detergents or abrasive contact with other laundry items.

PRODUCT SPECIFICATIONS

Image: Detailed view of the sheet's material composition (60% TENCEL™ Lyocell, 40% Rayon from Eucalyptus) and key benefits: wicking, cooling, and super soft.

Attribute	Detail
Size	King

Material	60% TENCEL™ Lyocell and 40% Rayon from Eucalyptus
