MAHANCRI PSHR170E01

MAHANCRI PSHR170E01 Plant Stand Indoor with Grow Lights

Model: PSHR170E01

1. PRODUCT OVERVIEW

The MAHANCRI PSHR170E01 Plant Stand is an 8-tiered indoor plant shelf designed to display various potted plants and small gardening items. It features a vertical, S-shaped design suitable for corners and includes integrated grow lights to support healthy plant growth.

- **Dimensions:** 19.7 inches (L) x 11.8 inches (W) x 59.8 inches (H)
- **Capacity:** 6 top shelves for plants, 1 hanging ring, 2 lower layers for storage.
- **Grow Lights:** 3-head sunlight LED strip with USB adapter, 9 brightness levels, 3 timer modes (3/9/12H) with memory function.
- **Construction:** Premium particleboard and reinforced metal frame with EVA pads for stability.
- **Safety:** Equipped with an anti-tip mechanism.

2. SETUP AND ASSEMBLY

Assembly of the MAHANCRISS PSHR170E01 Plant Stand is designed to be straightforward. All parts are labeled, and a detailed, illustrated guide is included in the packaging. No specialized tools are required beyond those provided.

2.1 Unpacking and Part Identification

Carefully unpack all components and verify against the parts list in your included manual. Ensure all pieces are present and undamaged before proceeding.

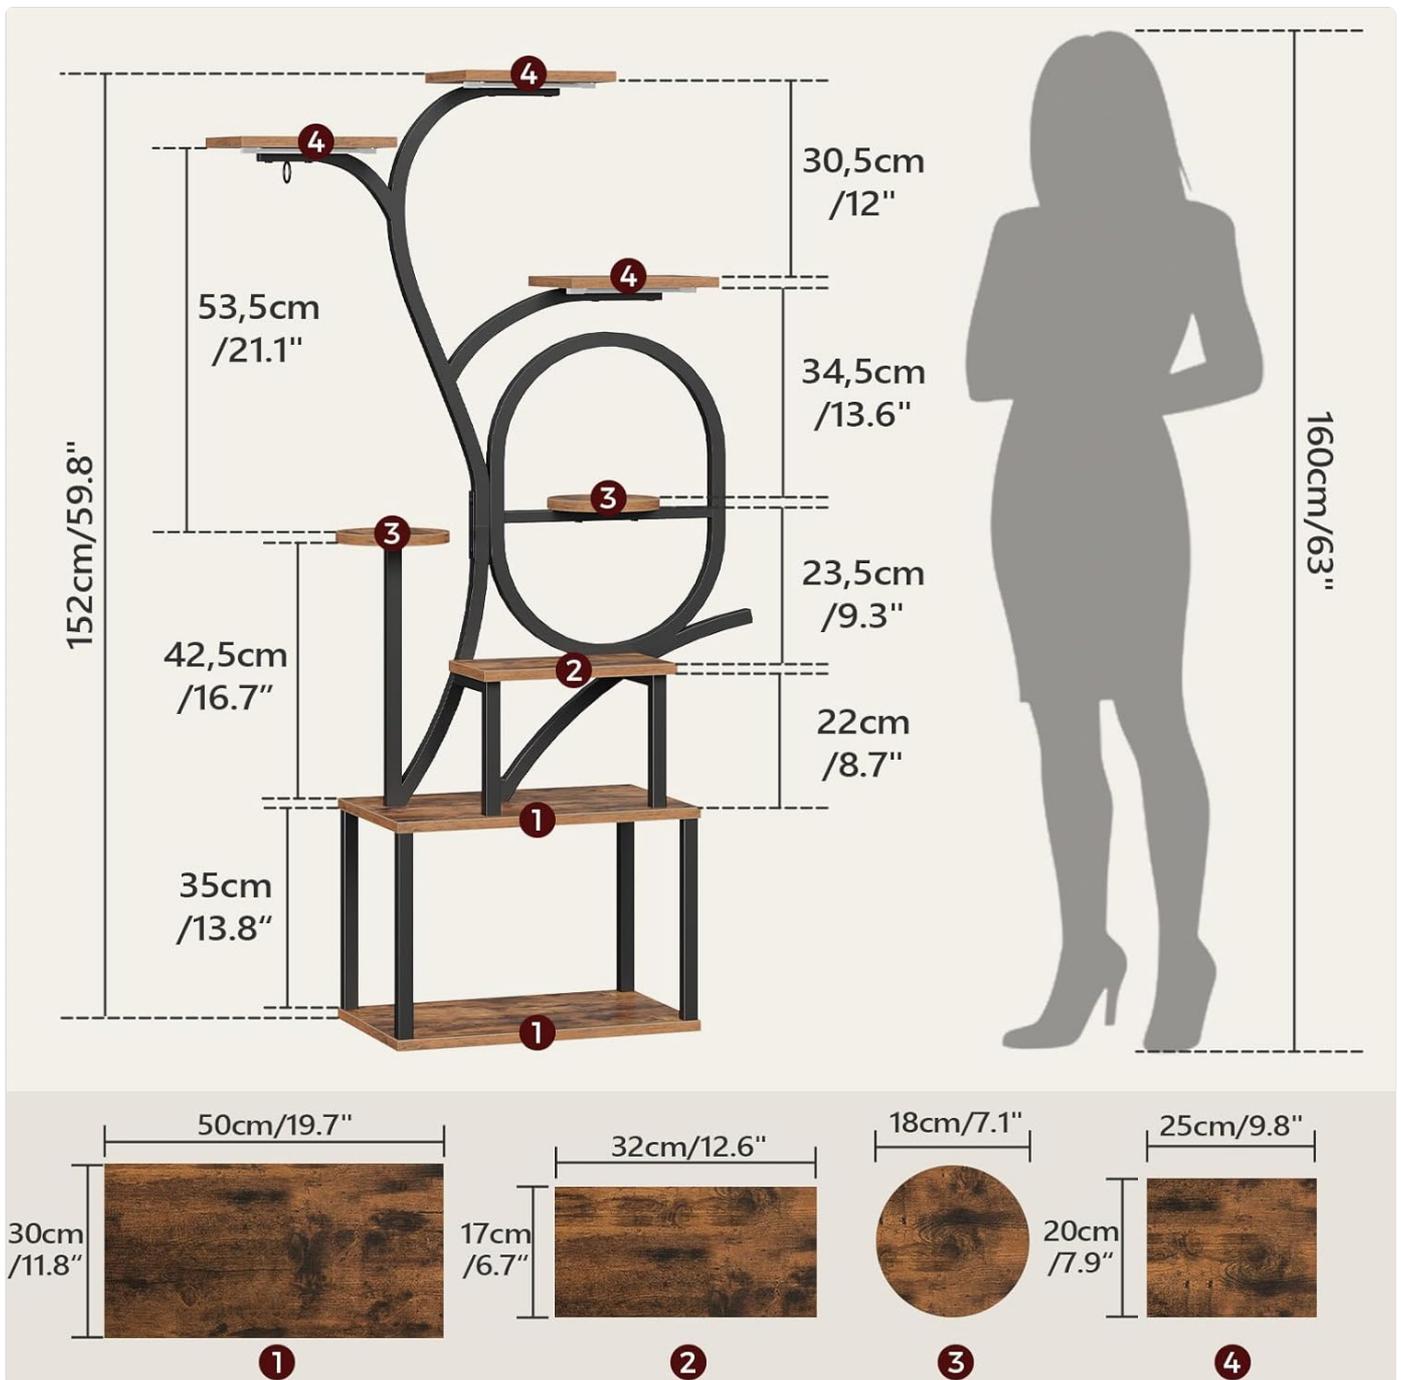

Figure 2: Product dimensions and labeled components for assembly.

2.2 Assembly Steps

1. Follow the step-by-step instructions provided in the included assembly manual. Each part is labeled to correspond with the diagrams.
2. Ensure all screws and fasteners are tightened securely, but do not overtighten to avoid damaging the materials.
3. Attach the EVA pads to the base of the stand for added stability and floor protection.
4. Install the anti-tip mechanism to a wall for enhanced safety, especially in households with children or pets.

2.3 Grow Light Installation

The plant stand includes a 3-head LED grow light strip. Install the light strips to the underside of the designated shelves using the provided adhesive or screws. Connect the USB adapter to a suitable power source.

Plant Growth Light with 3 Heads
Promotes Healthy Plant Growth.

The advertisement features a large image of a healthy green plant in a white pot on a wooden shelf, with a three-head LED grow light strip installed underneath. To the right, a diagram shows the three light heads and their connection to a USB adapter. Below the diagram, a smaller image shows a wilted plant with a red 'X' over it, indicating poor growth without lighting.

3. OPERATING INSTRUCTIONS (GROW LIGHTS)

The integrated grow lights are designed to provide optimal lighting conditions for your indoor plants. The control unit allows for brightness adjustment and timer settings.

3.1 Powering On/Off

- Connect the USB adapter to a power source.
- Press the power button on the control unit to turn the lights on or off.

3.2 Brightness Adjustment

The grow lights offer 9 brightness levels. Use the '+' and '-' buttons on the control unit to increase or decrease the light intensity.

3.3 Timer Function

Select from three timer modes: 3 hours, 9 hours, or 12 hours. Once a timer is set, the lights will automatically turn off after the selected duration and turn back on at the same time the next day, thanks to the memory function.

4. MAINTENANCE

Proper maintenance will ensure the longevity and appearance of your plant stand.

- **Cleaning:** Wipe the engineered wood shelves and metal frame with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Spills:** Promptly clean any water spills from plants to prevent water damage to the wood surfaces.
- **Stability Check:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if necessary.
- **Grow Lights:** Keep the LED light strips free from dust and debris to maintain optimal light output.

5. TROUBLESHOOTING

If you encounter issues with your plant stand or grow lights, refer to the following common solutions:

Problem	Possible Cause	Solution
Plant stand is wobbly or unstable.	Loose connections; uneven floor; uneven weight distribution.	Ensure all screws are tightened. Place on a level surface. Distribute plant weight evenly across shelves. Install the anti-tip device.
Grow lights do not turn on.	No power; loose USB connection; faulty light strip.	Check if the USB adapter is properly plugged into a working power outlet. Ensure the USB cable is securely connected to the light strip controller. If issues persist, contact customer support.
Grow lights flicker or only some heads work.	Loose connection; damaged light strip.	Verify all connections are secure. If flickering or partial failure continues, the light strip may be damaged. Contact customer support for assistance.
Timer function is not working correctly.	Incorrect setting; power interruption.	Re-set the timer according to the operating instructions. Ensure continuous power supply to maintain the memory function.

6. SPECIFICATIONS

Feature	Detail
Model Number	PSHR170E01

Feature	Detail
Brand	MAHANCRIS
Product Dimensions (L x W x H)	19.7 x 11.8 x 59.8 inches (50 x 30 x 152 cm)
Item Weight	21.4 pounds (9.7 kg)
Material	Engineered Wood, Metal
Color	Rustic Brown, Black
Assembly Required	Yes
Base Type	Pedestal
Grow Light Type	3-head Sunlight LED Strip
Grow Light Features	9 Brightness Levels, 3/9/12H Timer with Memory Function
