AECOJOY 10' x 10' Freestanding Lean-to Gazebo Instruction Manual

Model: 16436bk | Brand: AECOJOY

1. INTRODUCTION

Thank you for choosing the AECOJOY 10' x 10' Freestanding Lean-to Gazebo. This manual provides essential information for the safe assembly, operation, and maintenance of your new outdoor structure. Please read it thoroughly before beginning assembly and retain it for future reference.

This gazebo is designed for both elegance and resilience, offering a versatile outdoor sanctuary, a protective haven, or an elegant accent to your property. Its robust construction ensures stability and durability in various weather conditions.

2. IMPORTANT SAFETY INFORMATION

To ensure safe use and prevent injury or damage, adhere to the following guidelines:

- Always follow the assembly instructions provided in this manual.
- Secure the gazebo to the ground using the provided stakes to prevent it from tipping over in windy conditions.
- Do not assemble or disassemble the gazebo in windy or wet conditions.
- Inspect the gazebo regularly for any signs of damage, especially after heavy snowfall or storms. Address any damage promptly.
- Always keep children and pets away from the gazebo during assembly, disassembly, and in windy conditions to prevent accidents.
- Ensure the installation area is level and clear of obstructions.

3. PACKAGE CONTENTS

Before beginning assembly, verify that all parts listed in the packing list are present and undamaged. If any parts are missing or damaged, contact customer support immediately.

4.1 Choosing Your Installation Type: Freestanding or Wall-Mounted

This gazebo offers versatile installation options. It can be set up as a freestanding structure, anchored securely to the ground, or customized for a wall-mounted configuration to complement your patio or porch.

UPGRADE FROM WALL-MOUNTED TO GROUND-ANCHORED DESIGN

- ◀ Uncompromised structural **integrity**
- ◀ Enhanced wind resistance **>70MPH**
- ◀ Greater **versatility** in application

VS

For detailed step-by-step instructions, refer to the separate assembly guide included with your product. Technical specialists are available for remote assistance if needed.

5. OPERATION AND USAGE

Your AECOJOY Gazebo provides a versatile and protective outdoor space. It is engineered to excel in various climates, offering shade and shelter.

5.1 Weather Resistance

The gazebo features tea-colored panels that allow sunlight through while providing UPF 70++ UV protection. It is built to withstand pressures of 10 lbs/sq.ft (equivalent to >7" snow load) and exhibits unwavering stability against winds exceeding 70 MPH, ensuring year-round reliability.

5.2 Versatile Applications

Beyond a patio cover, this architectural masterpiece seamlessly adapts to various needs, serving as a refined outdoor sanctuary, a protective haven for bicycles and vehicles, or an elegant metal awning accentuating your entryway or windows.

ONE GAZEBO TO SUIT ALL YOUR NEEDS

You can customize the installation to seamlessly complement your patio or porch configuration.

6. CARE AND MAINTENANCE

Regular maintenance will prolong the life and appearance of your AECOJOY Gazebo.

- **Regular Inspection:** Periodically inspect all structural components, bolts, and anchors for tightness and signs of wear or damage. Pay close attention after severe weather events.
- **Cleaning:** Clean the roof panels and frame with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the finish or materials. Rinse thoroughly with clean water.
- **Snow Removal:** While designed for snow load, it is recommended to clear excessive snow accumulation from the roof to prevent undue stress on the structure.
- **Rust Prevention:** Although made with durable materials, inspect metal parts for any signs of rust, especially in coastal or humid environments. Touch up any scratches or chips in the paint to prevent rust.

7. TROUBLESHOOTING

This section addresses common issues you might encounter. For problems not listed here, or if solutions do not resolve the issue, please contact customer support.

Problem	Possible Cause	Solution
Gazebo feels unstable or wobbly.	Loose anchors or bolts; uneven ground.	Ensure all ground anchors are securely fastened. Check and tighten all bolts and connections. Verify the installation surface is level.
Difficulty during assembly.	Misinterpretation of instructions; incorrect part orientation.	Review the assembly manual carefully, paying attention to diagrams. Utilize the step-by-step video tutorials. Contact AECOJOY customer support for remote assistance.
Water pooling on roof panels.	Improper panel installation; debris accumulation.	Ensure roof panels are correctly installed and seated. Clear any leaves, snow, or debris from the roof surface.
Damage after severe weather.	Extreme conditions exceeding design limits; improper anchoring.	Inspect for bent components or cracks. Contact customer support for replacement parts and guidance. Ensure proper anchoring for future weather events.

8. PRODUCT SPECIFICATIONS

Feature	Detail
Brand	AECOJOY
