KEJOG Mini Projector

KEJOG Mini Projector User Manual

Model: Mini Projector
Brand: KEJOG

1. INTRODUCTION

Thank you for choosing the KEJOG Mini Projector. This manual provides essential information for the safe and efficient operation of your device. Please read it thoroughly before use and retain it for future reference.

The KEJOG Mini Projector features native 1080P resolution with 4K compatibility, electric focus, a 180-degree adjustable stand, and Bluetooth connectivity, offering a versatile entertainment experience.

2. SAFETY INFORMATION

- **Electrical Safety:** Ensure the power supply matches the projector's requirements. Do not expose the projector to rain or moisture. Avoid using damaged power cords or plugs.
- **Ventilation:** Do not block the ventilation openings. Ensure adequate space around the projector for proper airflow to prevent overheating.
- **Handling:** Handle the projector with care. Avoid dropping or subjecting it to strong impacts. Do not look directly into the lens when the projector is operating, as the bright light can cause eye strain.
- **Cleaning:** Disconnect the power before cleaning. Use a soft, dry cloth for cleaning the exterior. For the lens, use a specialized lens cleaning cloth.
- **Operating Environment:** Operate the projector in a clean, dust-free environment. Avoid extreme temperatures.

3. PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- KEJOG Mini Projector
- Remote Control
- Power Cord

- HDMI Cable
- User Manual

This image displays all items included in the KEJOG Mini Projector package: the projector unit, a remote control, a power cord, an HDMI cable, and the user manual. The dimensions of the projector (approximately 8 inches long and 4 inches high) are also indicated.

4. PRODUCT OVERVIEW

The KEJOG Mini Projector is designed for portability and ease of use, featuring a compact form factor and versatile projection capabilities.

This image displays the KEJOG Mini Projector from a front-side angle, showcasing its compact design and the lens. In the background, a projected image of a dolphin illustrates the projector's capabilities, with feature callouts for 4K support, Bluetooth 5.3, Electric Focus, and 8500 Lumens.

Key Features:

- **Electric Focus:** Adjust image clarity with the remote control.
- **180° Adjustable Stand:** Project onto walls, ceilings, or floors from various angles.
- **Built-in Speaker:** Provides integrated audio output.
- **Bluetooth 5.2:** Connect external audio devices wirelessly.
- **Native 1080P, 4K Compatible:** Delivers high-resolution visuals.
- **Wide Connectivity:** HDMI, USB, and 3.5mm audio jack for various devices.

5. SETUP

5.1 Placement

Position the projector on a stable, flat surface. Utilize the 180° adjustable stand to direct the projection onto your desired surface (wall, ceiling, or floor). The optimal projection distance ranges from 4.9ft to 18.4ft, allowing for screen sizes between 47 inches and 200 inches.

180° built-in adjustable bracket

Multi-angle free adjustment design compact and portable

0° 45° 90° 135° 180°

This image showcases the KEJOG Mini Projector's integrated 180-degree adjustable bracket. It illustrates how the projector can be tilted to various angles (0°, 45°, 90°, 135°, 180°) for multi-angle projection on walls, ceilings, or floors, emphasizing its compact and portable design.

5.2 Power Connection

1. Connect the provided power cord to the projector's power input port.
2. Plug the other end of the power cord into a standard electrical outlet.

5.3 Connecting Devices

The projector supports various input sources:

- **HDMI:** Connect devices such as laptops, gaming consoles (PS5, Switch), TV sticks, DVD players, and set-top boxes using the included HDMI cable.
- **USB:** Insert a USB drive to play media files directly.
- **Audio Out (3.5mm Jack):** Connect external speakers or headphones for enhanced audio.
- **Smartphone Wired Connection:** For Android phones and iPhones, an HDMI adapter cable (not included) is required to mirror your device's screen.

Supports Multiple Devices Connection

This image details the wide range of connectivity options for the KEJOG Mini Projector. It highlights Audio output (for speakers/headsets), HDMI input (for iPhones/Android, Tablets/Laptops, PS5, TV Sticks), and USB input (for USB disks). Popular streaming service logos are also displayed, indicating compatibility.

This image illustrates how to connect a smartphone to the KEJOG Mini Projector using an HDMI adapter cable (not included). A gaming scene is projected onto a wall, while the phone's screen mirrors the content, demonstrating wired connectivity for mobile devices.

6. OPERATING INSTRUCTIONS

6.1 Power On/Off

Press the power button on the projector or the remote control to turn the device on or off.

6.2 Electric Focus Adjustment

To achieve a clear image, use the 'F+' and 'F-' buttons on the remote control to adjust the electric focus. This allows for precise image sharpening without manual lens manipulation.

This image demonstrates the electric focus function of the KEJOG Mini Projector. A hand holds the remote control, pointing to the F+/F- buttons used for focus adjustment. A clear image of a butterfly is projected, indicating successful focusing, contrasting with manual adjustment methods.

6.3 Bluetooth Pairing (Audio Devices Only)

The projector's Bluetooth 5.2 allows connection to external audio devices like speakers or headphones. Navigate to the Bluetooth settings in the projector's menu, enable Bluetooth, and select your desired audio device to pair. *Note: Bluetooth is for audio output only and does not support video mirroring from smartphones.*

6.4 Input Source Selection

Use the 'Source' button on the remote control or projector to cycle through available input options (HDMI, USB, etc.) and select the one corresponding to your connected device.

7. SPECIFICATIONS

Delivers High Picture Quality

- **4K FULLHD** Support 4K
- ☀ 50000 Lumens
- ⚡ Bluetooth 5.3
- ◑ 10000:1 contrast ratio

OURS | OTHER

This image compares the visual output of the KEJOG Mini Projector ('Ours') with another projector ('Other'), demonstrating superior color vibrancy and clarity. The projector itself is shown with its lens assembly, emphasizing its optical components. Key features like 4K support, 50000 Lumens, and 10000:1 contrast ratio are highlighted.

Feature	Specification
Brand	KEJOG

Projection Size	47" - 200"
Projection Distance	4.9ft - 18.4ft
Bluetooth Version	5.2

8. TROUBLESHOOTING

If you encounter issues with your KEJOG Mini Projector, refer to the following common problems and solutions:

- **No Power:**

    - Ensure the power cord is securely connected to both the projector and the power outlet.
    - Check if the power outlet is functional.

- **No Image:**

    - Verify that the correct input source is selected (HDMI, USB).
    - Check the connection cable (HDMI, USB) for damage or loose connections.
    - Ensure the connected device is powered on and outputting a signal.

- **Blurry Image:**

    - Use the 'F+' and 'F-' buttons on the remote control to adjust the electric focus.
    - Ensure the projection surface is flat and the projector is stable.

- **No Sound:**

    - Check the volume settings on both the projector and the connected device.
    - If using Bluetooth, ensure the external audio device is properly paired and its volume is up.
    - If using HDMI, ensure the audio output is correctly configured on the source device.

- **Bluetooth Connection Issues:**

    - Ensure the Bluetooth audio device is in pairing mode and within range.
    - Restart both the projector and the Bluetooth device.
    - Remember, Bluetooth is for audio devices only, not for video mirroring from smartphones.

9. MAINTENANCE

9.1 Cleaning the Lens

Use a soft, lint-free lens cleaning cloth to gently wipe the projector lens. Avoid using abrasive materials or chemical cleaners that could damage the lens coating.

9.2 Cleaning the Vents

Periodically clean the projector's ventilation openings with a soft brush or compressed air to prevent dust buildup, which can impede airflow and lead to overheating.

9.3 Storage

When not in use, store the projector in a cool, dry, and dust-free environment. If storing for an extended period, consider placing it in its original packaging or a protective case.

10. WARRANTY AND SUPPORT

Your KEJOG Mini Projector comes with a 3-year warranty service. For technical assistance or warranty

claims, please contact our 24/7 technical support team. Refer to the contact information provided in your purchase documentation or on the official KEJOG website.
