MAINTENANCE AND CLEANING

Exterior Cleaning

- Wipe the exterior with a damp cloth and mild detergent. Avoid abrasive cleaners.
- Clean the control panel with a soft, damp cloth. Do not use excessive water.

Interior Cleaning

- Clean the interior cavity after each use to prevent food buildup.
- For stubborn stains, place a bowl of water with lemon slices inside and microwave for 5-10 minutes. The steam will loosen food particles, making them easier to wipe away.
- Remove the glass turntable and turntable ring for cleaning. Wash them in warm, soapy water or in the dishwasher.

Door Care

- Wipe the door seals and adjacent parts frequently with a damp cloth to remove spills and splatters.
- Do not use abrasive cleaners or sharp metal scrapers to clean the oven door glass, as they can scratch the surface.
