

BUCATSTATE MFL3-WHITE-N

BUCATSTATE Large Hamster Cage 120cm - Instruction Manual

Model: MFL3-WHITE-N

1. INTRODUCTION

Thank you for purchasing the BUCASTSTATE Large Hamster Cage 120cm. This manual provides essential information for the safe and effective use of your new pet enclosure. Please read these instructions carefully before assembly and use, and retain them for future reference.

2. PRODUCT OVERVIEW

The BUCASTSTATE Large Hamster Cage 120cm (Version 3.0) is designed to provide a spacious and comfortable environment for small animals such as hamsters, gerbils, and hedgehogs. Its design meets international pet cage standards and is recognized by veterinary associations and animal welfare organizations. The cage features a wide and deep layout, ideal for natural behaviors like digging, exploring, and jumping.

- **Enhanced Durability:** Features reinforced upper beams and shock-absorbing strips to improve stability and reduce noise during pet activity. The high-hardness metal frame offers a premium feel and scratch resistance.
- **Improved Ventilation:** The top includes two doors, and the number of ventilation holes has been increased from 20 to 42. Side ventilation holes have also been increased from 12 to 20 (compared to the 80cm 2.0 version). This enhances internal air circulation, providing fresher air for your pet.
- **Optimized Details & Easy Cleaning:** A seamless, waterproof bottom design ensures the cage base is fully washable and can be easily wiped clean with a damp cloth. The waterproof bottom plate prevents urine penetration and lingering odors.

3. SAFETY INSTRUCTIONS

- Always ensure all parts are securely fastened during assembly to prevent collapse or injury.
- Place the cage on a stable, level surface away from direct sunlight, drafts, or extreme temperatures.
- Regularly inspect the cage for any damage or loose parts that could harm your pet.
- Keep small children and other pets away from the cage during cleaning or when the doors are open.
- Do not stack more than two cages without proper stacking accessories and ensuring the combined weight does not exceed the load capacity of the bottom cage.
- Ensure the safety switches on the doors are always engaged to prevent accidental escapes.

4. PACKAGE CONTENTS

Please verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

- Metal frame components
- Acrylic side panels
- Top lid panels with ventilation
- Bottom tray
- Assembly hardware (screws, connectors)
- Screwdriver (typically included)
- Instruction manual

5. SETUP INSTRUCTIONS

Assembly typically requires one person, but two people may be helpful for larger sizes (120cm) to manage the acrylic panels. A screwdriver is usually the only tool required and is often included.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface. Check against the package contents list.
2. **Assemble the Base Frame:** Connect the metal frame components to form the base structure. Ensure all connections are secure.
3. **Install Side Panels:** Slide the acrylic side panels into the designated grooves of the metal frame. Be gentle to avoid scratching or damaging the panels.
4. **Attach Top Lids:** Secure the top lid panels to the upper frame. Ensure the hinges operate smoothly and the safety switches align correctly.
5. **Place Bottom Tray:** Insert the waterproof bottom tray into the assembled frame.
6. **Optional: Install Wheels (Sold Separately):** If using optional wheels, attach them to the designated points on the bottom of the cage frame.

6. OPERATING INSTRUCTIONS

Once assembled, the cage is ready for your pet. Consider the following for optimal use:

- **Bedding Depth:** The cage design allows for deep bedding (up to 28cm), which is crucial for hamsters to burrow and engage in natural behaviors.

- **Access:** The two top doors provide convenient access for feeding, interacting with your pet, and arranging accessories.
- **Ventilation:** The numerous ventilation holes ensure a constant flow of fresh air, contributing to your pet's health and comfort.
- **Accessories:** Furnish the cage with appropriate accessories such as a wheel, food bowl, water bottle, hideouts, and chew toys to enrich your pet's environment.

7. MAINTENANCE

Regular cleaning and maintenance are crucial for your pet's health and the longevity of the cage.

- **Daily Spot Cleaning:** Remove soiled bedding and waste daily.
- **Weekly Deep Cleaning:** Remove all bedding and accessories. The seamless, waterproof bottom tray can be easily

wiped clean with a damp cloth and mild pet-safe disinfectant. Rinse thoroughly and dry completely before adding fresh bedding and returning your pet.

- **Waterproof Design:** The waterproof bottom prevents urine from seeping out and causing odors, making cleaning more effective.
- **Frame Cleaning:** Wipe the metal frame and acrylic panels with a damp cloth. Avoid abrasive cleaners that could scratch the acrylic.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Cage feels unstable or wobbly.	Loose connections in the metal frame or acrylic panels not fully seated.	Check all screws and connectors to ensure they are tightened. Verify that acrylic panels are fully inserted into their grooves.
Doors do not close properly.	Misalignment or obstruction.	Ensure the cage is on a level surface. Check for any bedding or accessories blocking the door mechanism. Adjust hinges if necessary.
Poor ventilation or strong odors.	Insufficient cleaning or blocked ventilation holes.	Increase frequency of spot cleaning and deep cleaning. Ensure ventilation holes on the top and sides are not obstructed by bedding or accessories.
Scratches on acrylic panels.	Abrasive cleaning materials or sharp objects inside the cage.	Use only soft cloths and mild cleaners for acrylic. Ensure pet accessories do not have sharp edges.

9. SPECIFICATIONS
