Tziarp LY-CG6

Tziarp 2K Wireless Outdoor/Indoor Security Camera Instruction Manual

Model: LY-CG6

1. INTRODUCTION

This manual provides essential information for the proper setup, operation, and maintenance of your Tziarp 2K Wireless Outdoor/Indoor Security Cameras. Please read this manual thoroughly before using the product to ensure optimal performance and safety.

2. WHAT'S INCLUDED

- Camera Body (2 units)
- Instruction Manual
- Mounting Screws

3. PRODUCT FEATURES

- **2K UHD Clarity with Full-Color/Infrared Night Vision & 3x Zoom:** Captures crisp, detailed videos day and night with 2K resolution. Features 3x digital zoom for focusing on specific details. (Note: Connects only to 2.4GHz Wi-Fi networks).
- **Real-Time Alerts & Two-Way Audio:** Receive instant phone notifications upon motion detection. Utilize the built-in microphone and speaker for real-time interaction.
- **Smart AI Detection & Custom Activity Zones:** Basic motion detection functions without subscription. Advanced AI features (person/vehicle/pet recognition) and custom activity zone setup require a subscription plan.
- **IP65 Weatherproof & Rechargeable Battery:** Designed for indoor or outdoor use, resistant to rain, snow, and dust. Long-lasting rechargeable battery allows flexible placement.
- **3-Day Cloud Storage & Expandable Options:** Includes 3-day rolling cloud backups. Premium cloud plans (subscription required) and local storage via microSD card (up to 128GB, not included) are available.

- **Easy Setup & 100% Wire-Free Installation:** Quick Wi-Fi pairing via the VicoHome App. Mount securely with included screws and adjustable bracket.
- **Important Usage Notes:** This camera operates exclusively with Android/iOS mobile devices via the VicoHome App. Computer or third-party app usage is not supported. Battery life varies with environmental temperature, Wi-Fi signal strength, and motion detection frequency. Stable 2.4GHz Wi-Fi coverage (minimum -70dBm) is recommended for optimal performance.

4. SETUP GUIDE

4.1. Initial Charging

Before first use, fully charge your cameras using the provided charging cables. An orange indicator light will turn green when charging is complete.

Video: Demonstrates unboxing, charging, and initial setup of the Tziarp security camera.

4.2. App Download and Pairing

1. Download the **VicoHome App** from your mobile device's app store (Android/iOS).
2. Create an account and log in.
3. Follow the in-app instructions to add a new device. Ensure your camera is powered on and emitting a tip sound.
4. Connect the camera to your 2.4GHz Wi-Fi network.

Video: Illustrates the easy setup process and app pairing for the Tziarp security camera.

4.3. Mounting the Camera

The cameras can be mounted indoors or outdoors using the provided hardware. Choose a location with strong and stable 2.4GHz Wi-Fi coverage.

1. Mark the desired drilling points for the mounting bracket.
2. Drill pilot holes and insert the anchors if necessary.
3. Secure the mounting bracket to the surface using the screws.
4. Attach the camera to the mounting bracket and adjust the angle for optimal viewing.

Outdoors

Outdoor & Indoor

Place, stand or mount it anywhere

Indoor

Image: Examples of camera placement both outdoors and indoors, showcasing its versatility for various monitoring needs.

5. OPERATING INSTRUCTIONS

5.1. Live View and Two-Way Audio

Access live video streams and communicate through the camera using the VicoHome App.

- Open the VicoHome App and select the desired camera.
- The live feed will appear.
- To use two-way audio, press and hold the microphone icon in the app to speak. Release to listen.

Two-way Voice Intercom

Talk to anyone anytime, anywhere

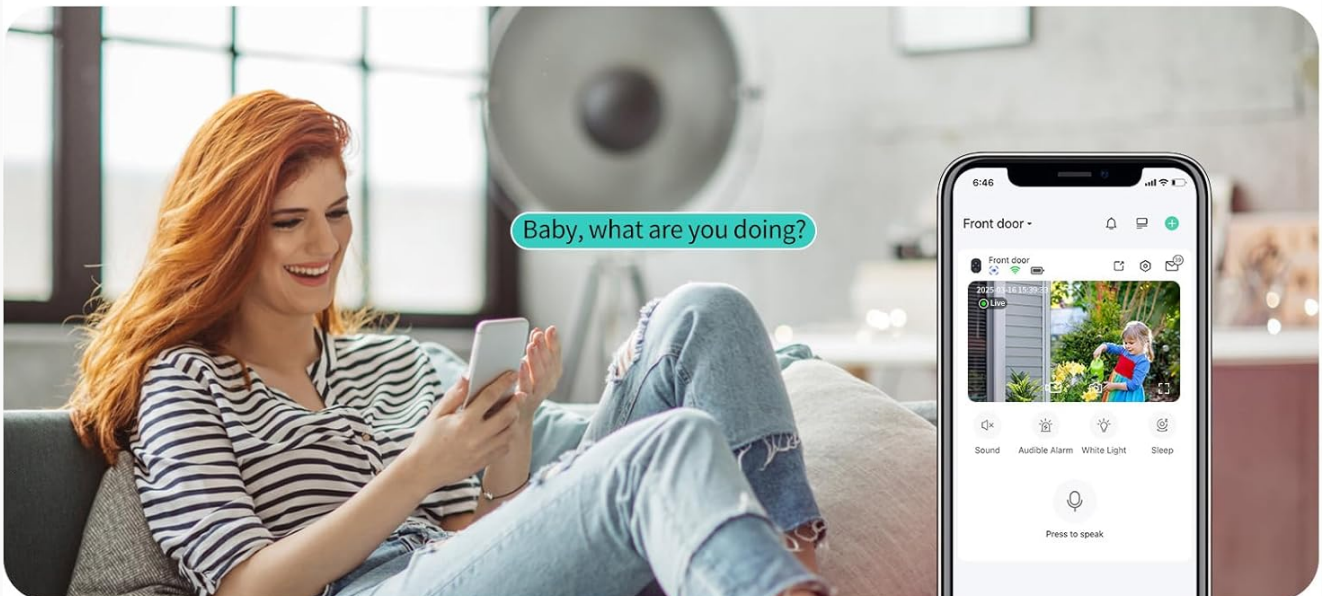

Image: A visual representation of the two-way voice intercom feature, allowing communication through the camera.

Video: Demonstrates the VicoHome app interface, including live view, two-way audio, and alarm functions.

5.2. Motion Detection and Alerts

The camera detects motion and sends alerts to your phone. Advanced AI features can differentiate between people, vehicles, and pets.

- Enable motion detection in the VicoHome App settings.
- Customize activity zones (subscription required) to focus on specific areas and reduce false alarms.
- The camera can activate a spotlight and siren alarm upon detection.

Smart Motion Detection

Accurately recognizes person, pets, vehicles, packages
(subscription required)

Image: Illustrates the Smart AI Detection feature, capable of tracking various subjects like people, pets, vehicles, and packages.

Adapt to Various Weather!

Designed for outdoor use, even in adverse weather conditions

Image: Diagram illustrating PIR Motion Detection, showing how the camera detects movement and triggers notifications and a siren spotlight.

5.3. Night Vision

The camera offers both full-color night vision (with spotlight) and infrared night vision for clear monitoring in low-light conditions.

Color Night Vision

Details to see clearly even at night

Image: A comparison demonstrating the clarity of color night vision with the spotlight on versus traditional infrared night vision.

5.4. Storage Options

Footage can be stored locally on a microSD card (not included) or via cloud storage.

- **MicroSD Card:** Supports up to 128GB for local storage. Insert the card into the designated slot on the camera.
- **Cloud Storage:** Includes 3-day rolling cloud backups. Extended coverage is available with premium cloud plans (subscription required).

SD Card & Cloud Storage

Different storage options are available

Image: Diagram showing the available storage options: local storage via Micro SD card (up to 128GB) and free 3-day loop cloud storage.

6. MAINTENANCE

- Regularly check the camera lens for dirt or smudges and clean with a soft, dry cloth.
- Ensure the charging port cover is securely closed when not charging to maintain IP65 weather resistance.
- Monitor battery levels via the VicoHome App and recharge as needed.
- Keep the camera's firmware updated through the app for the latest features and security enhancements.

7. TROUBLESHOOTING

- **Camera Offline:** Check Wi-Fi connection and signal strength. Ensure the camera is within range of your 2.4GHz router. Restart the camera and router if necessary.
- **Poor Video Quality:** Verify Wi-Fi signal strength. Ensure the lens is clean and free from obstructions.
- **Motion Detection Issues:** Adjust sensitivity settings in the app. Ensure activity zones are correctly configured (if using advanced features).

- **Battery Drains Quickly:** High motion detection frequency or low temperatures can affect battery life. Consider optimizing settings or using a solar panel charger (sold separately) for continuous power.
- **Cannot Pair with App:** Ensure you are connecting to a 2.4GHz Wi-Fi network. Reset the camera and try the pairing process again.

8. SPECIFICATIONS

Feature	Specification
Model Name	LY-CG6
Indoor/Outdoor Usage	Indoor, Outdoor
Power Source	Battery Powered
Connectivity Protocol	Wi-Fi (2.4GHz only)
Video Capture Resolution	1440p (2K)
Effective Still Resolution	1440 Pixels
Night Vision Range	33 Feet
Viewing Angle	110 Degrees
Waterproof Rating	IP65
Flash Memory Supported Size Maximum	128 GB (Micro SD)
Item Dimensions L x W x H	2.64 x 2.28 x 3.5 inches
Item Weight	1.34 pounds
Manufacturer	Tziarp

9. WARRANTY AND SUPPORT

For warranty information and technical support, please refer to the contact details provided with your product packaging or visit the official Tziarp website. Keep your purchase receipt for warranty claims.
