4. ASSEMBLY INSTRUCTIONS

Follow the step-by-step guide provided in the included instruction manual to assemble your Botanical Geranium. The general process involves:

1. **Preparation:** Unpack all building blocks and sort them by color or type to facilitate easier assembly. Refer to the parts list in your manual.
2. **Pot Assembly:** Begin by constructing the brown flower pot base. Ensure all pieces are firmly connected to form a stable structure.
3. **Leaf and Stem Construction:** Assemble the green leaf components and the main stem structures. Attach the leaves to their designated stem points as indicated in the manual.
4. **Flower Assembly:** Construct the red geranium flower heads and the green buds. Attach these to the stem structures, paying attention to the orientation for a natural appearance.
5. **Final Assembly:** Secure the assembled plant structure into the flower pot. Adjust the position of leaves and flowers as desired to achieve the desired display.

6. MAINTENANCE AND CARE

This artificial plant requires minimal maintenance:

- **Cleaning:** Dust the model periodically with a soft, dry cloth or a soft brush to maintain its appearance. Do not use harsh chemicals or abrasive materials.
- **Placement:** Place the model in a stable location to prevent accidental falls. Avoid prolonged exposure to direct sunlight to prevent potential fading of colors over time.
- **Watering:** As an artificial plant, no watering is required.

7. TROUBLESHOOTING

If you encounter difficulties during assembly or with the stability of the model:

- **Loose Connections:** Ensure that all building blocks are pressed firmly together until they click into place. Some

connections may require more pressure than others.

- **Missing Pieces:** Double-check the packaging and sorting area for any overlooked pieces. If a piece is genuinely missing, contact HOGOKIDS customer support.
- **Difficulty Following Instructions:** Review the instruction manual carefully, paying close attention to the diagrams for each step. Sometimes, re-examining a step can clarify the assembly process.
