UNITSTAGE 5-Tier Shoe Rack with 2 Fabric Drawers Instruction Manual

Brand: UNITSTAGE | Model: B0F2MLNYJX

INTRODUCTION

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your UNITSTAGE 5-Tier Shoe Rack with 2 Fabric Drawers. Designed for efficient storage in entryways, closets, living rooms, bedrooms, or hallways, this shoe rack combines a durable metal frame with rustic brown wooden boards and fabric drawers. Please read these instructions carefully before assembly and use to ensure proper function and longevity of the product.

PRODUCT FEATURES

- **Large Capacity:** Measures 37.4"L x 10.83"W x 31.7"H, featuring 5 tiers capable of accommodating 16-20 pairs of shoes. Each layer can hold approximately 4 pairs of women's shoes or 3 pairs of men's shoes.
- **Durable Construction:** Built with a robust metal frame and MDF board, supporting up to 50 lbs on the top surface.
- **Integrated Fabric Drawers:** Includes two fabric drawers for storing smaller items such as socks, keys, chargers, or other accessories, helping to maintain an organized space.
- **Adjustable Shelving:** Features shelves of varying heights, with the option to remove one or more shelves to create taller storage spaces for boots or larger items.
- **Enhanced Stability:** Equipped with adjustable feet for leveling on uneven surfaces and an anti-toppling belt for secure wall attachment, ensuring overall durability and stability.

ASSEMBLY INSTRUCTIONS

The UNITSTAGE 5-Tier Shoe Rack is designed for straightforward assembly. All necessary parts and tools are included in the package. Please follow the detailed step-by-step instructions provided in the included assembly manual. It is recommended to verify all components are present before beginning assembly.

Figure 1: Fully assembled UNITSTAGE 5-Tier Shoe Rack, showcasing its rustic brown finish and functional design.

Key Assembly Steps:

1. Unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Identify each part using the provided labels (e.g., A, B, C) and cross-reference with the parts list in the manual.
3. Attach the metal frame components according to the diagrams. Ensure all screws are tightened securely but do not overtighten until the unit is fully assembled.
4. Install the wooden top board and the metal grid shelves into their designated positions.
5. Insert the two fabric drawers into the designated compartments.
6. Attach the adjustable feet to the bottom of the frame and adjust them to level the unit.
7. Secure the anti-toppling belt to the back of the unit and to a wall stud to prevent accidental tipping.

OPERATING AND USAGE

This shoe rack is designed for versatile storage of various footwear and small items.

- **Shoe Storage:** Utilize the five metal grid shelves for organizing shoes. Each shelf can hold multiple pairs, depending on shoe size and style.
- **Boot Storage:** For taller footwear like boots, remove one or more shelves on the left side to create ample vertical space. The modular design allows for customization to fit your specific storage needs.
- **Drawer Use:** The two fabric drawers are ideal for discreetly storing small personal items, such as socks, shoe care products, keys, wallets, or electronic accessories.
- **Top Surface:** The wooden top board can be used to place decorative items, small plants, or frequently accessed items like keys or mail. Ensure the weight limit of 50 lbs is not exceeded.

Removable Shelves

Suitable for tall boots and boxes

MAINTENANCE

To ensure the longevity and appearance of your shoe rack, regular maintenance is recommended:

- **Cleaning:** Wipe the metal frame and wooden surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Fabric Drawers:** The fabric drawers can be spot cleaned with a mild detergent and air-dried. Do not machine wash.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.
- **Placement:** Avoid placing the unit in direct sunlight or near heat sources to prevent warping or fading of the wooden components.

TROUBLESHOOTING AND SAFETY

Adhering to safety guidelines and proper usage can prevent common issues:

- **Stability Issues:** If the rack feels unstable, ensure all adjustable feet are properly leveled and the anti-toppling belt is securely fastened to a wall stud.

- **Overloading:** Do not exceed the stated weight limit of 50 lbs for the top surface or overload individual shelves. Overloading can compromise stability and cause damage.
- **Sharp Objects:** Avoid placing heavy or sharp objects directly on the metal grid shelves without protection, as this may cause damage.
- **Missing Parts:** If any parts are missing or damaged upon arrival, please contact customer support immediately for assistance.
