MAINTENANCE

Fabric Care (Chenille)

- Regularly vacuum the chenille fabric using a soft brush attachment to remove dust and debris.
- For spills, blot immediately with a clean, dry cloth. Avoid rubbing, as this can spread the stain.
- For deeper cleaning, consult a professional upholstery cleaner or use a fabric-specific cleaning solution, testing on an inconspicuous area first.
- Avoid direct sunlight to prevent fading.

Frame and Mechanism Care

- Periodically check all bolts and screws to ensure they are tight. Retighten as necessary.
- Keep the steel frame and moving parts free from dust and obstructions.
- Lubricate moving parts of the pull-out mechanism annually with a silicone-based lubricant to ensure

smooth operation.
