4. SETUP AND INSTALLATION

Follow these steps for proper installation. It is recommended to have two people for installation.

1. **Prepare the Mounting Location:** Ensure the power is off at the circuit breaker. Install the mounting bracket securely to the ceiling junction box.
2. **Attach the S-Hook:** For easier wiring, attach the provided S-hook to the mounting bracket. This allows the fan to hang while you connect the wires.
3. **Connect Electrical Wires:** Carefully connect the fan's electrical wires to the household wiring according to local electrical codes (typically black to black, white to white, and ground to ground). Secure connections with wire nuts.
4. **Mount the Fan:** Align the fan with the mounting bracket slot and rotate it to lock it into place. Secure the fan to the bracket using the provided screws.

6. MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your ceiling fan.

- **Cleaning:** Wipe the fan and light fixture with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Blade Cleaning:** Gently clean the fan blades to prevent dust buildup, which can affect airflow and balance.
- **Inspection:** Periodically check all connections and mounting hardware to ensure they are secure.

7. TROUBLESHOOTING

If you encounter any issues, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
