OTTOCAST CA505-T

OTTOCAST Mini 2025 Wireless CarPlay & Android Auto 2-in-1 Adapter User Manual

MODEL: CA505-T

Brand: OTTOCAST

Product Overview

The OTTOCAST Mini 2025 Wireless CarPlay & Android Auto 2-in-1 Adapter is designed to convert your vehicle's existing wired CarPlay or Android Auto system into a wireless experience. This compact device utilizes 5GHz Wi-Fi and Bluetooth 5.0 for fast and stable connections, allowing for seamless integration of your smartphone's navigation, music, calls, and messaging functions directly onto your car's display.

Key features include:

- **Wireless Connectivity:** Transforms wired CarPlay/Android Auto into wireless.
- **Fast & Stable:** Equipped with 5GHz Wi-Fi and Bluetooth 5.0 for quick setup and auto-reconnection.
- **Plug and Play:** Simple 3-step setup process.
- **Compact Design:** Small form factor with dual USB-A + Type-C ports for versatile installation.
- **Durable Construction:** Tested for reliability in various environmental conditions.
- **Voice Control Support:** Compatible with Siri and Google Assistant.
- **GPS Passthrough Mode:** Option to manually switch to the car's built-in navigation for reduced phone battery drain and lower latency in weak signal areas.

Setup Guide

Follow these steps to set up your OTTOCAST Mini 2025 adapter:

1. Compatibility Check

Ensure your vehicle supports factory-installed wired CarPlay or Android Auto. This adapter is compatible with iPhone (iOS 10.0+) and Android (Android 11.0+). It is not compatible with BMW or Tesla vehicles.

To verify your vehicle's compatibility, visit check.adaptermanual.com.

Image: A graphic illustrating car compatibility with various OEM logos and smartphone requirements. A QR code is provided for users to scan and check their vehicle's specific compatibility, with the URL check.adaptermanual.com also displayed.

2. What's in the Box

- 1 x Ottocast Mini Wireless Adapter
- 1 x USB-A to Type-C Adapter
- 1 x USB-A to Type-A Adapter 90°
- 1 x User Manual
- 1 x Box

Image: An exploded view of the OTTOCAST Mini package contents, including the main adapter, USB-A to Type-C adapter, USB-A to Type-A 90-degree adapter, user manual, and the product box.

3. Initial Setup Steps

1. **Prepare Your Phone:**

   - Ensure your phone's cellular data is turned ON (not Wi-Fi).
   - Turn on your phone's Bluetooth and Wi-Fi.
   - Verify that Siri or Google Assistant is enabled.
   - If any previous adapters were paired, remove them from your phone's Bluetooth settings.

How to Use GPS Passthrough?

1. **Ensuring the Ottocast Mini adapter is connected.**
2. **Enter "192.168.1.101" in your Phone's browser.**
3. **Selecting "Mode 1" in the GPS settings menu.**
4. **The adapter will restart automatically after setup — this is normal.**
5. **Enable GPS Passthrough permanently with one setup**
   (Note: The performance depends on your car's navigation system).
   To return to phone GPS, repeat the steps and switch to "Default".

2. **Plug in the Adapter:**

   - Start your vehicle.
   - Locate the USB Type-A or USB Type-C port in your car (usually under the dashboard or in the center console).
   - Plug the OTTOCAST Mini adapter directly into the USB port. Use the provided USB-A to Type-C or 90° USB-A adapter if needed for your car's port type or space constraints.
   - The indicator light on the adapter will glow red when powered on.

Can I Watch Videos via Carplay/Android Auto?

Apple CarPlay/Android Auto **does not** include any support for video playback.

However, the sound from the video streaming on your phone can be played through the car stereo. Due to wireless CarPlay limitations, the sound may not sync with your phone.

3. **Pair with Bluetooth:**

   - The adapter's indicator light will flash blue rapidly, indicating pairing mode.
   - On your phone, go to Bluetooth settings and select the device named "CAR2-XXXX" (where XXXX is a unique identifier).
   - During pairing, your phone's Wi-Fi or hotspot connection may temporarily disconnect as the adapter uses the Wi-Fi channel for data transmission.
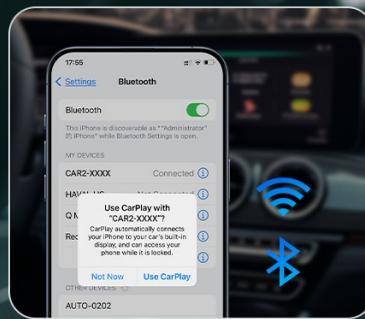

Image: A graphic showing the OTTOCAST Mini adapter with a blue flashing light, and a phone screen displaying a Bluetooth pairing request for a device named "CAR2-XXXX" to connect to CarPlay.

4. **Post-Pairing Configuration:**

   - Complete the Bluetooth pairing process.
   - Select "Allow" on all system prompts that appear on your phone and car display.
   - Wait for the blue indicator light on the adapter to stay on steadily, confirming a successful connection.
   - Enable permissions for CarPlay/Android Auto in your device settings if prompted.

Operating Instructions

1. Automatic Reconnection

Once paired, the OTTOCAST Mini adapter will automatically reconnect to your phone within approximately 5 seconds each time you start your vehicle, providing a hassle-free experience.

Image: A car interior with the infotainment screen displaying various CarPlay/Android Auto apps, emphasizing automatic reconnection upon starting the engine.

2. Voice Control

Utilize your car's built-in voice assistant by saying "Hey Siri" or "OK Google" to control navigation, music playback, calls, and messages hands-free.
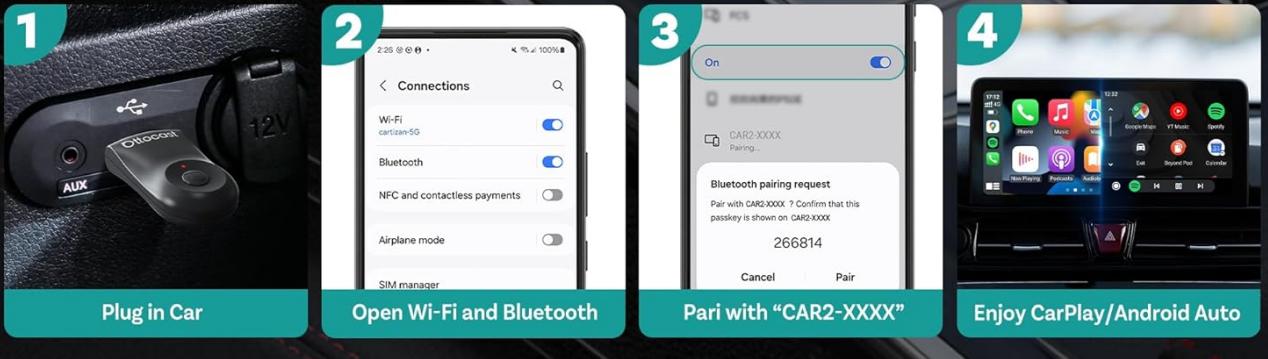

Image: A driver interacting with the car's infotainment system using voice commands like "Hi, Siri" or "OK, Google" for functions such as playing music, turning up volume, navigating, and making calls.

3. Car Controls Integration

The adapter integrates seamlessly with your vehicle's existing controls, including OEM control knobs, touchscreen displays, and steering wheel buttons, for a familiar user experience.

4. GPS Passthrough Mode

The adapter supports a GPS Passthrough Mode, which can be manually activated to utilize your car's built-in navigation system. This feature helps reduce phone battery drain and provides lower-latency navigation in areas with weak cellular signals.

To enable GPS Passthrough Mode:

1. Ensure the Ottocast Mini adapter is connected.
2. Enter "192.168.1.101" in your phone's browser.
3. Select "Mode 1" in the GPS settings menu.
4. The adapter will restart automatically after setup (this is normal).

5. Enable GPS Passthrough permanently with one setup. (Note: Performance depends on your car's navigation system).

To return to phone GPS, repeat the steps and switch to "Default".

Image: Two phone screens illustrating the steps to enable GPS Passthrough Mode by accessing the adapter's settings via a web browser and selecting "Mode 1" for GPS.

5. Video Playback Limitations

Apple CarPlay and Android Auto do not support video playback directly on the car's display due to wireless CarPlay limitations. While audio from video streaming on your phone can be played through the car stereo, the sound may not always sync perfectly with the video.

Image: A graphic indicating that video apps like YouTube, Netflix, Apple TV+, Prime Video, and Hulu are not supported for video playback via CarPlay/Android Auto, though audio may stream.

Maintenance

Firmware Updates

The OTTOCAST Mini adapter supports easy online firmware upgrades (OTA updates) to ensure optimal performance and compatibility. Most issues can be resolved through these updates.

You can also submit issue reports online through the update interface.

Troubleshooting

If you encounter any issues with your OTTOCAST Mini adapter, please refer to the following common solutions:

- **Disconnections or Freezing:** If the display disconnects or freezes, try rebooting the device. This can often resolve temporary glitches.
- **No Sound:** If CarPlay/Android Auto connects but there is no sound, try pressing the reset button on the adapter or restarting your phone and car's infotainment system.
- **Rebooting the Adapter:** If the device stops functioning, a simple reboot can often resolve the issue. Unplug the adapter from the USB port, wait a few seconds, and then plug it back in.
- **Phone Restart:** Periodically restarting your phone can help maintain stable connectivity.
- **Check Bluetooth/Wi-Fi:** Ensure your phone's Bluetooth and Wi-Fi are enabled and not connected to other conflicting devices.
- **Firmware Update:** Check for available online updates as described in the Maintenance section. Updates often include bug fixes and performance improvements.

Specifications

Product Dimensions	1.97 x 0.87 x 0.41 inches
Item Weight	0.28 ounces
Item Model Number	CA505-T
Manufacturer	OTTOCAST
Connectivity Technology	Bluetooth, USB, Wi-Fi (5GHz)
Power Source	Corded Electric
Material	Acrylonitrile Butadiene Styrene (ABS), Plastic
Special Features	CarPlay/Android Auto Compatible, Hands-Free Calls, Low Latency, Plug & Play, Supports GPS Passthrough Mode (Manual switching Needed)

Warranty and Support
