SETUP

1. Initial Charging

Before first use, fully charge the earphones and the charging case.

1. Place both earphones into the charging case.
2. Connect the charging case to a USB power source using a USB Type-C cable.

3. The indicator lights on the case will show charging status. Charging time is approximately 2 hours.

2. Bluetooth Pairing

To connect your earphones to a device:

1. Open the charging case. The earphones will automatically enter pairing mode.
2. On your device (smartphone, tablet, etc.), enable Bluetooth.
3. Select "final ZE500" from the list of available Bluetooth devices.
4. Once connected, a confirmation sound will play.

3. Earpiece Selection

Proper earpiece fit is crucial for sound quality and comfort. Experiment with the included S, M, and L sizes to find the best fit for your ears. A good seal enhances bass response and overall audio experience.

OPERATING INSTRUCTIONS

Power On/Off

- **Power On:** Open the charging case, or remove the earphones from the case.
- **Power Off:** Place the earphones back into the charging case and close the lid.

Playback Control (Touch Controls)

The earphones feature touch controls for various functions:

- **Play/Pause:** Single tap on either earphone.
- **Next Track:** Double tap on the right earphone.
- **Previous Track:** Double tap on the left earphone.
- **Answer/End Call:** Single tap on either earphone.
- **Reject Call:** Press and hold either earphone.

Single Earbud Mode

You can use either the left or right earphone independently. Simply return one earphone to the charging case and close the lid; the other earphone will automatically switch to single earbud mode without interrupting audio.

ASMR Mode and Volume Optimization

The dedicated final Connect app allows for enhanced control:

- **ASMR Mode:** This mode disables touch operations and guidance sounds, allowing for deeper immersion in ASMR content.
- **Volume Step Optimization:** The app enables fine-grained volume adjustments, which is particularly useful in quiet environments or when listening at low volumes, such as before sleep.

CHARGING

The ZE500 earphones and charging case support wired charging via USB Type-C.

- **Earphone Battery Life:** Up to 4.5 hours on a single charge.
- **Total Playback Time (with case):** Up to 18 hours.
- **Quick Charge:** 10 minutes of charging in the case provides approximately 1 hour of playback.
- **Note:** This product does not support wireless charging.

MAINTENANCE

Regular maintenance helps ensure optimal performance and longevity of your earphones.

- **Cleaning Earpieces:** Gently remove the earpieces and clean them with a soft, dry cloth. If necessary, use a slightly damp cloth and allow them to dry completely before reattaching.
- **Cleaning Earphones:** Wipe the earphone bodies and charging contacts with a soft, dry cloth. Avoid using abrasive materials or harsh chemicals.
- **Dust Filter:** Ensure the dust filter on the earphones remains clear of debris.
- **Charging Case:** Keep the charging case clean and free of dust.

TROUBLESHOOTING

If you encounter issues with your ZE500 earphones, refer to the following common solutions:

- **Insufficient Bass:** If you perceive a lack of bass, it is often due to an inadequate seal between the earpiece and your ear canal. Try different earpiece sizes (S, M, L) to achieve a better seal. For smaller ears, using the S size or even the L size, positioned to cover the front of the ear canal, can be effective.

- **App Functionality Issues:** Ensure that the final Connect app is updated to its latest version. Outdated app versions may cause unexpected behavior.
- **Charging/Pairing Issues:** If the earphones are not charging or pairing correctly after being placed in the case, ensure the charging case itself is not being charged simultaneously with the earphones inside. This can sometimes lead to the earphones discharging or failing to pair. Try charging the case separately, then place the earphones inside.
- **No Sound/Connectivity Loss:** If only one earphone has sound or connectivity is lost, try resetting the earphones by placing both back in the charging case, closing the lid for a few seconds, then reopening it to re-establish the connection.

If problems persist, please contact customer support.

SPECIFICATIONS

Feature	Specification
Brand	final
Model Number	FI-ZE5DPLTW
Color	Cream
Ear Placement	In-Ear
Headphone Form Factor	True Wireless
Impedance	18 Ohms
