# HP 22" Series 3 Pro 322pv FHD Monitor User Manual

Model: Series 3 Pro (9U5A2AA#ABA)

## INTRODUCTION

---

This user manual provides essential information for the safe and efficient use of your HP 22" Series 3 Pro 322pv FHD Monitor. Please read this manual thoroughly before operating the device and retain it for future reference. This monitor is designed to enhance your productivity and viewing experience with its Full HD resolution, VA panel technology, and user-friendly features.

## SAFETY INFORMATION

---

- Ensure the monitor is placed on a stable, level surface to prevent accidental falls.
- Do not block ventilation openings. Proper airflow is essential to prevent overheating.
- Use only the power cord and adapter supplied with the monitor.
- Avoid exposing the monitor to excessive moisture, dust, or direct sunlight.
- Disconnect the power cord from the outlet before cleaning or if the monitor will be unused for an extended period.
- Do not attempt to service the monitor yourself. Refer all servicing to qualified service personnel.

## SETUP

---

### 1. Unpacking the Monitor

Carefully remove all components from the packaging. Verify that all items listed in the "What's in the box" section of the product description are present:

- HP 22" Series 3 Pro 322pv FHD Monitor
- Monitor Stand (Base and Neck)
- HDMI cable
- AC power cord
- Warranty card
- Quick Setup Poster

## 2. Assembling the Stand

1. Place the monitor face down on a soft, clean cloth to prevent scratches.
2. Attach the stand neck to the back of the monitor, aligning the mounting points. Secure with screws if provided.
3. Attach the stand base to the stand neck, ensuring it clicks into place or is secured with the thumb screw.
4. Carefully lift the assembled monitor and place it on your desired viewing surface.

Alternatively, the monitor supports VESA mount (100x100mm) for wall or arm mounting. Ensure the VESA mount is compatible and securely installed.

## 3. Connecting Cables

Locate the input ports on the back of the monitor.

- **Power Connection:** Connect the AC power cord to the monitor's power input and then to a grounded electrical outlet.
- **Video Connection:**

- For digital video, connect one end of the supplied HDMI cable to the monitor's HDMI 1.4 port and the other end to the HDMI output port on your computer or device.
- For analog video, connect a VGA cable (not supplied) to the monitor's VGA port and the other end to the VGA output port on your computer or device.

## OPERATING THE MONITOR

---

### Power On/Off

Press the power button, usually located on the bottom right bezel or rear of the monitor, to turn the monitor on or off. The power indicator light will illuminate when the monitor is on.

### On-Screen Display (OSD) Menu

The monitor features an intuitive joystick OSD button for easy navigation and customization of settings. Press the OSD button to access the main menu. Use the joystick to navigate through options and adjust values.

Available OSD Menu Options:

- **Brightness:** Adjusts the overall luminance of the screen.
- **Color:** Controls color temperature, contrast, and other color-related settings.
- **Image:** Adjusts image sharpness, aspect ratio, and other display properties.
- **Input:** Selects the active video input source (HDMI or VGA).
- **Power:** Manages power-saving features and power button behavior.
- **Menu:** Accesses sub-menus for advanced settings.
- **Management:** Contains options for OSD language, OSD timeout, and factory reset.
- **Information:** Displays current resolution, refresh rate, and model information.
- **Exit:** Exits the OSD menu.

### Adjusting the Monitor

The monitor stand allows for tilt adjustment. Gently tilt the top or bottom edge of the monitor forward or backward to achieve your preferred viewing angle. The tilt range is typically -5 to +23 degrees.

### Eye Comfort Features

This monitor includes features designed to reduce eye strain:

- **Flicker Free:** Eliminates screen flickering, which can cause eye fatigue.
- **HP Eye Ease (Low Blue Light Filter):** An always-on hardware solution that filters out harmful blue light without affecting color accuracy, providing a more comfortable viewing experience.

## MAINTENANCE

---

### Cleaning the Monitor

To clean the monitor, follow these steps:

1. Turn off the monitor and unplug the power cord from the electrical outlet.
2. Use a soft, lint-free cloth lightly dampened with water or a non-abrasive screen cleaner.
3. Gently wipe the screen and the monitor casing.
4. Do not spray cleaner directly onto the screen or into any openings.
5. Avoid using benzene, thinner, ammonia, or abrasive cleaners, as these can damage the monitor.

### General Care

- Keep the monitor away from direct sunlight, heat sources, and extreme temperatures.
- Ensure adequate ventilation around the monitor.

- Avoid placing heavy objects on the monitor or its cables.

## TROUBLESHOOTING

If you encounter issues with your monitor, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
No image on screen	Monitor not powered on. Video cable not connected. Incorrect input source selected.	Press the power button. Ensure video cable (HDMI/VGA) is securely connected to both monitor and computer. Use the OSD menu to select the correct input source.
Image is blurry or distorted	Incorrect resolution setting. Loose video cable connection.	Set the display resolution to 1920 x 1080 (FHD) in your computer's display settings. Check and re-secure video cable connections.
OSD menu does not appear	OSD button not pressed correctly. Monitor is in standby mode.	Press the joypad OSD button firmly. Ensure the monitor is active and receiving a signal.

For more detailed troubleshooting, refer to the "Information" section within the OSD menu or consult the HP support website.
