## Package Contents

Please verify that all items listed below are included in your package:

- 1 x UGREEN 65W USB C Charger (Genshin Impact Edition)
- 1 x UGREEN 100W USB C to USB C Cable (Genshin Impact Edition)
- 1 x UGREEN 20000mAh Power Bank (Genshin Impact Edition)
- 1 x UGREEN Qi2 Wireless Charger (Genshin Impact Edition)
- 1 x User Manual

## Important Safety Instructions

To ensure safe operation and prevent damage, please read and adhere to the following safety guidelines:

- Do not expose the devices to liquids, moisture, or extreme temperatures.
- Avoid dropping, impacting, or disassembling the devices.

- Use only original or certified cables and adapters with the products.
- Keep out of reach of children.
- Do not operate if the product appears damaged.
- Ensure proper ventilation when charging to prevent overheating.

## Setup Guide

### UGREEN 65W USB C Charger

Image: Front view of the UGREEN 65W USB C Charger, showing its USB-C1, USB-C2, and USB-A ports.

1. Unfold the AC prongs from the charger body.
2. Insert the charger into a standard wall outlet.
3. Connect your device's charging cable to one of the charger's output ports (USB-C1, USB-C2, or USB-A).
4. Connect the other end of the cable to your device.

## UGREEN 20000mAh Power Bank

Image: Close-up of the UGREEN 20000mAh Power Bank, displaying its digital screen and charging ports.

1. Before first use, fully charge the power bank using a USB-C cable and a compatible power adapter.

The digital display will show the charging progress.

2. To charge a device, connect your device's charging cable to one of the power bank's output ports.
3. Press the power button to initiate charging if it doesn't start automatically.

## UGREEN Qi2 Wireless Charger

Image: The UGREEN Qi2 Wireless Charger in its upright stand configuration, showing the magnetic charging surface.

1. Connect the wireless charger to a power source using a USB-C cable and a compatible power adapter (e.g., the 65W USB C Charger).
2. Place your Qi2-compatible device (e.g., iPhone 15 Pro) onto the magnetic charging surface. Ensure

proper alignment for optimal charging.

## UGREEN 100W USB C Cable

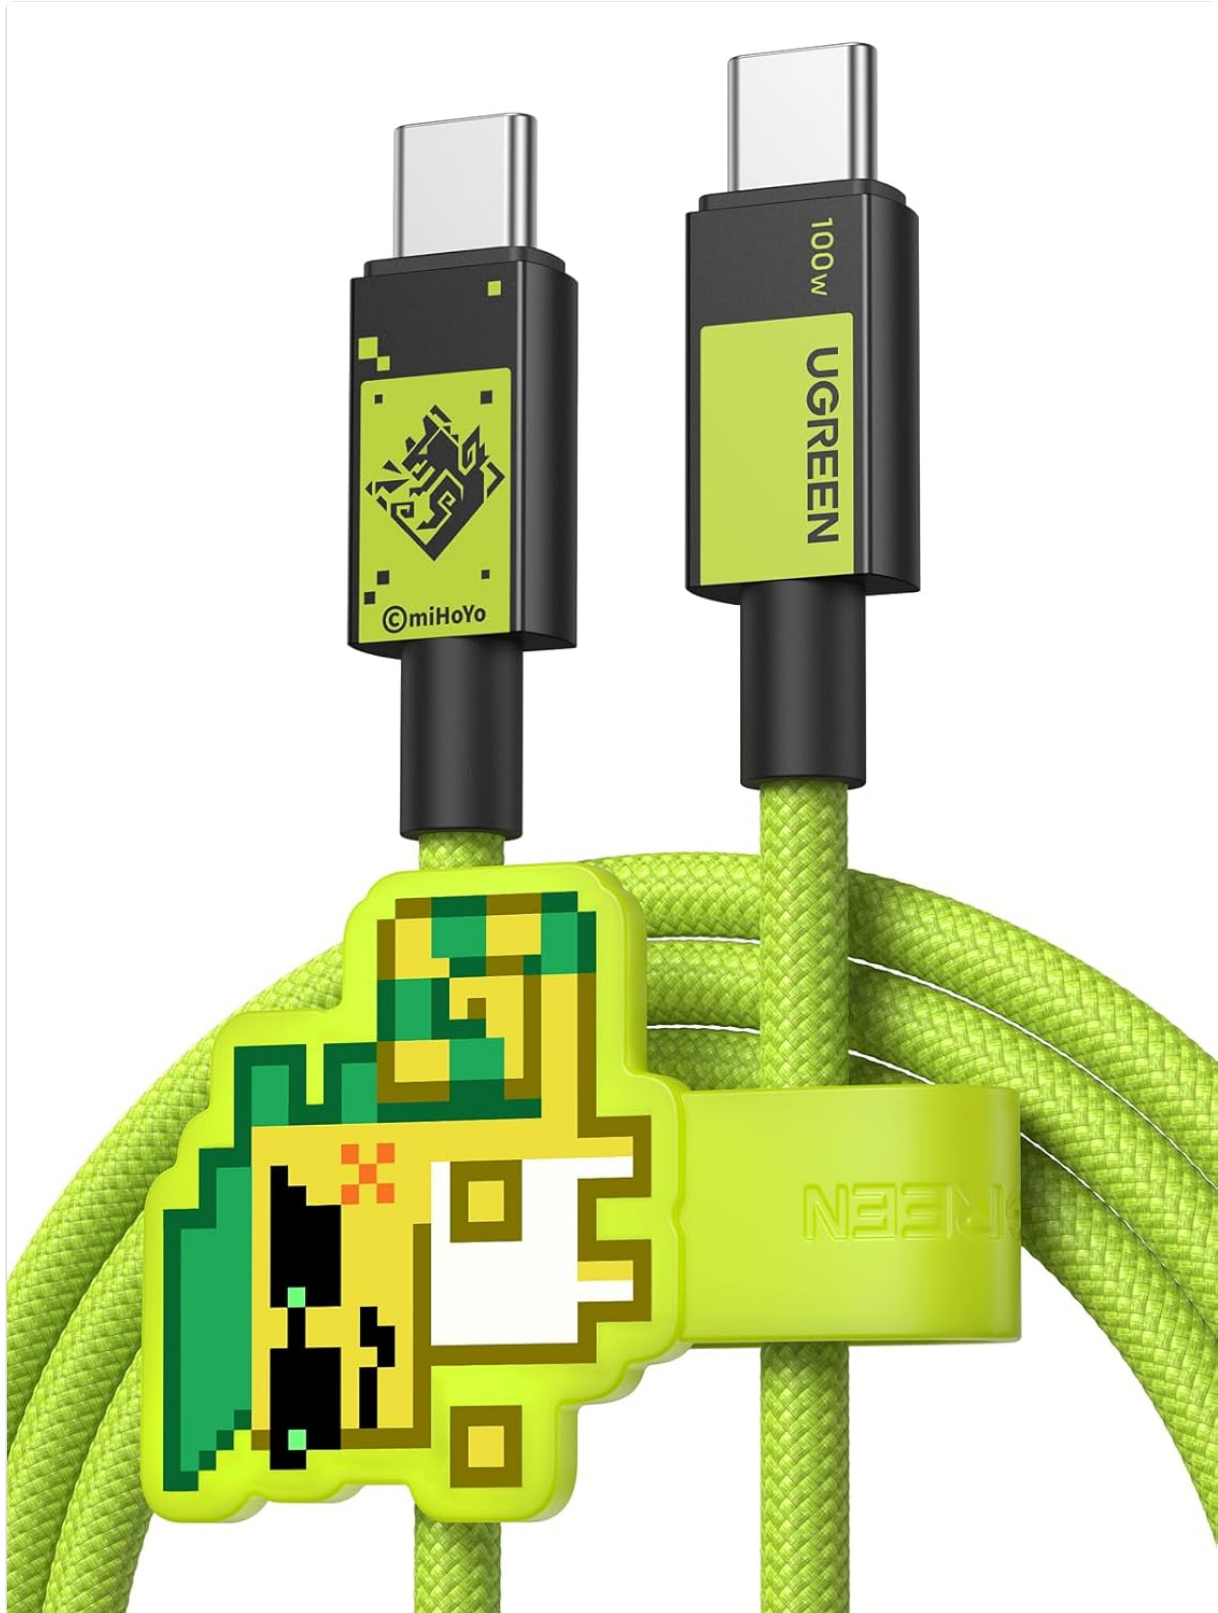

Image: Close-up of the UGREEN 100W USB C Cable, highlighting its USB-C connectors and Genshin Impact design elements.

The UGREEN 100W USB C Cable is designed for high-speed charging and data transfer. Use it to connect the 65W USB C Charger or 20000mAh Power Bank to your USB-C compatible devices for efficient power delivery and data synchronization.

## Operating Instructions

## Using the 65W USB C Charger

The 65W USB C Charger features multiple ports (2x USB-C, 1x USB-A) allowing you to charge up to three devices simultaneously. The charger intelligently distributes power based on the connected devices' requirements. For optimal fast charging, use the USB-C ports with compatible devices and cables. Refer to your device's charging specifications for best results.

## Using the 20000mAh Power Bank

To check the remaining battery level, briefly press the power button. The digital display will illuminate, showing the percentage. When charging devices, ensure they are properly connected. The power bank supports various fast charging protocols for compatible devices. It can also be recharged while simultaneously charging other devices (pass-through charging).

## Using the Qi2 Wireless Charger

The Qi2 Wireless Charger provides up to 15W fast wireless charging for Qi2-compatible devices. For best performance, ensure your device is centered on the charging pad. A charging indicator (if present) will confirm that charging has begun. Remove any thick cases or metallic objects from your device that may interfere with wireless charging.

## Care and Maintenance

- Clean the devices with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- Store the products in a cool, dry place away from direct sunlight and extreme temperatures.
- Avoid bending or stressing the cables excessively, especially near the connectors.
- If not in use for extended periods, fully charge the power bank every 3 months to maintain battery health.

## Troubleshooting

Problem	Possible Cause	Solution
Device not charging from charger/power bank.	Loose connection, incompatible cable, device issue, power bank depleted.	Ensure cables are securely connected. Try a different cable. Check if the power bank is charged. Test with another device.
Slow charging.	Cable not supporting fast charging, device not supporting fast charging, multiple devices connected (power distribution).	Use the provided 100W USB C cable. Ensure your device supports fast charging. Try charging one device at a time for maximum speed.
Wireless charger not working.	Misalignment, non-Qi2 compatible device, thick phone case, foreign objects.	Re-align device on the charging pad. Remove phone case. Ensure no metallic objects are between the device and charger. Verify device supports Qi2.
Power bank display not turning on.	Power bank is fully depleted or faulty.	Charge the power bank for several hours. If issue persists, contact customer support.

# Product Specifications

Feature	Detail
Brand	UGREEN
Color	Green
65W Charger Output	Max 65W (USB-C1/C2), Multi-port distribution
Power Bank Capacity	20000mAh
Wireless Charger Output	Up to 15W (Qi2 Certified)
Cable Power Delivery	Up to 100W
Certifications	CE, FCC, RoHS
