

X9

X9 Smart Wireless Video Doorbell User Manual

Model: X9 | Brand: Generic

1. PRODUCT OVERVIEW

The X9 Smart Wireless Video Doorbell is a comprehensive home security solution designed to enhance your front door monitoring. It features 1080P HD video, infrared night vision, and two-way audio communication, allowing you to see and speak with visitors from anywhere using your smartphone.

Key features include:

- **Motion Detection:** Equipped with a PIR sensor, the doorbell sends instant alerts to your app upon detecting movement.
- **Night Vision:** Utilizes an ICR infrared filter for clear visibility in low-light conditions, with a 166° ultra-wide-angle lens.
- **Real-time Intercom:** Engage in live two-way audio communication with visitors via the app, even when you're away.
- **Dual Power Supply:** Supports both lithium battery power for wireless installation and power adapter charging.
- **Chime Compatibility:** Can be paired with a chime offering 38 selectable melodies and 3 adjustable volume levels up to 100dB.
- **Voice Change Intercom:** Features a voice modification function for enhanced privacy during communication.
- **Storage Options:** Supports local and cloud storage for photo and video recording.
- **Multi-user Sharing:** Allows multiple family members to view surveillance video through the Clouledge App.

3. SETUP GUIDE

3.1 Charging the Doorbell

Before initial use, fully charge the doorbell unit using the provided charging cable. The doorbell features a built-in lithium-ion battery designed for long standby time and disassembly-free cycle charging.

Ultra long standby for 365 days Disassembly free cycle charging

Built in lithium-ion high-capacity battery, standby for 365 days,
completely bid farewell to the trouble of frequent battery
replacement

Image: An illustration showing the X9 Smart Wireless Video Doorbell with a lightning bolt icon and circular arrows, indicating its ultra-long standby time of 365 days and disassembly-free cycle charging capability.

3.2 App Installation and Pairing

1. Download the "Clouddedge" App from your smartphone's app store (iOS or Android).
2. Register for a new account or log in if you already have one.
3. Follow the in-app instructions to add your new X9 Smart Wireless Video Doorbell. This typically involves scanning a QR code on the device or entering a device ID.
4. Ensure your doorbell is powered on and in pairing mode (refer to the doorbell's LED indicator for status).
5. Connect the doorbell to your home Wi-Fi network through the app.

3.3 Mounting the Doorbell

Choose a suitable location near your front door, ensuring a clear view of the entrance and good Wi-Fi signal strength. Use the provided mounting hardware to securely attach the doorbell unit. The doorbell is designed for simple installation without complex wiring.

3.4 Pairing the Indoor Chime

The indoor chime unit should automatically pair with the doorbell once both are powered on and within range. If not, refer to the chime's specific instructions for manual pairing. You can select from 38 melodies and adjust the volume (3 levels, including silent mode) on the chime unit.

4. OPERATING INSTRUCTIONS

4.1 Live View and Two-Way Audio

Open the Cloudedge App on your smartphone. Select your doorbell from the device list to access the live 1080P HD video feed. Tap the microphone icon to initiate two-way audio communication with visitors at your door.

Video call Easy handling of visitors

When someone presses the doorbell, the doorbell will push the notification to the mobile phone, and the owner can enter the mobile phone video dialogue interface, which supports sharing to up to 10 members at the same time

Image: A smartphone screen displaying the video call interface of the X9 Smart Wireless Video Doorbell, showing a delivery person at the door. Text indicates "Video call Easy handling of visitors" and explains that the doorbell pushes notifications to the mobile phone, allowing the owner to enter the video dialogue interface and share with up to 10 members.

4.2 Motion Detection Alerts

The doorbell's PIR sensor detects motion and sends push notifications to your smartphone. You can adjust motion detection sensitivity and set activity zones within the app settings to minimize false alerts.

4.3 Night Vision

The doorbell automatically switches to infrared night vision mode in low-light conditions, providing clear black-and-white video footage of your doorstep.

4.4 Voice Change Intercom

For added privacy or security, activate the voice change function during intercom calls. This feature allows you to modify your voice to sound like an "uncle" or other preset options, making it useful when you are alone at home.

Changing voice intercom, girls are not afraid to live alone

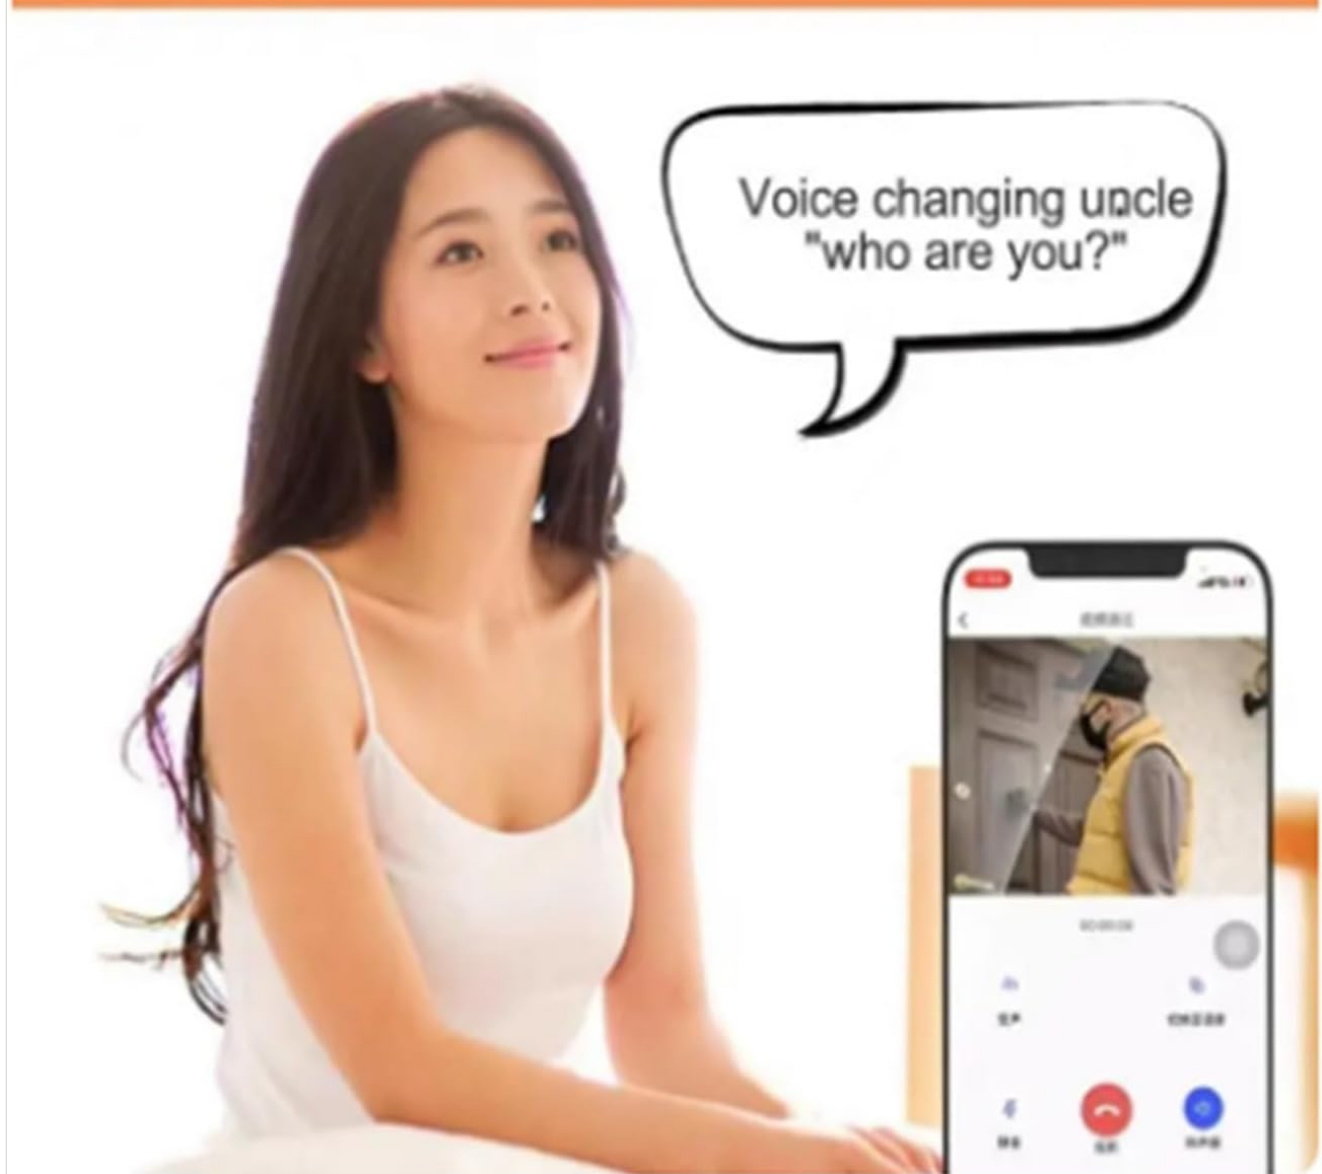

Image: An illustration demonstrating the voice change intercom feature of the X9 Smart Wireless Video Doorbell. A woman is shown with a thought bubble saying "Voice changing uncle 'who are you?'", and a smartphone screen displays a video call with a male figure, indicating the voice modification capability.

4.5 Storage and Playback

The doorbell supports both local storage (no SD card required for basic photo/video recording) and cloud storage. A free 7-day cloud storage service is provided. Access recorded events and playback history through the Cloudege App.

4.6 Low Battery Prompt

You can set a low battery warning threshold (10%-50%) in the Cloudege App. When the battery level falls below this threshold, the app will send you a reminder notification.

4.7 Quick Response Voice Messages

Pre-store up to 3 voice messages, each up to 10 seconds long, in the doorbell. This allows for quick responses to

visitors when you are unable to answer directly.

4.8 Multi-User Function

The Cloudedge App supports multi-user group sharing. Family members can be invited to view the surveillance video. Note that only the administrator account has the right to adjust settings; other members can only view and play back video.

5. MAINTENANCE

5.1 Charging

Recharge the doorbell unit when the low battery prompt is received. The built-in battery is designed for long-term use without frequent replacement.

5.2 Cleaning

Wipe the doorbell's camera lens and body with a soft, damp cloth to remove dust and smudges. Avoid using harsh chemicals or abrasive materials that could damage the device.

5.3 Firmware Updates

Periodically check the Cloudedge App for available firmware updates. Keeping your doorbell's firmware updated ensures optimal performance and access to new features.

6. TROUBLESHOOTING

- **No Power/Not Turning On:** Ensure the doorbell is fully charged. Connect it to the charging cable and allow sufficient time to charge.
- **Cannot Connect to Wi-Fi:**
 - Verify your Wi-Fi network is 2.4GHz (5GHz networks are often not supported by smart home devices).
 - Ensure the doorbell is within range of your Wi-Fi router.
 - Check your Wi-Fi password for accuracy.
 - Restart your router and the doorbell, then attempt pairing again.
- **No Motion Detection Alerts:**
 - Check motion detection settings in the Cloudedge App.
 - Ensure the PIR sensor is not obstructed.
 - Adjust sensitivity settings if necessary.
- **Poor Video Quality:**
 - Check your Wi-Fi signal strength at the doorbell's location.
 - Clean the camera lens.
 - Ensure adequate lighting for optimal video.
- **Two-Way Audio Issues:**
 - Ensure your phone's microphone and speaker are enabled for the Cloudedge App.
 - Check the doorbell's microphone and speaker for obstructions.

- Verify network connectivity.
- **Chime Not Ringing:**
 - Ensure the chime is powered on and within range of the doorbell.
 - Check the chime's volume settings.
 - Re-pair the chime with the doorbell if necessary.
