Sttoraboks PCAS-005

Sttoraboks PCAS-005 Indoor Plant Stand with Grow Lights User Manual

Model: PCAS-005 | Brand: Sttoraboks

Introduction

This manual provides detailed instructions for the assembly, operation, and maintenance of your Sttoraboks PCAS-005 Indoor Plant Stand with Grow Lights. Please read this manual thoroughly before assembly and use to ensure proper function and safety. This plant stand features a multi-tiered design, durable metal frame, and integrated full-spectrum LED grow lights to support plant growth indoors.

Safety Information

- Ensure all components are securely fastened before placing plants or other items on the stand.
- Do not overload shelves beyond their weight capacity. Refer to the Specifications section for weight limits.
- Keep electrical components (grow lights, power cords) away from water to prevent electric shock.
- Use the provided anti-toppling straps to secure the plant stand to a wall, especially in households with children or pets.
- Do not attempt to modify the product in any way, as this may void the warranty and create safety hazards.
- Place the stand on a flat, stable surface to prevent tipping.

Package Contents

Please verify that all parts are present before beginning assembly. If any parts are missing or damaged, contact customer support.

- Metal Frame Components (various shapes and sizes)

- Wooden Shelf Boards (multiple sizes)
- Full-Spectrum LED Grow Lights (3-head unit)
- Hanging Hooks
- Adjustable Anti-slip Foot Pads
- Anti-toppling Straps
- Assembly Hardware (screws, screwdriver, small wrench)

Video: A step-by-step visual guide demonstrating the assembly process of the Sttoraboks plant stand, from unboxing to final

setup.

1. **Prepare the Base:** Attach the adjustable anti-slip foot pads to the bottom of the lowest wooden shelf board using screws and washers. Ensure they are securely tightened.
2. **Install Lower Supports:** Insert the four short vertical metal pipes into the designated holes on the lowest wooden shelf board.
3. **Attach Second Shelf:** Place the next wooden shelf board onto the top of the vertical pipes, aligning the holes. Secure with screws.
4. **Assemble Curved Frame (Lower Section):** Attach the lower curved metal frame sections to the assembled base, connecting them to the wooden shelves and vertical supports as indicated in the diagram.
5. **Add Intermediate Shelves and Supports:** Continue adding the remaining wooden shelves and vertical metal pipes according to the design, ensuring all connections are firm.
6. **Install Top Curved Frame:** Attach the top curved metal frame to the upper section of the stand. This frame includes the hanging point for the grow light.
7. **Secure Grow Lights:** Attach the grow light rings to the designated points on the curved frames. The grow light unit typically has adhesive pads or clips for attachment.
8. **Final Checks:** Double-check all screws and connections to ensure the stand is stable. Attach the anti-toppling straps to the top of the stand and secure them to a wall stud or appropriate anchor point.

Operating Instructions: Grow Lights

The integrated full-spectrum LED grow lights are designed to provide optimal lighting for your plants. The lights feature a 3-head design, adjustable brightness, and a timer function.

Grow Light Controller Functions:

Image: Close-up of the grow light controller, showing buttons for power, light mode selection, brightness adjustment, and timer settings.

- **Power Button:** Press to turn the grow lights On or Off.
- **Mode Button:** Cycle through 3 lighting modes: Warm Light, Warm + White Light, and White Light. Select the mode best suited for your plants' needs.
- **Brightness Adjustment:** Use the '+' and '-' buttons to select from 10 levels of adjustable brightness.
- **Timer Function:** Set the lights to automatically turn off after 3, 9, or 12 hours. The lights will then automatically turn on at the same time the next day.

For optimal plant growth, consider the specific light requirements of your plants when selecting brightness and duration.

Maintenance

- **Cleaning:** Wipe down the metal frame and wooden shelves with a soft, damp cloth. Avoid abrasive cleaners that could damage the finish. Ensure grow lights are off and unplugged before cleaning.

- **Grow Lights:** Periodically check the grow lights for dust accumulation. Gently wipe them with a dry, soft cloth to maintain light output efficiency.
- **Stability Check:** Regularly inspect all screws and connections to ensure they remain tight. Re-tighten if necessary to maintain the stand's stability.
- **Water Exposure:** While the wooden boards are water-resistant, avoid prolonged exposure to standing water to prevent warping or damage. Promptly wipe up any spills.

Troubleshooting

Problem	Possible Cause	Solution
Grow lights do not turn on.	Power cord not plugged in; power outlet not working; light controller malfunction.	Ensure the power cord is securely plugged into a functional outlet. Test the outlet with another device. If the issue persists, contact customer support.
Plant stand feels unstable or wobbly.	Loose screws; uneven floor; overloaded shelves.	Check and tighten all assembly screws. Adjust the anti-slip foot pads to level the stand on uneven surfaces. Redistribute weight or reduce items on shelves if overloaded. Ensure anti-toppling straps are installed.
Plants are not growing well under the lights.	Incorrect light mode or brightness; insufficient light duration; plant-specific needs not met.	Adjust the light mode and brightness according to your plants' requirements. Increase the timer duration if needed. Ensure proper watering and nutrient supply for your plants.

Specifications

Model: PCAS-005

Brand: Sttoraboks

Color: Black (Frame) / Brown (Shelves)

Material: Heavy-duty Metal Frame, Water-resistant Wooden Boards

Special Features: Integrated Full-Spectrum LED Grow Lights, Multi-Tiered Design, Hanging Hooks, Anti-slip Foot Pads, Anti-toppling Straps

Light Modes: 3 (Warm, Warm+White, White)

Brightness Levels: 10

Timer Settings: 3H, 9H, 12H

Assembly Required: Yes

Mounting Type: Floor Mount

Item Weight: Approximately 26.9 pounds

Package Dimensions: Approximately 23 x 14 x 8 inches

Max Load Capacity per Shelf: Varies by shelf position (e.g., top shelves approx. 4.4 lbs, lower shelves up to 44 lbs). Distribute weight evenly.
