Brook AR Mate

Brook AR Mate Auto Catcher Instruction Manual

Model: AR Mate

1. PRODUCT OVERVIEW

The Brook AR Mate is a wearable accessory designed to enhance your AR game experience on iOS devices. It provides auto-catch and auto-spin functionalities for games like Pokémon GO, and supports automated in-game movement for various AR titles. This device aims to reduce repetitive actions and allow for more efficient gameplay.

ARmate

| Quick Caught / Fast Spin

Boost game efficiency, complete tasks effortlessly, and spin supply stops quickly for more support and rewards.

3. SETUP GUIDE

3.1 Device Components

Image: A diagram highlighting the key components of the Brook AR Mate: Supercapacitor, Button, Status Indicator Light, Type-C Charging Port, and Bluetooth Connection Indicator Light.

3.2 Charging the AR Mate

Before initial use, ensure your AR Mate is fully charged. Connect the provided USB-C to USB-C charging cable to the device's Type-C charging port and a suitable power source. The charging indicator light will show the charging status. The device features a supercapacitor for fast charging and long-lasting power.

3.3 Connecting to Your iOS Device

1. Ensure Bluetooth is enabled on your iOS device.
2. Turn on the AR Mate device. The Bluetooth connection indicator light will flash, indicating it's in pairing mode.
3. On your iOS device, go to Bluetooth settings and select "Brook AR Mate-AD" from the list of available devices to pair.
4. Once connected, the Bluetooth connection indicator light on the AR Mate will become solid.

4. OPERATING INSTRUCTIONS

4.1 Auto Catch and Auto Spin

Once connected, the AR Mate automatically performs in-game actions such as catching creatures and spinning supply stops in compatible AR games like Pokémon GO. This feature allows for efficient progression without constant manual interaction.

Image: The Brook AR Mate device surrounded by icons representing auto-caught items and auto-spun supply stops, demonstrating its efficiency in gameplay.

4.2 Smart Roaming for AR Games

The Smart Roam feature enables automated in-game movement for AR titles. Through the Brook AR Mate iOS app, you can adjust roaming behavior and movement speed, covering distances up to 17 km. This assists activity progress without requiring constant screen interaction.

5. MAINTENANCE

5.1 Cleaning

To clean your AR Mate, gently wipe the device with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials, as these may damage the device's surface or internal components.

5.2 Storage

Store the AR Mate in a cool, dry place away from direct sunlight and extreme temperatures. When not in use for extended periods, ensure the device is fully charged before storage to maintain battery health.

6. TROUBLESHOOTING

6.1 Device Not Pairing or Crashing

If your AR Mate fails to pair with your iOS device or experiences crashes, a simple reset can often resolve the issue:

1. Obtain a Type-C charging cable.
2. While the AR Mate is powered on, repeatedly insert and remove the Type-C cable from the device's charging port approximately 10 times.
3. Observe the device's indicator lights. The AR Mate should reset and attempt to reconnect to your iOS device.

Your browser does not support the video tag.

6.2 App Connectivity Issues

- Ensure your iOS device's Bluetooth is active and the AR Mate is within range.
- Restart the Brook AR Mate app.
- If issues persist, try forgetting the device in your iOS Bluetooth settings and re-pairing it.

7. SPECIFICATIONS

Feature	Detail
Brand	Brook
Model	AR Mate
Compatible Devices	Monster Hunter, Pikmin Bloom, Pokémon GO
Hardware Platform	iOS
Item Weight	45 Grams
Item Dimensions	2.44 x 0.87 x 1.18 inches
