VINGLI Large Metal Chicken Coop Instruction Manual

Model: VL-G67000004 | Brand: VINGLI

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your VINGLI Large Metal Chicken Coop. Designed to offer a spacious and secure outdoor environment for poultry and other small to medium-sized animals, this coop features a durable galvanized steel frame, PVC-coated wire mesh, and a waterproof, UV-resistant cover. Please read these instructions carefully before beginning assembly and retain this manual for future reference.

2. SAFETY INFORMATION

- Always wear appropriate safety gear, such as gloves, during assembly to prevent injury.
- Ensure all components are securely fastened before placing animals inside the coop.
- Position the coop on level ground to ensure stability and prevent tipping.
- Regularly inspect the coop for any signs of wear, damage, or loose connections. Address any issues promptly.
- Keep children and pets away from the assembly area until the coop is fully constructed.
- Do not climb on or hang from the coop structure.
- Ensure proper ventilation within the coop, especially during warmer weather.

3. PACKAGE CONTENTS

Please verify that all components listed below are present before beginning assembly. If any parts are missing or damaged, please contact VINGLI customer support.

- 1 x Metal Chicken Coop with Run (Galvanized Steel Frame and PVC Coated Wire Mesh)
- 1 x Waterproof PE Cover
- 1 x Set of Assembly Hardware (bolts, nuts, washers, ground nails, spring clasps, cable ties)
- 1 x Instruction Manual (this document)

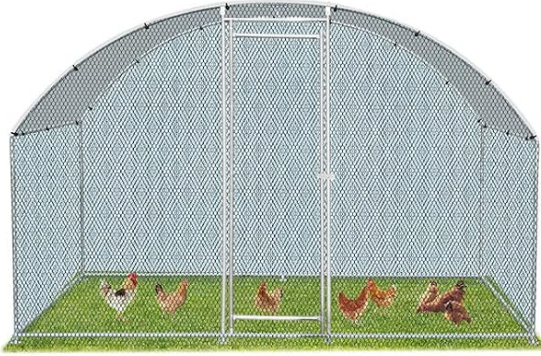

4. SETUP AND ASSEMBLY

Assembly of the VINGLI Large Metal Chicken Coop is designed to be straightforward. Follow these steps carefully for a secure and stable structure.

4.1. Frame Assembly

1. Unpack all components and lay them out on a clean, flat surface.
2. Identify the galvanized steel pipes. These form the main structure of the coop.
3. Connect the frame sections using the provided hardware. Ensure all connections are tight and secure. Refer to the detailed diagrams in the included paper manual for specific connection points.
4. Assemble the door frame and attach it to the main structure. Ensure the lockable door mechanism operates smoothly.

4.2. Wire Mesh Installation

1. Unroll the PVC-coated wire mesh.
2. Attach the mesh to the assembled steel frame using the provided spring clasps or cable ties. Start from one end and work your way around, ensuring the mesh is taut and evenly distributed.
3. Pay close attention to securing the mesh around the base and door to prevent animals from escaping or predators from entering.

4.3. Roof Cover Attachment

1. Drape the waterproof PE cover over the arched roof section of the coop.
2. Secure the cover to the frame using the provided cable ties or rope buckles. Ensure it is pulled taut to prevent water pooling and wind damage.
3. The sloped arc roof design is intended to prevent water and debris buildup.

4.4. Ground Anchoring

1. Once the coop is fully assembled and positioned, use the solid legs with ground nails to anchor the structure firmly to the ground. This enhances stability and prevents movement due to wind or animal activity.

5. OPERATING INSTRUCTIONS

The VINGLI Large Metal Chicken Coop is designed for ease of use and animal welfare.

- **Animal Placement:** This coop is suitable for housing 6-10 chickens, or other small to medium-sized animals such as ducks, geese, or rabbits. Ensure the number of animals is appropriate for the coop's dimensions to allow adequate space for movement and comfort.
- **Access and Security:** The tall, lockable door provides convenient access for feeding, watering, and cleaning. Always ensure the door is securely latched to prevent animals from escaping and to protect them from predators.
- **Environmental Protection:** The waterproof and UV-resistant PE cover offers protection from rain, sun, and snow,

ensuring a comfortable environment for your poultry in various weather conditions.

6. MAINTENANCE

Regular maintenance will extend the lifespan of your VINGLI chicken coop and ensure a healthy environment for your animals.

- **Cleaning:** Utilize the walk-in design and lockable door for easy access to clean the interior of the coop regularly. Remove waste and soiled bedding to maintain hygiene.
- **Frame Inspection:** Periodically check all galvanized steel frame connections for tightness. Tighten any loose bolts or fasteners. Inspect the frame for rust or damage, especially after severe weather.
- **Mesh Inspection:** Examine the PVC-coated wire mesh for any tears, holes, or loose sections. Repair or reinforce as necessary to maintain predator protection.
- **Cover Care:** Inspect the waterproof PE cover for tears or damage. Clean the cover as needed to remove dirt and debris. Ensure it remains securely attached to the frame.
- **Ground Anchoring:** Verify that the ground nails remain firmly in place, especially after heavy winds or ground

saturation.

7. TROUBLESHOOTING

If you encounter issues with your VINGLI Large Metal Chicken Coop, refer to the following common problems and solutions:

- **Issue: Coop feels unstable or wobbly.**
 - **Solution:** Ensure all frame connections are tightened. Verify that the coop is on level ground. Re-secure ground nails if they have loosened.
- **Issue: Water pooling on the roof cover.**
 - **Solution:** Ensure the PE cover is pulled taut and securely fastened to the frame. The sloped design should prevent pooling if installed correctly. Check for any sagging points.
- **Issue: Animals attempting to escape or signs of predator entry.**
 - **Solution:** Inspect the entire wire mesh for any gaps, tears, or loose sections. Reinforce or repair as needed. Ensure the door is always securely locked. Check the ground anchoring for any signs of digging underneath the coop.
- **Issue: Missing parts during initial assembly.**
 - **Solution:** Carefully check all packaging materials. If parts are genuinely missing, contact VINGLI customer support with your purchase details and a list of the missing components.
