6. MAINTENANCE

Regular maintenance will help preserve the appearance and extend the lifespan of your patio furniture set.

6.1 Frame Care

- The industrial-grade steel frame features a rust-resistant powder coating. Clean the frame with a soft cloth dampened with mild soap and water. Rinse thoroughly and dry completely to prevent water spots.
- Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.
- Periodically check all bolts and screws and re-tighten them as necessary to ensure structural integrity.

6.2 Cushion Care

- The cushion covers are made from UV-resistant, oil-proof, and water-repellent fabric. They are fully removable and machine washable for effortless maintenance.
- For general cleaning, spot clean with a mild soap solution and a soft brush or cloth.
- For deeper cleaning, remove the covers and machine wash them according to the care label instructions.

(typically cold water, gentle cycle). Air dry only; do not tumble dry.

- Store cushions indoors or cover them during prolonged periods of non-use or inclement weather to protect them from fading and wear.

6.3 Tempered Glass Tabletop Care

- Clean the tempered glass tabletop with a glass cleaner and a soft, lint-free cloth.
- Avoid using abrasive pads or cleaners that could scratch the glass surface.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your patio furniture set.

7.1 Assembly Difficulties

- **Parts Not Aligning:** Ensure all screws are only finger-tightened during initial assembly. This allows for flexibility to align holes. Once all parts are in place, gradually tighten all fasteners.
- **Difficulty Tightening Screws:** If screws are hard to tighten, ensure they are correctly threaded and not cross-threaded. Do not force them. If still difficult, try loosening adjacent screws.
- **Missing Hardware:** If you find any hardware missing, please contact customer support immediately for assistance.

7.2 Stability Issues

- **Wobbling Furniture:** Check that all screws and bolts are fully tightened. Ensure the furniture is placed on a flat and level surface. The furniture legs are equipped with anti-slip bottom granules for stability.

7.3 Cushion Concerns

- **Cushion Flatness:** The cushions are designed with exceptional rebound. If they appear compressed after prolonged use, fluff them regularly to restore their shape.
