## 3.2 Cleaning

Use a soft, lint-free cloth to clean the screen and body of the tablet. Avoid using harsh chemicals or abrasive materials.

## 3.3 Software Updates

Regularly check for and install system updates to ensure optimal performance, security, and access to new features. Go to **Settings > System > System update**.

## 3.4 Storage Management

To maintain optimal performance, regularly manage your tablet's storage. Delete unnecessary files, uninstall unused

apps, and consider moving large media files to an external MicroSD card.

## 4. TROUBLESHOOTING

Problem	Possible Cause	Solution
Tablet is slow or lagging	Too many apps running in background, low storage, outdated software.	Close unused apps, clear cache, free up storage, check for system updates. A factory reset may be considered as a last resort.
Cannot connect to Wi-Fi	Incorrect password, router issue, Wi-Fi disabled.	Double-check password, restart router, ensure Wi-Fi is enabled on tablet.
Battery drains quickly	High screen brightness, many apps running, poor signal.	Reduce screen brightness, close background apps, enable power-saving mode.
Apps crashing	App specific bug, insufficient RAM, outdated app.	Clear app cache/data, update the app, reinstall the app.

If you encounter issues not listed here, please refer to the official DOOGEE support channels for further assistance.
